## SINGER SONGWRITER SPEAKER

Al Bettis began writing and singing at 30, answering a spiritual call to heal through song and proving it's never too late to be what you might have been. The self-taught acoustic guitarist has built a devoted following with smooth, soulful vocals and heartfelt lyrics, taking audiences on a journey through love, heartbreak, and redemption. Inspired by artists like Al Green, Jason Mraz and Otis Redding, he blends alternative R&B, jazz, and folk-pop into a style uniquely his own.
