TRACKMAN

FOR A BETTER GAME

WHY TRACKMAN?

The driving range will take your money and give you nothing back. No data. No feedback. No idea whether you're grooving a better swing or just reinforcing the same bad habits — bucket after bucket.

A session in the Swing Lab is different.

Every session, you're training on Trackman IO & TPS Studio — the same launch monitors and technology trusted by tour professionals and elite coaches worldwide. That means over 26 key data points on every single shot: ball speed, club speed, attack angle, face-to-path, spin rate, carry distance, low point and more.

You'll know exactly what your swing is doing, exactly where the gaps are, and exactly what to work on next. Not a feeling. Not a guess. Real numbers. Every session recorded on your Trackman App.

Whether you're brand new to the game or chasing a scratch handicap, Trackman IO meets you where you are and shows you precisely where to go. Pair that with our face-on and down-the-line swing cameras, infrared strike camera, and a fully private bay — and you've got a training environment that most golfers never get access to.

This is purposeful practice, lasting improvement!

Why A Swing Lab Membership?

As Golfer's, no matter what your level, we are all looking to get better, and consistency breeds success!

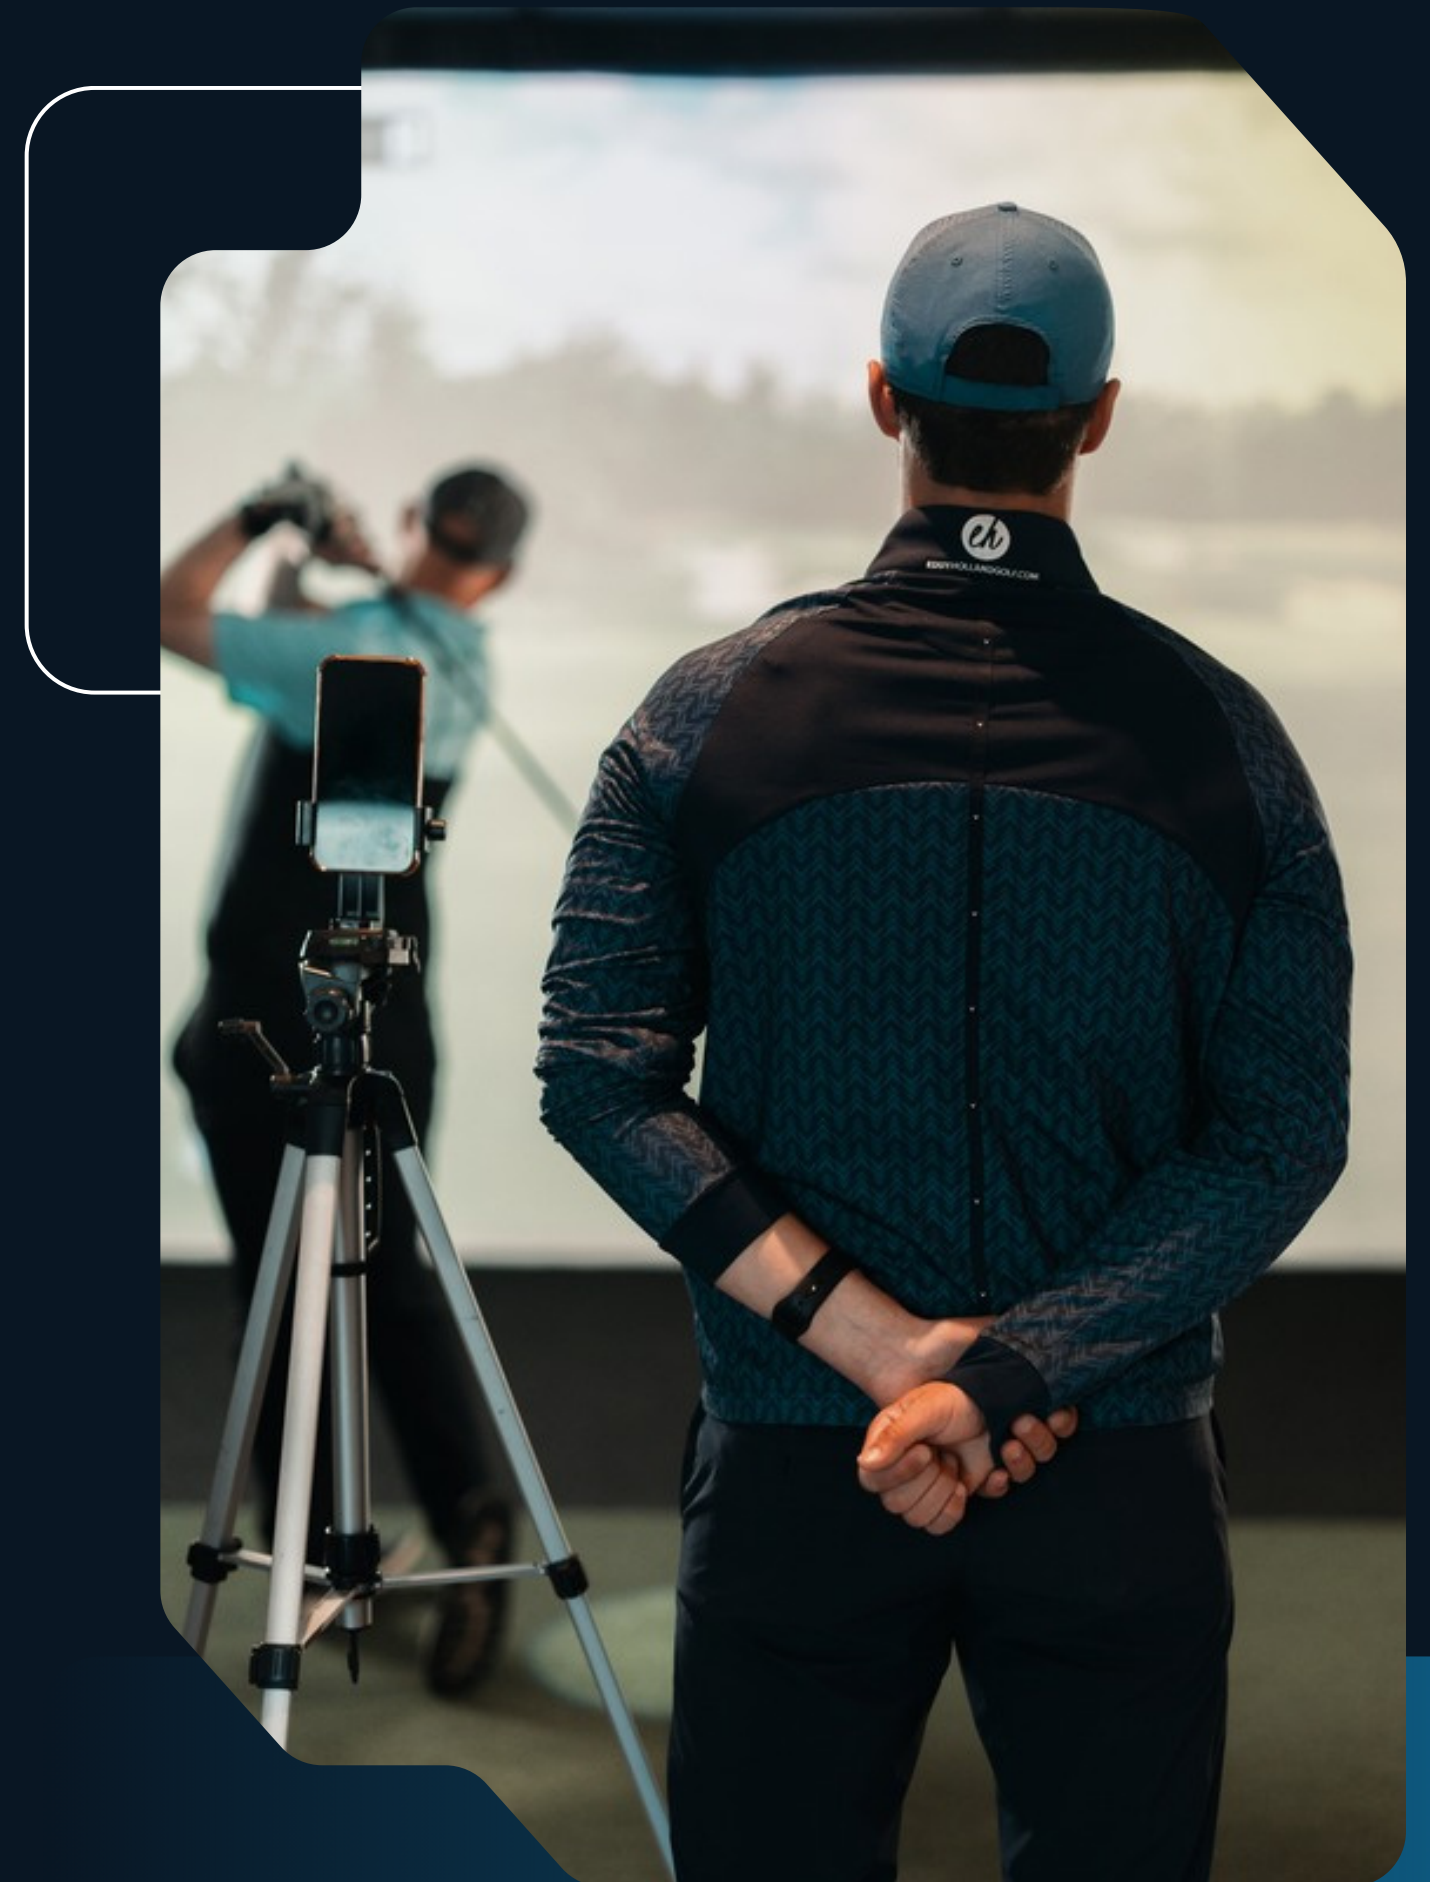

Like anything worth doing, improving your golf comes down to one thing: consistency. Turning up & Putting in the reps. - Grooving the right path, face angle, and strike location on the practice tee until it becomes second nature on the course.

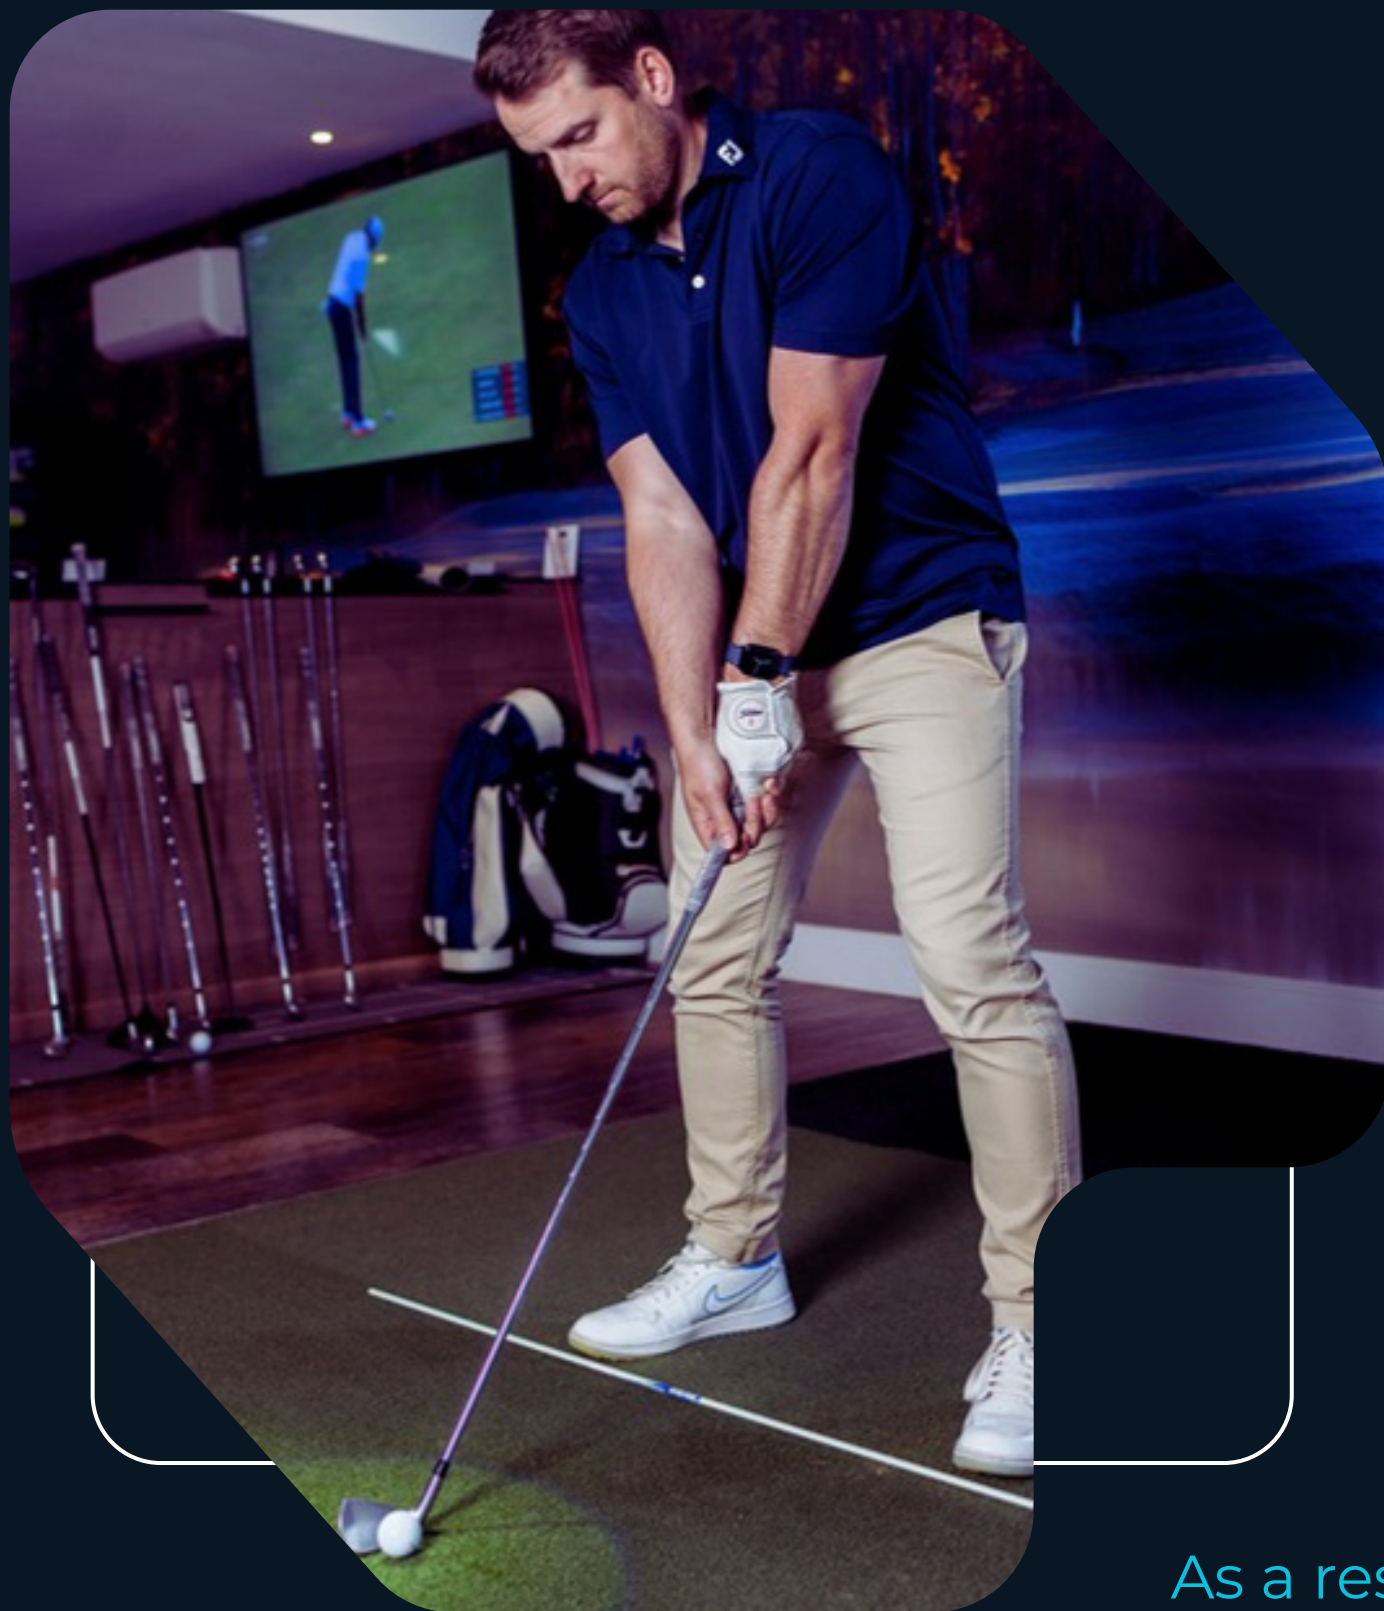

But repetition without feedback is just hope — and hope doesn't lower your handicap. You need the technology and data to know the reps are taking you in the right direction.

With all of our membership packages, you get allocated Bay hours to use 7 days a week, to suit your life, work & golfing commitments. Ensuring you allocate sufficient time to work on your game.

Course practice is made easier in the Bay, real courses, real scenarios. Struggling with 100 yards and in? Tee shots with a tight OB on the right hand side? Fear of Par 3's over water?

There is a indoor scenario for most eventualites!

Every Swing Lab member benefits from

- Inclusive Bay hours per month, to split how you wish (Bookings in 30 min increments) this provides freedom throughout the month.
