This is to certify and confirm that **GEMRAC Consulting & Management Corp.**, legally owned and represented by **Mr. Meguel A. Newton, Chairman and Legal Owner**, Passport No.: R317171, and **Mr. Ruwan Gilian Adjako, Chief Executive Officer and Legal Owner**, Passport No.: R2008022, and **SINERGIA International Limited**, represented by its Legal Representative, **Mr. Earl Strohschein**, holder of **Canadian Passport No. PE814123**, are strategic business partners engaged in the development, structuring, financing, management, and execution of international trade, commodity, infrastructure, investment, and corporate transactions across multiple jurisdictions.

This strategic partnership combines the commercial, operational, compliance, and transaction management expertise of GEMRAC with the financial structuring, banking relationships, capital access, and financial instrument capabilities of SINERGIA International Limited. Together, the Parties work collaboratively to identify, develop, facilitate, finance, and execute international business opportunities while providing comprehensive solutions to

clients, investors, governments, financial institutions, and corporate entities worldwide.

The Parties jointly support a broad range of commercial activities, including but not limited to:

- International commodity trading and transaction management;
- Gold, precious metals, and mineral sourcing and supply chain management;
- Trade finance structuring and facilitation;
- Corporate finance and investment advisory services;
- Project financing and capital raising initiatives;
- Infrastructure and development projects;
- Due diligence, compliance, KYC/AML, and transaction support services;
- International business development and market expansion;
- Strategic partnerships, mergers, acquisitions, and joint ventures;
- Government and institutional project support;
- Asset-backed transactions and structured financial solutions.

A principal area of cooperation between the Parties is the international trade of gold and other precious metals. GEMRAC and SINERGIA work together in the sourcing, procurement, financing, transportation, verification, refining, and sale of gold bullion, dore bars, and other precious metal products originating from lawful and approved sources. The partnership supports the entire precious metals value chain, including miner engagement, supplier onboarding, refinery coordination, assay and verification procedures, secure logistics, buyer sourcing, transaction structuring, documentation management, settlement coordination, and post-transaction support.

The Parties are committed to ensuring that all precious metals transactions are conducted in accordance with applicable international laws, anti-money laundering (AML) regulations, Know Your Customer (KYC) requirements, responsible sourcing principles, sanctions compliance requirements, and internationally recognized industry best practices. Through their combined expertise and global network of partners, the Parties facilitate secure, transparent, and efficient precious metals transactions while mitigating commercial, operational, and financial risks.

As part of this strategic alliance, **SINERGIA International Limited is responsible for arranging, sourcing, coordinating, facilitating, and providing financial instruments on behalf of GEMRAC Consulting & Management Corp.** for approved commercial and commodity transactions. Such financial instruments may include, but are not limited to:

- Standby Letters of Credit (SBLC);
- Bank Guarantees (BG);
- Documentary Letters of Credit (DLC);
- Proof of Funds (POF);
- Bank Comfort Letters (BCL);
- Performance Bonds;
- Payment Guarantees;
- Financial Commitments; and
- Other internationally recognized banking and trade finance instruments.

These financial instruments are utilized to support commodity transactions, gold trade operations, infrastructure projects, investment initiatives, and other international commercial activities requiring financial security, performance assurance, or payment guarantees.

GEMRAC remains responsible for client acquisition, transaction origination, commodity sourcing, supplier and buyer relationships, contract negotiations, compliance coordination, project management, and operational execution. SINERGIA provides financial structuring expertise, banking relationships, access to financial instruments, and transaction support services necessary to facilitate and enhance the successful completion of approved transactions.

Through this partnership, the Parties provide end-to-end transaction solutions, including opportunity identification, transaction structuring, due diligence, compliance management, financial instrument facilitation, risk mitigation, project financing, investment advisory services, contract administration, and transaction execution support. Their combined capabilities enable counterparties to access integrated commercial and financial solutions designed to facilitate successful, compliant, and commercially viable transactions across international markets.

This strategic partnership is founded upon a shared commitment to professionalism, transparency, integrity, responsible business conduct, regulatory compliance, and the delivery of value-added solutions that promote sustainable business growth and long-term commercial success. By leveraging their respective expertise, resources, industry knowledge, and international networks, GEMRAC Consulting & Management Corp. and SINERGIA International Limited are positioned to provide comprehensive trade, precious metals, investment, and financial solutions while enhancing transaction efficiency, reducing execution risks, and creating opportunities for stakeholders worldwide.

This Statement is issued for business verification, due diligence, compliance, banking, regulatory, commercial, and transactional purposes and may be presented to financial institutions, government agencies, regulatory authorities, investors, counterparties, refineries, commodity suppliers, buyers, and other relevant stakeholders as evidence of the strategic partnership existing between the Parties.
