

Chocolate Robins

Ingredients

Strawberries

Chocolate

Edible eyes

Carrot

Decorations

Method

Melt the chocolate: Break the chocolate and microwave it, in intervals, until melted, stirring often.

Prepare the strawberries: Wash and dry the strawberries. Make sure you dry them well, or else the chocolate isn't going to stick.

Assemble the chocolate strawberry birds: Thread a strawberry onto a skewer and dip into the melted chocolate, before pressing on the candy eyes and making a carrot beak shape.

Let them set: Let the strawberry birds set for half an hour before serving.
