

Trade local. Keep more cash.

YOUR QUICK START GUIDE

Turn open appointments, extra inventory and unused business capacity into LTP Dollars. Then put them to work with fellow members.

1 LTP\$ = \$1 in purchasing value within the LTP network.

1 Get ready to trade.

Download **Local Trade Partners Mobile** and sign in with your email and password. Keep your member card handy. Need access or an easy selling setup? Give us a call.

2 Make a sale. Do a little happy dance.

At localtradepartners.com, choose **Authorize**, or use the member app. Have your account number, the buyer's 5-digit member number and sale details ready. Authorize every sale **before** releasing goods or services.

Remember: Buyers pay sales tax and tips in cash. Other cash arrangements require advance approval from the LTP office.

3 Show the network what you do.

Send us a short business description and photos you have permission to use. We'll help with your listing and marketplace offers. Price marketplace items as you would for cash and sell them for **100% LTP\$**.

4 Spend local. Smile more.

Browse the member directory for your next meal, haircut, business service or everyday need. Spend LTP\$ on things you need now and keep your cash for other priorities. Ask us about cards for family or key employees.

LET'S GET YOU TRADING!
