Destination Zanzibar

Location & Features

Zanzibar is a semi-autonomous part of Tanzania in East Africa. It is composed of the Zanzibar Archipelago in the Indian Ocean, 20-25 kilometers off the coast of the mainland. The name Zanzibar is apparently derived from the Persian zang-bar signifying "black coast". Zanzibar's main industries are spices, raffia and tourism. Generally the island produces cloves, nutmeg, cinnamon and black pepper. For this reason, the island is sometimes called the Spice Island.
