Re: Concrete Plant Approval
Facility No.C0567

Gentleman:

On 07-29-2025 personnel from Regional Materials Office inspected your concrete production facility located at 2828 GULF AVE., STATEN ISLAND, N.Y.

As a result of this inspection, it has been determined that the physical plant features, the automation and recordation equipment at this facility are in conformance with the requirements outlined in Section 501 of the New York State Department of Transportation Specifications of January 1, 2025, as addended.

Approval is hereby given to supply concrete from this facility to department projects until 07-29-2026.

This approval is contingent on your ability to continue to meet all N.Y.S.D.O.T. specifications and all health and safety requirements. Periodic inspections, sampling and testing will be made to ensure continued compliance.

Any questions, call me at 718-529-3310

Yours truly,

For
Regional Materials Engineer - Region 11
