## Local Production

Our locally made products shorten supply chains, reduce carbon footprints, and create job opportunities, supporting the Jamaican economy.

## Eco-Friendly Materials

Made from high-quality Kraft paper, our lunch boxes are biodegradable and compostable, significantly reducing environmental impact.

## Health and Safety

Our lunch boxes provide a safe and healthy food packaging solution free from harmful chemicals and toxins.

## Durable and Leak-Resistant

Our lunch boxes are sturdy, leak-resistant, and keep food fresh during transport. With a "32 ECT" rating, they withstand 32 pounds per inch of edge.

In addition to our lunch boxes, Boxpert Limited will soon expand our product range to include eco-friendly cups, plates, straws, and utensils. These products will further support Jamaica's transition to a more sustainable and plastic-free environment.
