

Shrinky Charms

Equipment

Shrinky Dink Sheets

Permanent Marker

Earring Making Supplies, Keyrings, etc.

Holepunch

Pliers

Scissors

Method

1. Choose the template you want or design your own and add it directly on the rough side of the Shrinky Dink sheet.
2. Colour the templates using coloured pencils on the rough side. The design may appear dull, but it will intensify once cooked.
3. Cut out the template pieces using small scissors.

4. Use a hole punch to create a hole where you want to attach your earring hook or keyring. No hole is required for a magnet or post earrings
5. Preheat your oven to (160°C).
6. Place your cut-out pieces on a parchment or foil-lined baking sheet and bake them in the oven for 1-2½ minutes.
7. Once they flatten out, leave them in the oven for another 30 seconds. Watch as they magically shrink and become thicker and more durable!
8. Once shrunk, remove them from the oven and let them cool for a few minutes.
9. Attach your earring hooks or keyrings using pliers
