

Superhost Comeback

Fall 2026 Launch - NYC Activation Week

A curated multi-author book featuring a select group of serious STR operators who have navigated disruption and rebuilt stronger.

This project is centered on infrastructure, resilience, and long-term control in the short-term rental industry.

What if you lost everything?

“What if you lost everything... how would you rebuild your short-term rental empire in 30 days?”

From the desk of: Judah Swagerty, Co-Founder

When I first entered the short-term rental (STR) industry, I wasn't a host... I was a brand marketer. My business partner and I co-founded a marketing agency focused on helping hosts build direct-booking websites and establish real brands online. We believed operators should control their revenue, build sustainable systems, and avoid relying entirely on platforms like Airbnb and Vrbo.

Then COVID-19 hit.

Almost overnight, I watched friends and clients face **mass cancellations and financial uncertainty**. Hosts flooded Facebook groups sharing their reality... refunded bookings, empty calendars, and no clear path forward. Headlines focused on travelers. Few were talking about the operators who had invested everything into their properties and their businesses.

Some left the industry. Others pivoted... long-term stays, mid-term rentals, creative survival strategies. But what stood out to me wasn't just the disruption. It was how exposed many operators were when platforms paused and markets shifted.

And COVID wasn't the last disruption.

Since then, we've seen regulatory crackdowns, economic shifts, hurricanes, wildfires, floods, and algorithm changes that reshaped visibility overnight.

In moments like that, the question becomes simple...

How do you rebuild?

How do you come back stronger?

Through every storm, one truth remains... the strongest operators don't disappear. They adapt. They systemize. They rebuild with intention.

Superhost Comeback is about that resilience... and the practical 30-day framework serious operators would use to rebuild from the ground up.

Our Mission

The short-term rental industry has experienced unprecedented disruption over the past several years. From global shutdowns and regulatory changes to natural disasters, shifting traveler behavior, and platform algorithm updates, operators have been forced to adapt in ways few industries have experienced.

Superhost Comeback exists to document those stories.

Our mission is to bring together a carefully selected group of experienced short-term rental operators who have faced adversity, rebuilt with intention, and discovered practical strategies that create stronger, more resilient businesses. This is more than a collection of success stories. It's a blueprint for long-term thinking, operational resilience, and infrastructure that extends beyond any single booking platform.

By sharing these lessons, we hope to encourage the next generation of operators to build businesses that can withstand uncertainty, embrace change, and create lasting impact in the communities they serve.

This isn't just about making a comeback.

It's about building a business that's stronger because of what you've overcome.

Join a Curated Group of Industry Leaders

Superhost Comeback is more than a multi-author book. It's a curated collection of experienced short-term rental operators who have navigated uncertainty, adapted to change, and emerged with stronger businesses and valuable lessons to share.

To preserve the quality and integrity of the project, **participation is intentionally limited to a small, curated group of operators**. Our goal is to create a focused publication that reflects a diverse range of real-world experiences, practical strategies, and resilient business models that can inspire and educate both current and future operators.

Whether you've overcome the challenges of COVID-19, adapted to evolving regulations, built a thriving direct-booking strategy, expanded into mid-term rentals, implemented scalable systems, or discovered innovative ways to strengthen your business, your story has the potential to help others prepare for whatever comes next.

This project is designed for operators who understand that long-term success isn't built by avoiding disruption... it's built by responding to it with vision, discipline, and resilience.

If you're committed to elevating the industry, sharing your journey, and positioning yourself alongside other respected professionals, we invite you to explore the participation level that best aligns with your goals.

Together, we're not simply publishing a book.

We're documenting the comeback stories that will help shape the future of the short-term rental industry.

Payment plans are available via Klarna, Affirm, or a structured 3-part in-house plan.

Project Timeline:

Enrollment: Through August

Chapter Submission Window: September 7-14

Editing & Book Production: August - September

Pre-Launch Book Campaign: September

Launch + NYC Activation: Fall 2026

Frequently Asked Questions

Why is the Contributor level "Pay What You Think It's Worth?"

We believe the stories shared in **Superhost Comeback** have the power to encourage, educate, and strengthen the short-term rental community. Rather than placing a fixed price on participation, we've chosen a **"Pay What You Think It's Worth"** model for our Contributor level because we'd rather assemble an exceptional group of operators than maximize profits on this project. Plus it's a way for us to give back to operators.

We're passionate about helping entrepreneurs share their experiences, build lasting authority, and make a meaningful impact on others navigating similar challenges. While publishing a high-quality book requires a significant investment of time, expertise, and resources, our priority is creating something that genuinely serves the industry.

Who is this book designed for?

Superhost Comeback is designed for experienced short-term rental operators, hosts, co-hosts, investors, and property managers who have faced meaningful challenges, adapted to change, and have valuable insights to share. Whether your story centers around rebuilding after COVID-19, navigating regulations, creating direct-booking systems, or developing operational resilience, your experience could help someone else prepare for the future.

Do I need to be a professional writer?

Not at all. Many of our bestselling authors had never written a book before joining one of our projects. Seven Moon Publishing provides guidance throughout the process, including chapter development resources, editorial feedback, and support to help you confidently tell your story while maintaining your authentic voice.

Why are only a small number of contributors being selected?

We intentionally limit this project to a small group of contributors to maintain a high standard of quality and ensure every author receives meaningful support throughout the publishing process. A focused collection of exceptional stories creates a stronger book, a stronger launch, and greater credibility for every contributor involved.

What happens after I apply?

The first step is a brief Author Alignment Call. During our conversation, we'll learn more about your story, discuss your goals, answer any questions you may have, and determine whether **Superhost Comeback** is the right fit for both you and the project. If we're aligned, you'll receive everything you need to begin developing your chapter and preparing for the Fall 2026 launch.
