HERSHYWAY Ltd
outdoor furniture

ABOUT US

For the past 36 years, we at Hershy Way strive to be there for our fellow man! Our products, both recycled plastic and wood, begin on U.S. soil. The materials we use are gathered by American people and handcrafted by us in Ohio into solid pieces of porch and outdoor furniture. We enjoy helping people unwind on the front porch. Whether it involves sitting and chatting with family, reading the Bible while the first rays of the sun warm the earth, singing a lullaby as you rock your children to sleep, or just simply enjoying the outdoors, life's problems seem smaller when time is shared with a friend. We manufacture our products with hope that families and neighborhoods will gather and spend joyous times together.

OUR SELECTION OF FURNITURE AND SWINGS

**Poly Outdoor Furniture*

Safe, fade-resistant, eco-friendly and tough enough to take your pick of outdoor weather from full sun to deep snow. Available in a wide variety of colors.

**Cypress Porch Furniture*

With the warm feel of wood, Cypress is a great natural choice for PORCH furniture. It takes most tinted stains or paints. If left under the outdoor elements, Cypress will turn to a driftwood gray in about a years time.

**Treated Outdoor Furniture*

Yellow Pine has the feel of wood, but is treated to withstand the outdoor elements. This particular swing may turn gray and crack over time, but is receptive to many great outdoor tinted stains and paints.

**All products pictured are in stock or available painted with short lead times using stainless steel hardware for assembly*

MANCHESTER
