SUSTAINABILITY AT OUR CORE.

Because we care about the world we live in just as much as you do, Jackstraw is the first residential community in Bend to pursue LEED for Homes Platinum. We're aiming for Net-Zero readiness, and are future-proofed to accommodate rooftop solar arrays.

Jackstraw is an all-electric building, with no fossil fuels used in the building's operations or our unit appliances. We'll have over 60 electric vehicle charging stations, as well as base wiring to add plenty more stations in the years to come. Just our little bit toward keeping Oregon green.

Ultra-local honey, anyone? We're partnering with an urban beekeeping operation called Alvéole to manage several honeybee hives right on Jackstraw's property. This sweet endeavor will include honey tastings, workshops, and more, led by our dedicated beekeeper.

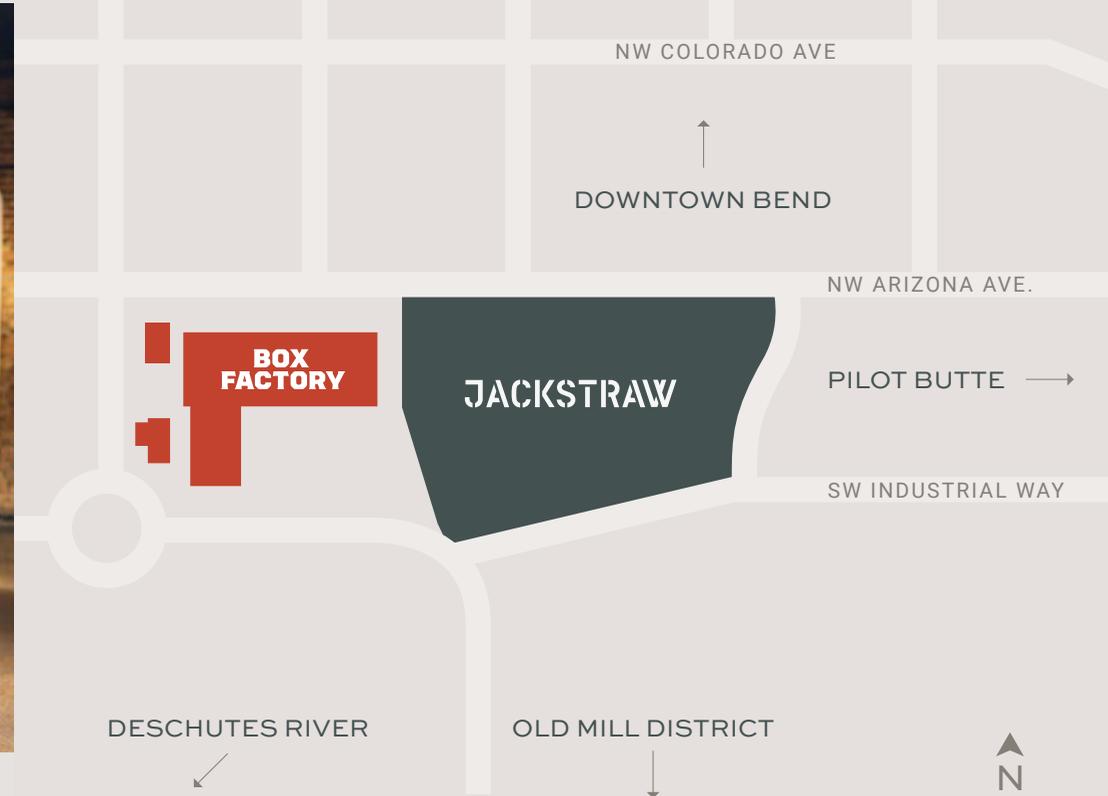

NEIGHBORHOOD

LIVE AT THE CROSSROADS OF BEND.

Shop local and live global. Walk to dinner downtown, or boogie board the Whitewater Park just outside your door. Afoot or afloat, everything Bend is right here at the heart of your very own neighborhood.

Spend some quality time at Box Factory next door—with Danner, Stoller winery, and River Pig (among plenty others) on offer. Or just head downstairs to enjoy Sisters Coffee, Drybar, and the Way West right in the building. Plus we have a little slice of European charm right here at home with Lava Pass—our own Dutch-inspired “living street.” Hang out and have a chat. Stroll around a little and check out the sculpture garden, or hop across the river for a live show at the Hayden Homes Amphitheater. All kinds of health, wellness, and retail are all right within easy reach.
