WISELIVING

Thermalux

RANGE

WISELIVING manufactures the Australian made Thermalux range of slow-combustion wood stoves, boilers and cookers. All Thermalux products are individually handcrafted by master tradesmen to ensure quality and individuality not achieved by mass production.

GOURMET COOKER

The Thermalux Gourmet Cooker by WISELIVING heats, cooks and provides hot water for the whole family. Offering a large space heating capacity of up to 180m² and generous hotplate and oven, it will quickly become the heart of your home.

The Gourmet is available in seven different colours, and can be fitted with an optional 5kW, 8kW or 15kW boiler for heating your Domestic Hot Water and/or Hydronics.

Standard inclusions with the Gourmet are a wire cooking rack and cooking tray for the oven, an ash scraper, thermometer, chrome spring handles and a Metallic Black cooktop. The Gourmet pictured is Metallic Blue and features a Splashback and Stainless Steel Flue, both which are additional extras.

Please note: Colours may vary. Flue Kit and Splashback are sold separately. See page 47 for further colour info.

CLARENDON

Thermalux Stoves

The Clarendon is an extremely fuel efficient, small to medium-sized slow combustion wood stove, and when paired with a splash-back and 'Queen Anne' styled legs, makes a perfect addition to any cottage or country style kitchen.

The Clarendon comes standard with a single oven, a large lift-off Heavy Steel Hotplate, Hotplate covers, a centrally located flue, a firebox and ashpan. An optional **5kw** or **8kw** boiler for Domestic Hot Water or Hydronic Heating. Additionally Includes 1x Hotplate Lifter (large), 1x Wire Rack, 1x S/S Oven Tray, 1x Ash Scraper, 1x Knob Turner and Ashpan tool.

The pictured unit is painted Golden Fire Brown with a Metallic Black Cooktop, and features Queen Anne legs and a Splash-back.

Please note: Flue kit, Splash-back and Legs or Base Cabinet are sold separately. Colours may vary to image - see pages 47 & 48 for full colour range.

CLARENDON LEGACY

The Clarendon Legacy combines home cooking with the cosy feel of an open fire thanks to the dedicated glass firebox door. The optional splash-back helps minimize clutter, provides a place for proofing breads and doughs, or even keeps your dishes warm for serving.

It comes standard with a single oven, a large lift-off heavy steel hotplate, hotplate covers, a centrally located flue spigot, and glass firebox & oven doors. An optional **5kw** or **8kw** boiler can be fitted for your homes domestic hot water needs.

Accessories included are 1x Hotplate Lifter (large), 1x Wire Rack, 1x S/S Oven Tray, 1x Ash Scraper, 1x Spindle Turner / Ashpan Remover Tool, and a Cooking Shield for the firebox.

The pictured unit is Charcoal. **Please note:** Flue kit & splash-back are additional extras. Colours may vary - see page 47 for full colour range.

The Supreme MK III is a high-quality, dual oven slow combustion cooking stove with the largest hotplate of any Australian made cooking stove on the market. Constructed from cast iron, heavy gauge steel and stainless steel, our cookers are built to last up to 50 years.

This unit comes standard with two ovens, a large lift-off Cast Iron Hotplate, Hotplate covers, firebox and ashpan. An optional **5kW, 8kW** or **20kW** boiler for Domestic Hot Water and Hydronic Heating. Additionally Includes 1x Hotplate Lifter (large), 2x Wire Rack, 1x Stainless Oven Tray, 1x Ash Scraper, 1x Knob Turner and Ashpan tool.

The pictured unit is Metallic Black with Hammertone Grey doors.

Please note: Colours may vary. See pages 47 & 48 for full colour range.

WOOD-FIRED

Boilers & Heaters

RANGE

WISELIVING manufactures the Australian made Thermalux range of slow-combustion wood stoves, boilers and cookers.

All Thermalux products are individually handcrafted by master tradesmen to ensure quality and individuality not achieved by mass production.

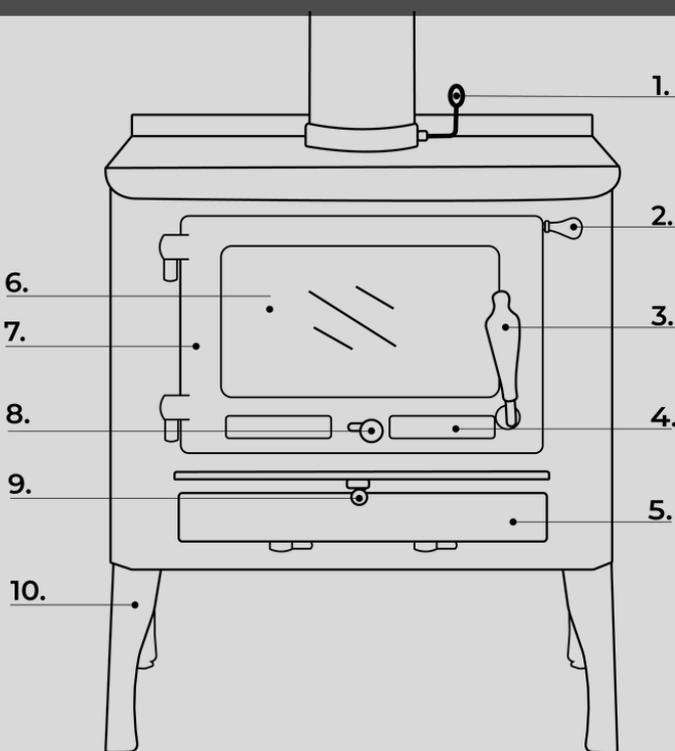

LINEA

Despite its compact footprint, the Linea Hydronic Boiler delivers up to 20 kW of high-performance hydronic heating, efficiently heating water that is circulated through radiators or in-floor heating systems to warm the home. A glass firebox door provides the visual ambience of a traditional fireplace, allowing you to enjoy the comfort and atmosphere of a real flame while the system quietly and reliably delivers whole-home heating via hydronic power.

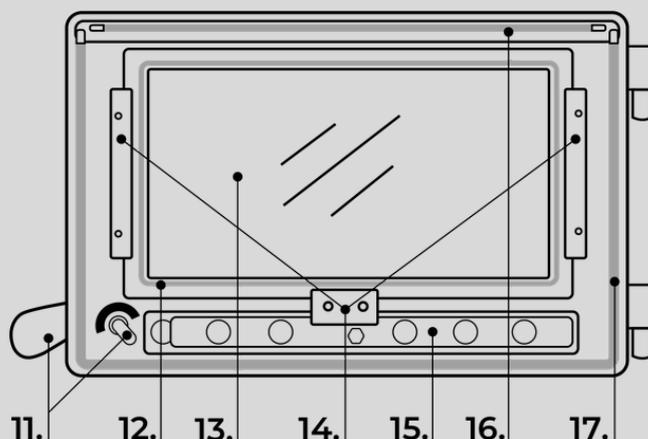

The unit comes standard with a 20kW boiler, glass firebox door, ashpan, 1x Ash Scraper, 1x Knob Turner. Choose from either Queen Anne styled legs, pedestal or in-built units. The colour of the pictured unit is Charcoal, with a Metallic Black top and flue.

Please note: Flue kit sold separately. Unit colour may vary. See page 47 for full colour range.

DYNAMIC 2500

Compact and economical, the Dynamic 2500 hydronic boiler is the smallest boiler in the Dynamic Series range and when installed has a hydronic heat output of up to 25kw.

It is highly compact and competitively priced with optimum results obtained by frequent refuelling. This unit can also be installed in a laundry or wet change area, turning it into a perfect drying room heater.

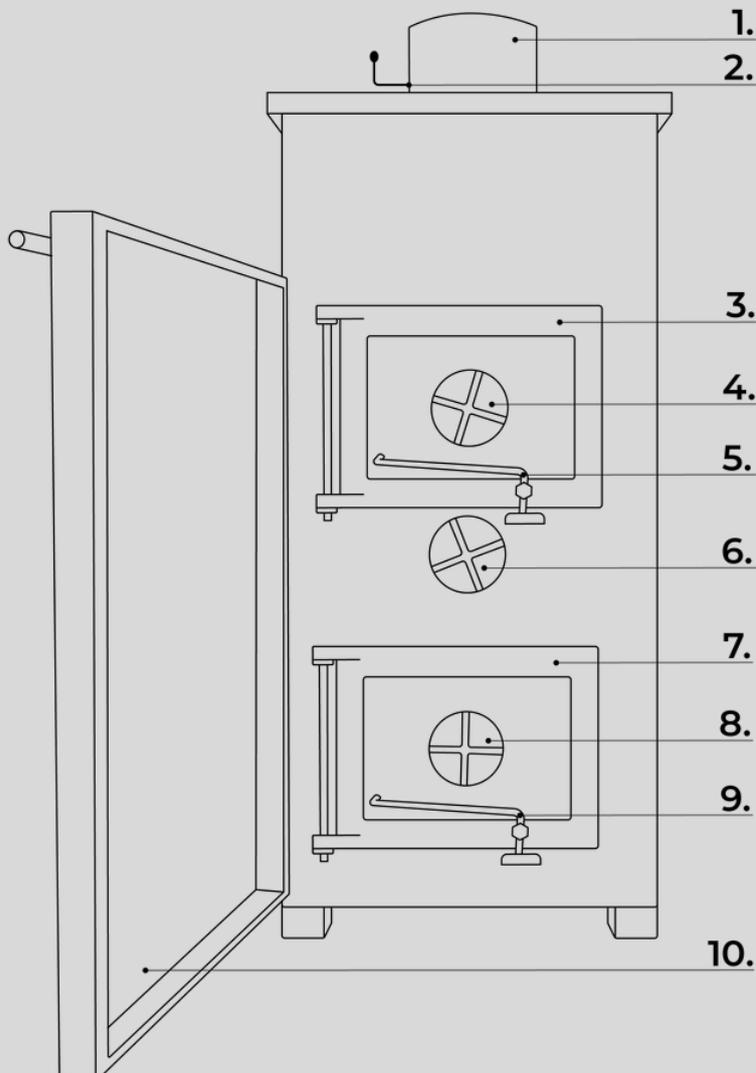

The pictured model is a Metallic Black finish with Stainless Steel flue and includes 1x Ash Scraper, 1x Knob turner. For colour options, see page 46.

Please Note: Flue kits are sold separately and colours may vary. See page 47 for full colour range.

DYNAMIC 3500

The Dynamic 3500 is a versatile, dedicated hydronic heating boiler with cleverly designed waterways and smoke paths to gain the maximum heat from its compact size.

The design of this boiler allows it to be heated on all sides to give maximum efficiency and heat output. The Dynamic 3500 is also available with a solid firebox door and insulated top for installation in a garage or plant room, and is recommended for heating areas up to 300m².

The unit pictured features Metallic Black paint and includes 1x Ash Scraper, 1x Turning Knob, 1x Hot Plate Lifter.

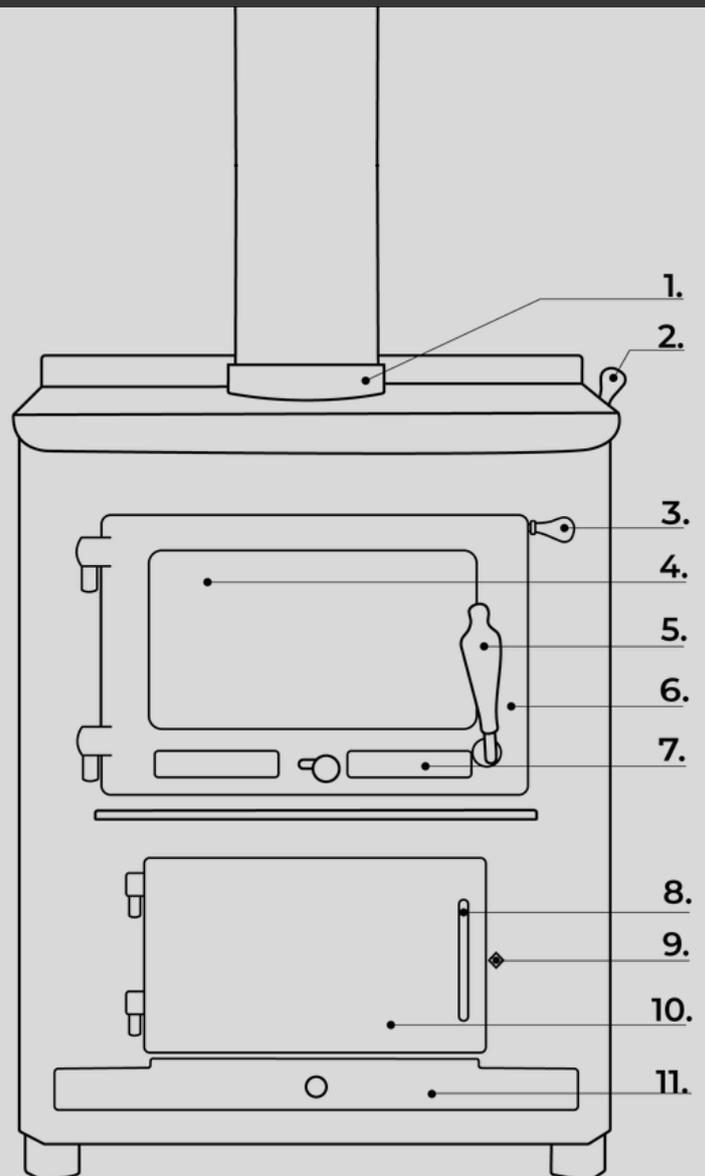

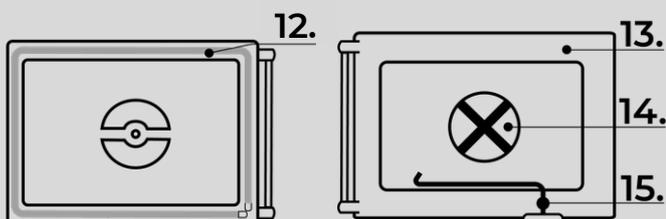

Please note: Flue kits are sold separately and colours may vary. See page 47 for full colour range.

BELVEDERE 5000

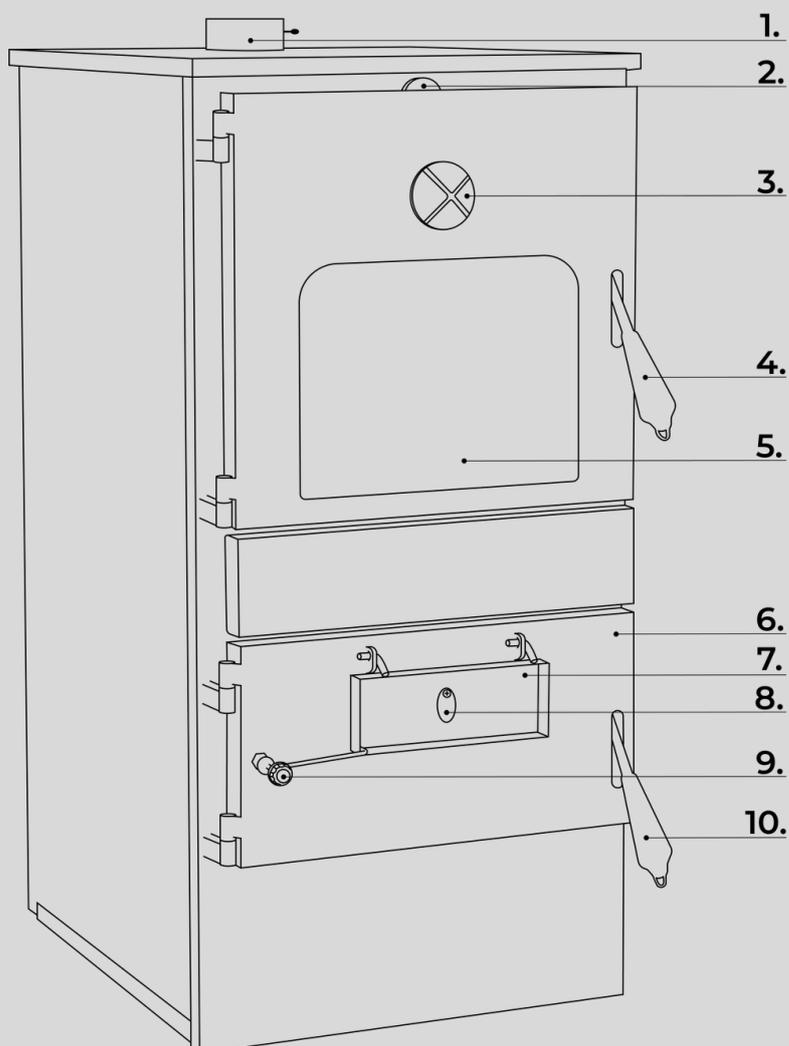

The Belvedere 5000 is the largest in our hydronic boiler range and is primarily designed for plant room installation, providing up to 50kw of heat.

The Belvedere 5000 features a large symmetrical firebox which gives high output temperatures while extending the burn time between refueling. It can be installed in a living room and can be fitted with a glass firebox door (additional extra)

The Belvedere comes standard with a solid firebox door, top located flue, 1x Ashpan, 1x Knob Turner. The pictured model is Metallic Black and features a glass oven door upgrade.

Please note: Flue kits are sold separately and colours may vary. See page 47 for full colour range.

CHRISTO GRAND HEAT

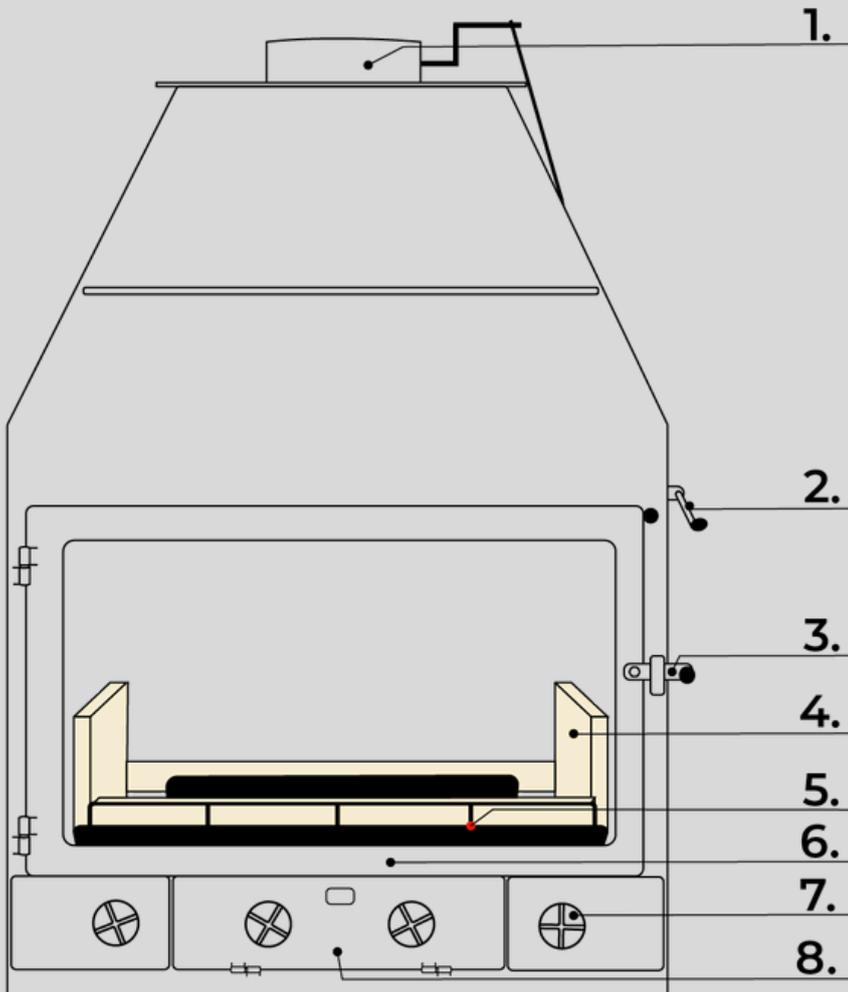

The Christo Grand Heat range of wood heaters takes natural wood heating to a new level. With the potential to provide the highest heat output of any wood burning heater on the market, you can warm up to 400 sqm of living area. Add an optional boiler, up to 45kW for single-sided unit and 30kW for double-sided unit to heat your Hydronic or Domestic Hot Water.

You can also opt for the extravagantly large glass door to be a double-action door that can simply lift away to reveal the charm of a real open fire.

The standard Christo is a freestanding single or double sided unit (no surround) and includes 1x knob turner, 1x ash scraper.

The model pictured is a double-sided unit featuring 1x medium + 1x large surround with single action & double action doors, metallic black finish with chrome knobs. **Please note:** Flue kit and surround are sold separately.

WISELIVING

Hot Water Tanks & Solar

Sustainable hot water is now a reality.

Hot water is one of the most important and potentially most expensive systems to run in your home. So it makes sense to invest in a system that will not only be reliable and environmentally friendly but also save you money.

Stainless Steel Domestic Hot Water Tank (Solar Compatible)

Our Stainless Steel, Solar Ready, Mains Pressure storage tank comes with an enormous variety of applications for domestic and commercial use.

Manufactured by WISELIVING in Australia, made from Marine Grade stainless steel for a long and trouble free life, foam insulated and wrapped in Colourbond steel.

Our tanks are available in 160L, 250L, 315L & 400L sizes.

Stainless Steel CENTRACOIL™ Domestic Hot Water Tank (Hydronic Compatible)

WISELIVING CentraCoil Tanks have an innovative internal heat exchanger fitted in the tank to allow connection to a variety of additional heat sources. They are a stainless steel, mains pressure storage tank compatible with wood stoves, wood boilers, heat pumps, hydronic heating, gas boilers, and solar.

CentraCoil tanks can come pre-fitted with a 4L header tank for use with with wood-fired boiler configurations.

Our tanks are available in 160L, 250L, 315L & 400L sizes.

Stainless Steel Hot Water Buffer Tank (Hydronic Compatible)

WISELIVING Stainless steel, mains pressure buffer storage tank is suitable for Hydronic heating applications, to be used in conjunction with a Hydronic Heat Pump for Radiators or In-Slab Heating.

All Stainless Steel tanks are manufactured by WISELIVING in Australia from Marine Grade stainless steel for a long and trouble free life, foam insulated and wrapped in Colourbond steel.

Our Buffer tanks are available in 100L* (Enamel lined tank), 160L, 250L, 315L, 400L & 500L sizes.

*15 Year Warranty is Pro-Rata and not applicable to the 100L Enamel Buffer Tank. For more warranty information, contact us on 1300 050 940

15* YEARS WARRANTY

STAINLESS STEEL HOT WATER TANK (SOLAR COMPATIBLE)

WISELIVING - STAINLESS STEEL DOMESTIC HOT WATER TANKS (SOLAR COMPATIBLE)

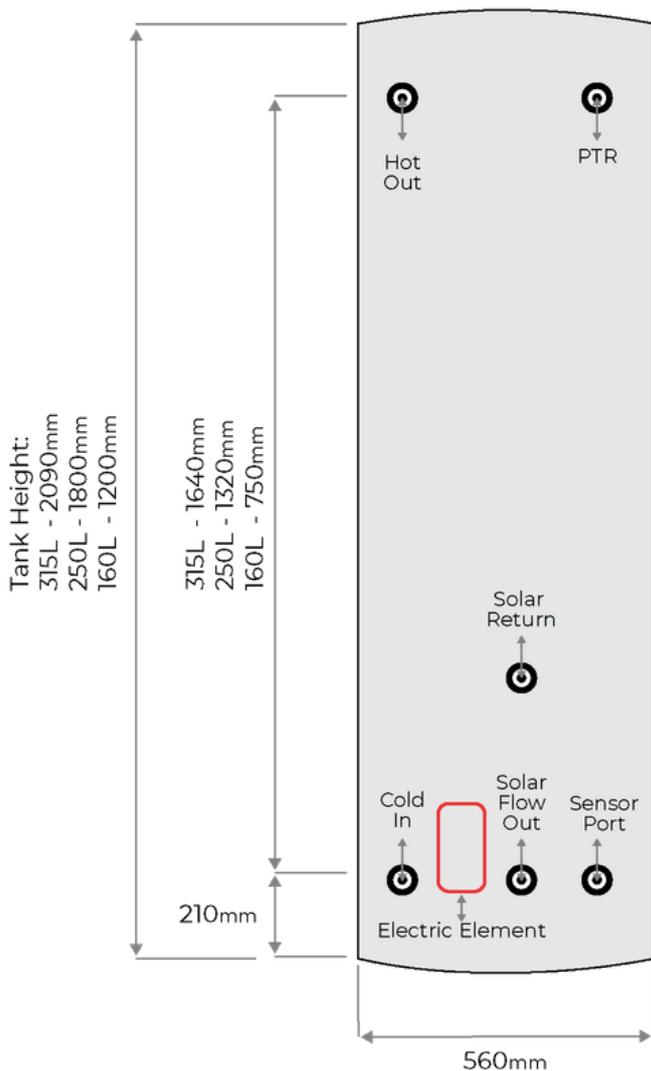

Tank comes fitted with 3.6kW Electric Element, Hot & Cold Ports, Solar Flow & Return ports, Sensor Port & Sensor Well, PTR port and PTR 700kpa. All connections are 3/4" BSP (DN20) Female.

WISELIVING Copper Tanks

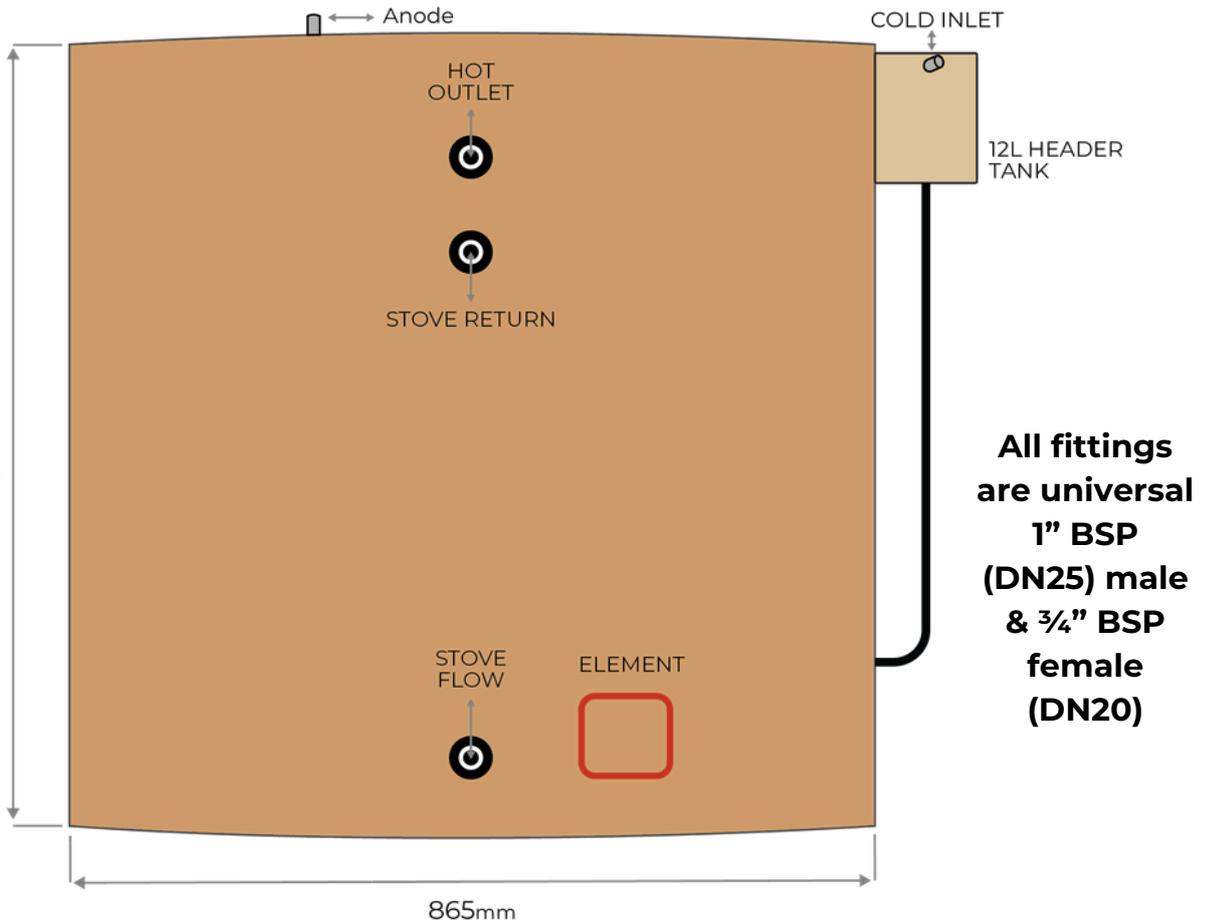

WISELIVING Copper Tanks come in a wide range of sizes and configurations to suit most hot water applications. They have been the mainstay for hot water storage for many years and are an ideal replacement for an older style tank or new build where water is gravity fed to the house as in some rural areas.

All Copper tanks are manufactured in Australia from solid copper with an insulating layer and clad in galvanised steel. There is a large array of sizes and configurations with many options available to cover most requirements. Copper header tanks are also available in a range of sizes from 4L to 45L and come complete with float valve.

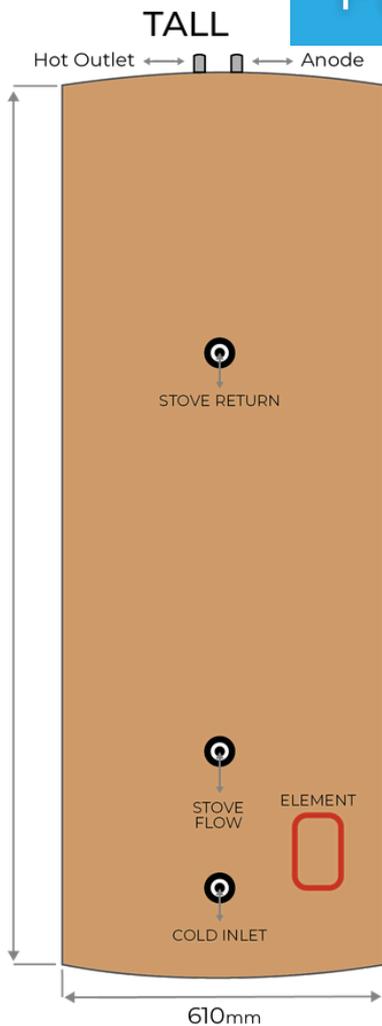

STANDARD MODEL (S) TANK

Tank Height:
 250L - 760mm
 315L - 865mm
 400L - 915mm
 500L - 1050mm

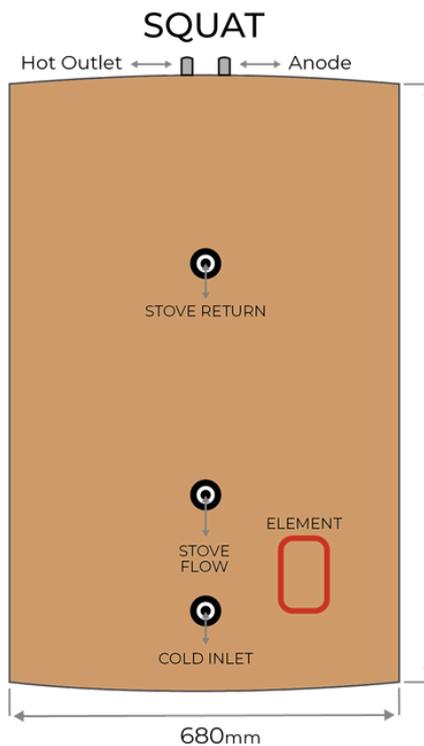

FLOOR MODEL (FM) TANK

Tank Height:
 125L - 1016mm
 160L - 1140mm
 200L - 1370mm
 250L - 1500mm
 315L - 1675mm
 400L - 1830mm

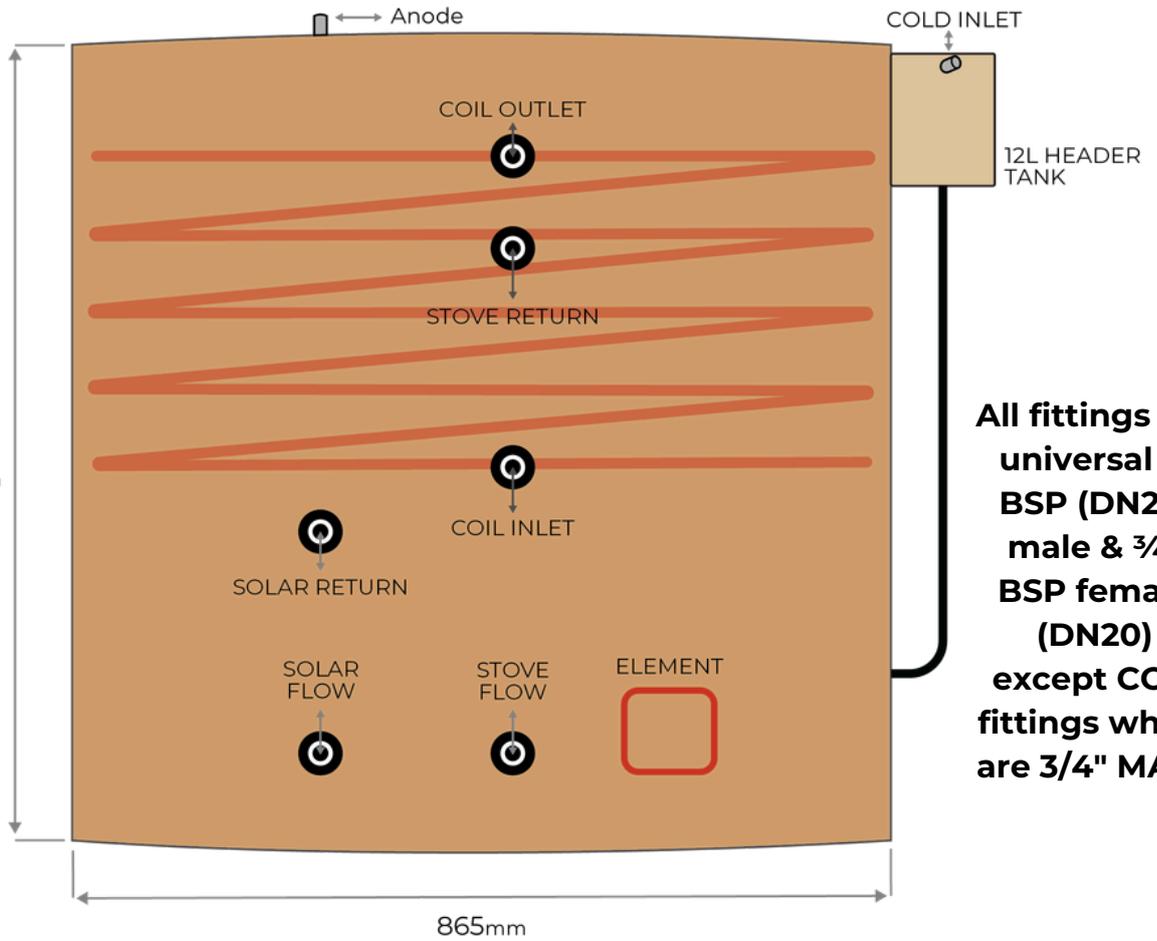

**All fittings are universal
 1" BSP
 (DN25) male
 & 3/4" BSP
 female
 (DN20)**

Tank Height:
 125L - 760mm
 160L - 890mm
 200L - 1016mm
 250L - 1120mm
 315L - 1320mm
 400L - 1450mm

MAINS PRESSURE (MP) TANK

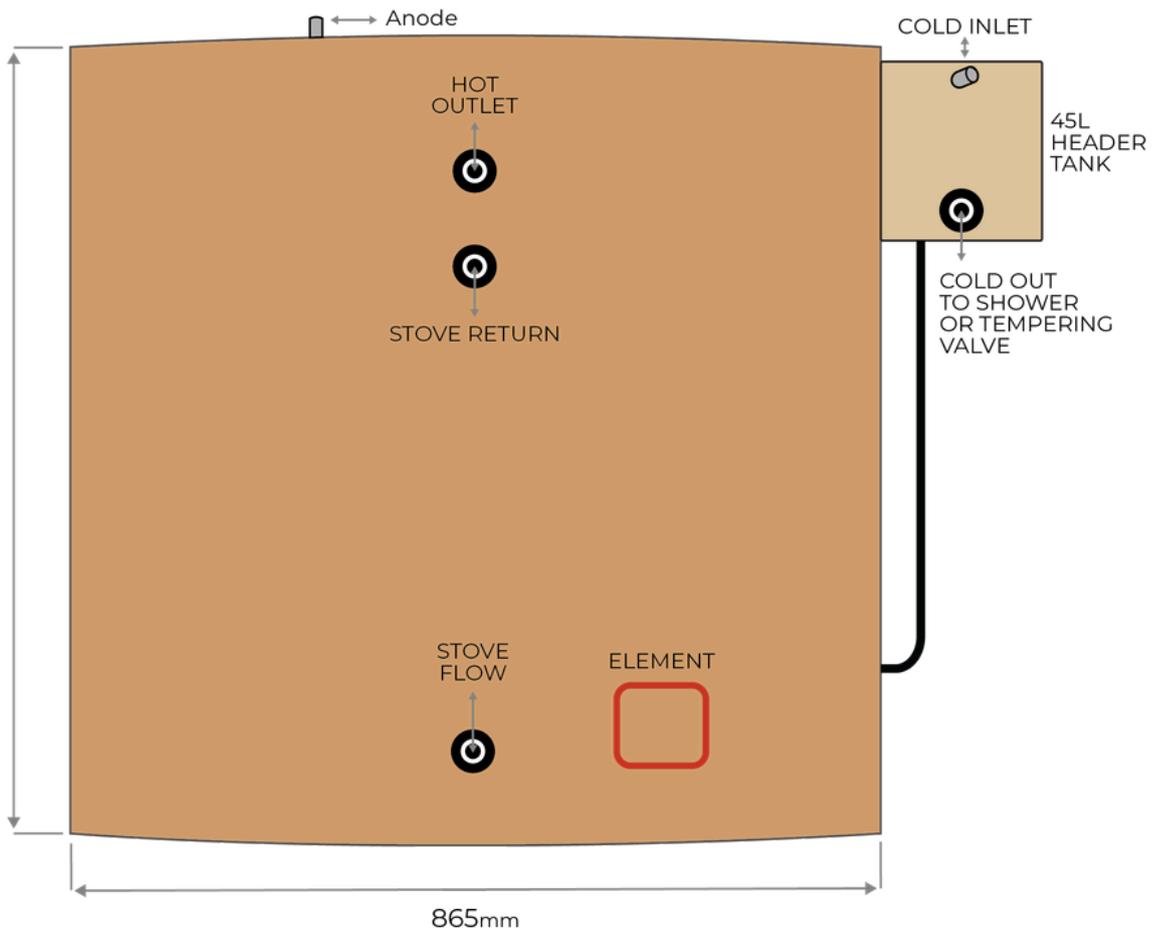

Tank Height:
 250L - 760mm
 315L - 865mm
 400L - 915mm
 500L - 1050mm

All fittings are universal 1" BSP (DN25) male & 3/4" BSP female (DN20) except COIL fittings which are 3/4" MALE

CONSTANT PRESSURE (C) TANK

Tank Height:
 250L - 760mm
 315L - 865mm
 400L - 915mm
 500L - 1050mm

All fittings are universal 1" BSP (DN25) male & 3/4" BSP female (DN20)

S (STANDARD MODEL) COPPER TANK

S model tanks come complete with 12L Header Tank, 3.6Kw Electric Element, Stove Connections, Anode and Safety Tray (Universal Fittings 1" male 3/4" female. Coil 3/4" male)

TCS250	Standard S Model Tank (copper) 250L - 760X865	\$ 2,173.90
TCS315	Standard S Model Tank (copper) 315L - 865X865	\$ 2,310.65
TCS400	Standard S Model Tank (copper) 400L - 915X865	\$ 2,447.40
TCS400500	Standard S Model Tank (copper) 400-500L - 1050X865	\$ 2,623.62
TTRAYS	Safety Tray - GAL - Replacement - Standard (S) models (1090x1090x60)	\$ 161.95

FM (FLOOR MODEL) COPPER TANK

FM Tanks come complete with 3.6Kw electric element, Anode, Stove Connections, Cold Water Inlet & Hot Water / Vent outlet (Universal Fittings 1" male 3/4" female)

TCFM3T	(Floor Model) Tank Tall (copper) - 125L - 1016X610	\$ 1,878.87
TCFM4T	(Floor Model) Tank Tall (copper) - 160L - 1140X610	\$ 1,946.79
TCFM5T	(Floor Model) Tank Tall (copper) - 200L - 1370X610	\$ 2,014.72
TCFM6T	(Floor Model) Tank Tall (copper) - 250L - 1500X610	\$ 2,086.49
TCFM7T	(Floor Model) Tank Tall (copper) - 315L - 1675X610	\$ 2,153.14
TCFM8T	(Floor Model) Tank Tall (copper) - 400L - 1830X610	\$ 2,222.34
TCFM3SQ	(Floor Model) Tank Squat (copper) - 125L - 760X680	\$ 1,982.68
TCFM4SQ	(Floor Model) Tank Squat (copper) - 160L - 890X680	\$ 2,050.61
TCFM5SQ	(Floor Model) Tank Squat (copper) - 200L - 1016X680	\$ 2,119.81
TCFM6SQ	(Floor Model) Tank Squat (copper) - 250L - 1120X680	\$ 2,190.30
TCFM7SQ	(Floor Model) Tank Squat (copper) - 315L - 1320X680	\$ 2,258.23
TCFM8SQ	(Floor Model) Tank Squat (copper) - 400L - 1450X680	\$ 2,328.72
TTRAYFMSQ	Safety Tray - GAL - (Floor Model / FM) Tank Squat (740x740x60)	\$ 153.78
TTRAYFMT	Safety Tray - GAL - (Floor Model / FM) Tank Tall (610x610x60)	\$ 149.95

MP (MAINS PRESSURE) COPPER TANK

MP model tanks come complete with Stove Connections, Solar Connections, 36m Mains Pressure coil, 12L Header Tank, 3.6Kw Electric Element, Anode and Safety Tray (Universal Fittings 1" male 3/4" female. Coil 3/4" male)

TCMP250	Mains Pressure MP Tank (copper) 250L - 760X865	\$ 3,751.46
TCMP315	Mains Pressure MP Tank (copper) 315L - 865X865	\$ 3,954.47
TCMP400	Mains Pressure MP Tank (copper) 400L - 915X865	\$ 4,157.48
TCMP400500	Mains Pressure MP Tank (copper) 400-500L - 1050X865	\$ 4,456.35
TTRAYMP	Safety Tray - GAL - Replacement for MP models (1090x1090x60)	\$ 161.95

C (CONSTANT PRESSURE) COPPER TANK

C model tanks come complete with 45L Header Tank, 3.6Kw Electric Element, Stove Connections, Anode and Safety Tray (Universal Fittings 1" male 3/4" female)

TCC250	Ceiling Model Tank (copper) 250L - 760X865	\$ 2,330.00
TCC315	Ceiling Model Tank (copper) 315L - 865X865	\$ 2,458.16
TCC400	Ceiling Model Tank (copper) 400L - 915X865	\$ 2,581.20
TCC400500	Ceiling Model Tank (copper) 400-500L - 1050X865	\$ 2,761.91
TTRAYC	Safety Tray - GAL - Replacement for C models (1090x1090x60)	\$ 161.95

WISELIVING TANK ADDITIONAL FITTINGS & SAFETY TRAYS

TOEFSOLAR	Option - Solar Connections (Flow and Return) Universal Fittings	\$ 184.68
TOEFSTOVE	Option - Stove Connections (Flow and Return) Universal Fittings	\$ 184.68
TOEFHYDRONICS	Option - Hydronics (Flow and Return)	\$ 184.68

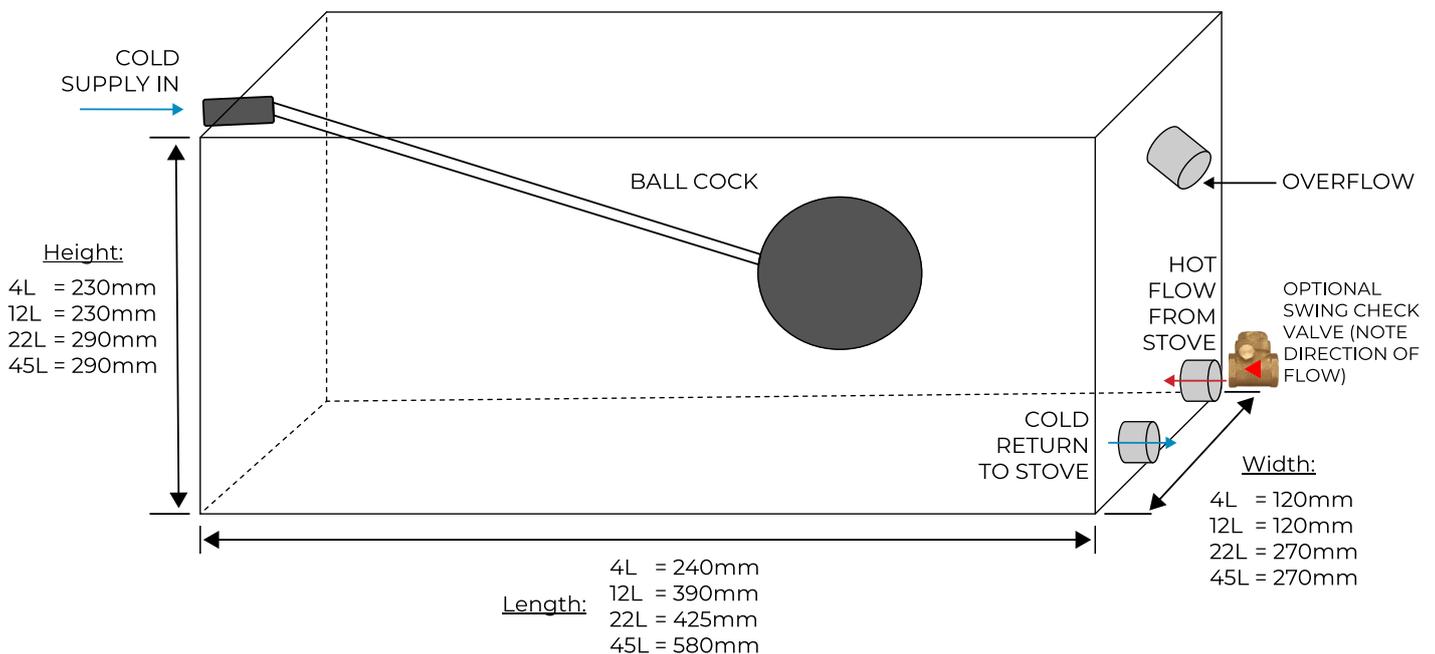

HEADER TANKS

WISELIVING

Solar Domestic Hot Water

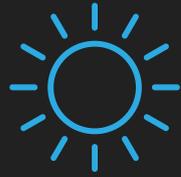

Hot Water accounts for about 40% of energy requirements in the average Australian house. Installing our Evacuated Tube system and supplying your home with solar hot water can reduce those energy costs by up to 80% whilst reducing your carbon footprint.

WISELIVING evacuated tube solar systems offer high quality and enhanced performance systems.

SOLAR EVACUATED TUBES

FEATURES:

**PASSIVE SUN
TRACKING**

**HIGH-EFFICIENCY
PERFORMANCE**

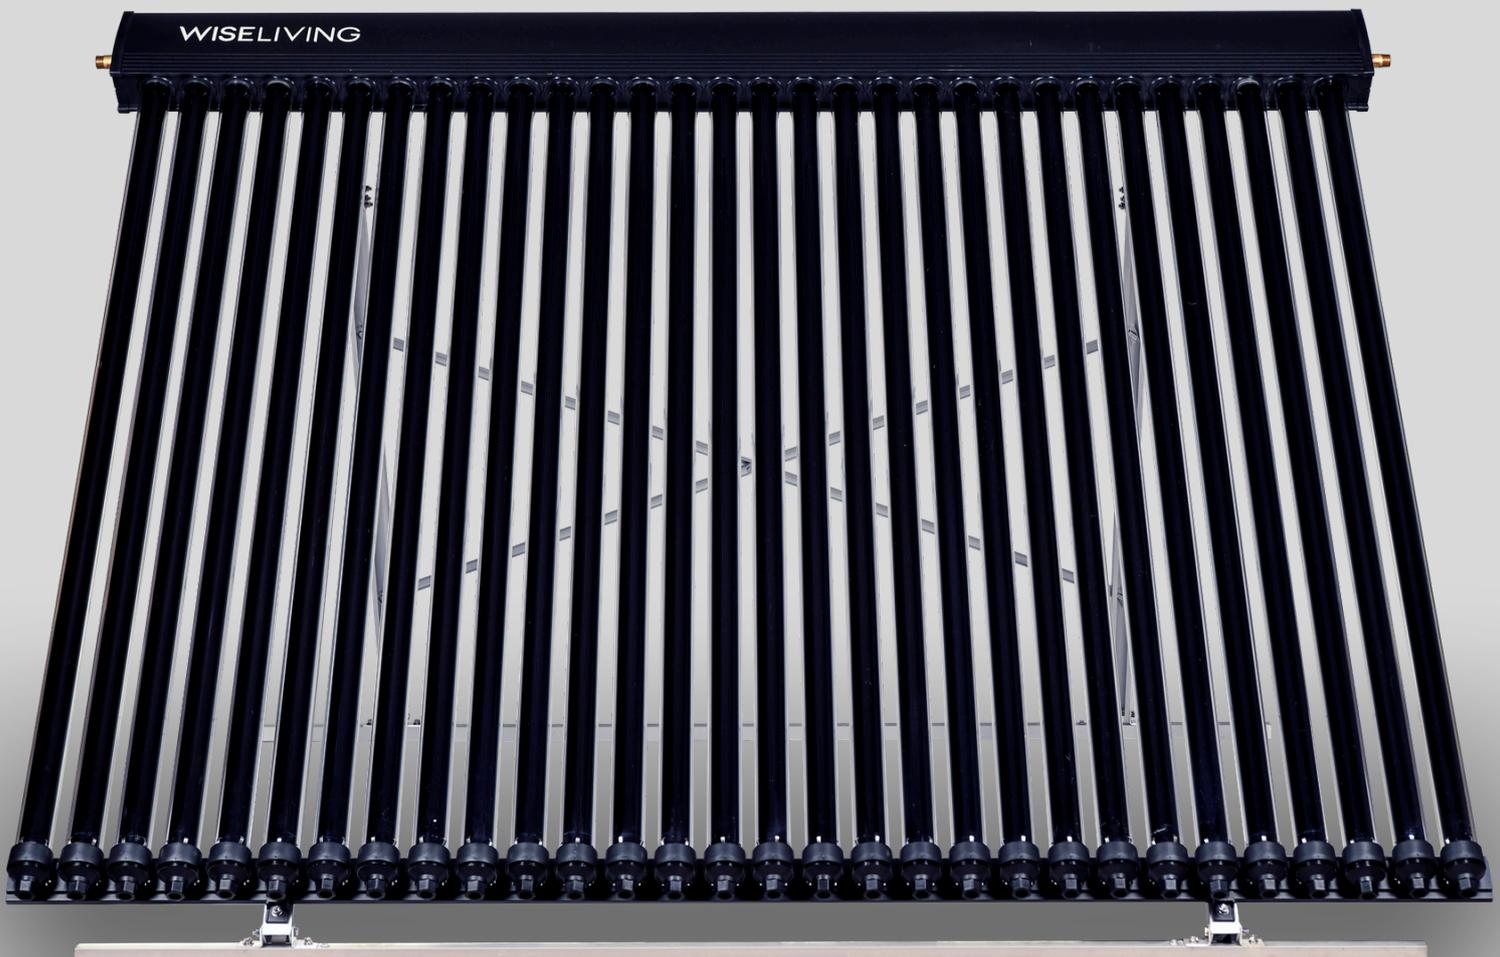

**BUILT-IN FROST
PROTECTION TO -15°**

**SUPERIOR HAIL
RESISTANCE**

AVAILABLE IN: 20 TUBE / 30 TUBE / 40 TUBE

ALL WISELIVING SOLAR HOT WATER SYSTEMS COME COMPLETE WITH A TANK, SOLAR TUBES, MANIFOLD, SOLAR CONTROLLER, CIRCULATING PUMP, SENSOR LEADS + A FLUSH MOUNT FRAME. GAS BOOSTERS ARE ALSO SUPPLIED FOR GAS SYSTEMS. TILT FRAMES ARE SOLD SEPERATELY.

WISELIVING

Hydronic Heat Pumps

The innovative design of our heat pumps reflects WISELIVING's dedication to sustainability. In addition to utilising energy-efficient technologies and systems, these units also feature next-generation refrigerants that are environmentally friendly.

This means that our hydronic heat pumps are capable of lowering a home's overall emissions and carbon footprint while providing comfortable warmth for the entire family.

R32 HYDRONIC HEAT PUMP

The R32 Hydronic Heat Pump is an energy-efficient unit thanks to its combination of DC Inverter and EVI technologies. Using the R32 refrigerant, it has significantly lower Global Warming Potential (GWP) compared to other types of refrigerants commonly used today.

These units are equipped with a stylish housing that's corrosion and UV-resistant. It's designed to withstand Australia's harsh weather conditions, which helps ensure the hydronic heat pump's long service life.

AVAILABLE IN:

23kW

HIGH TEMP HYDRONIC HEAT PUMP

Our high temp models deliver efficient energy consumption, and are capable of providing hot water at temperatures of up to 75 degrees Celsius; utilising natural refrigerant with minimal environmental impact for a greener future.

These units are equipped with a stylish housing that's corrosion and UV-resistant. It's designed to withstand Australia's harsh weather conditions, which helps ensure the hydronic heat pump's long service life.

AVAILABLE IN:

12kW / 23kW

WISELIVING

Domestic Hot Water Heat Pumps

WISELIVING offers the latest in domestic hot water heat pump technology boasting a natural refrigerant to lower your home's carbon footprint, along with a dedicated app and Wi-Fi connectivity for ease of use.

The WISELIVING All-In-One Hot Water Heat Pump features a compact design which eliminates the bulk and height issues of traditional integrated heat pumps, so you'll find upgrading to a high efficiency, hot water system has never been easier.

ALL-IN-ONE DOMESTIC HOT WATER HEAT PUMP

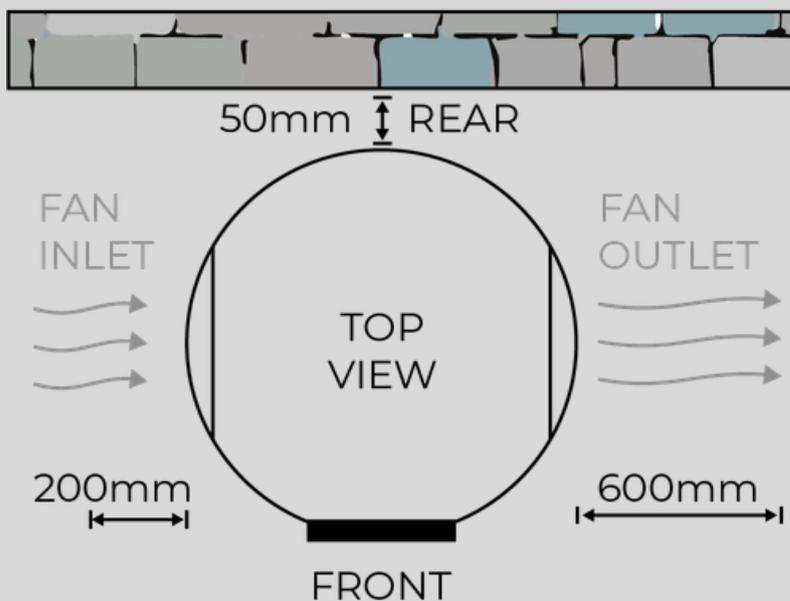

Features of our WISELIVING All-In-One Hot Water Heat Pumps:

- Natural Refrigerant R290 (effectively zero global warming potential compared to synthetics).
- Operates at a quiet 43 decibels.
- 3 heating modes (Standard, Boost and Electric) means a very simple and easy to use system!
- Non-sacrificial impressed current anode provides protection in soft and hard water conditions.
- Installs in the same amount of space as an electric 200L or 270L, for quick and easy upgrading.

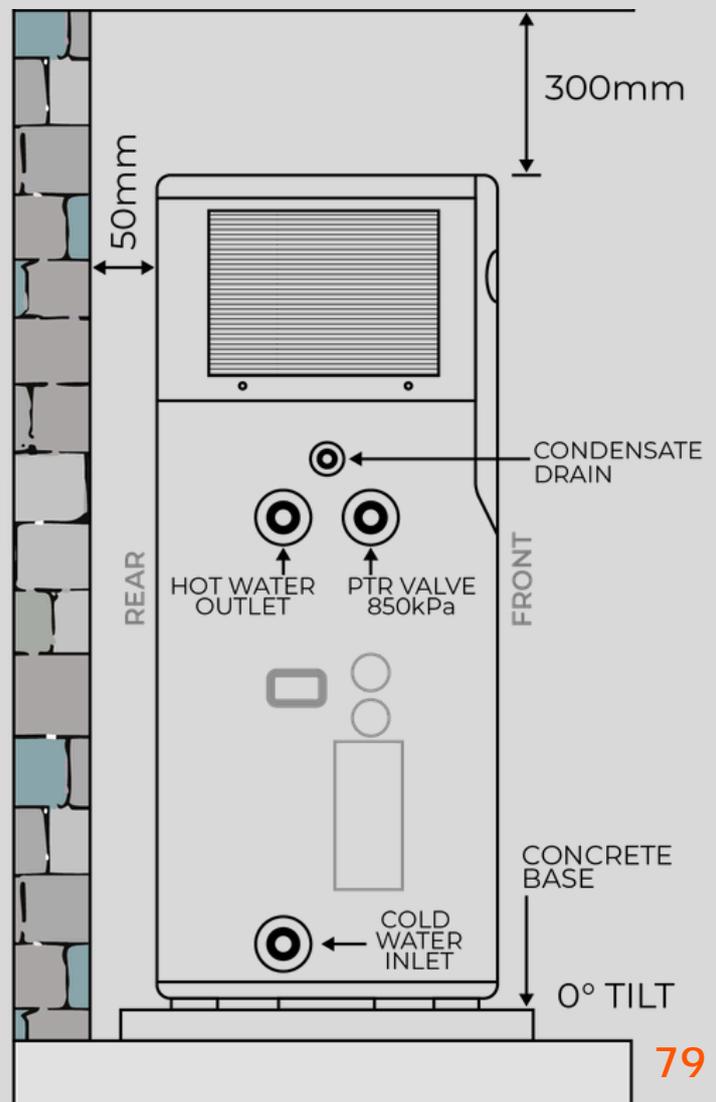

AVAILABLE IN:

200L / 270L

VIESSMANN

Gas Condensing Boilers

WISELIVING carries the Vitodens range of gas condensing boilers from industry leaders Viessman - crafted in Germany since 1917.

The Viessmann Vitodens product series combines the benefits of proven gas heating with the latest condensing technology. Its high energy efficiency means reduced long-term energy costs while remaining environmentally beneficial, making a Viessmann Vitodens Gas boiler perfect for any household.

WISELIVING

THERMARAD RADIATORS

WISELIVING ThermaRad Classic radiators are a stylish, efficient and durable steel panel produced in accordance with EN442 and ISO9001.

Complete with factory fitted top grilles and side panels which are easily removed for ease of cleaning and replacement, they come in a wide range of sizes and styles to suit all applications, available as 4 port and also as VK (compact valve) 6 port.

ThermaRad radiators come with a 25 year warranty.

WISELIVING

MANIFOLDS

At WISELIVING, we use the manifold system for both our radiators and infloor hydronic central heating options. Manifold distribution systems have been used for infloor heating for decades and at WISELIVING we have adapted the technology to include radiator heating panels as well.

The WISELIVING manifold systems are simple and quick to install, bleed and balance heat distribution, and the multi-layer pipe work is easy to work with and comes fully insulated.

HYDRONIC FITTINGS & ACCESSORIES

WISELIVING use only the best quality fittings and valves for hydronic heating systems as it is absolutely essential for both the longevity and efficiency of the system. Our sister company *Hurlcon Hydronic Heating* supply us with Europe's leading brands such as SBK, Oventrop & ITAP.

Visit hulconheating.com.au or request a catalogue to view the entire range.

WISELIVING

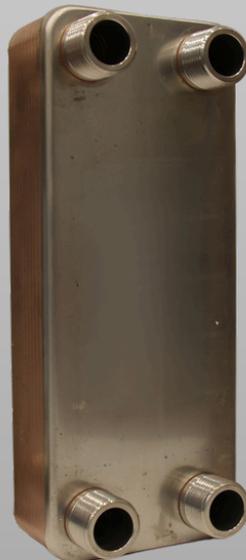

HEAT EXCHANGERS

At WISELIVING, we provide a range of heat exchangers for a multitude of hot water applications.

Our external heat exchangers can be retrofitted to an existing hot water service to convert them for multipurpose use, giving you a sizeable cost saving. They are ideal to add additional gas for example.

EXPANSION TANKS

WISELIVING sources our range of expansion tanks through our sister company Hurlcon Hydronic Heating.

Hurlcon stock Varem Expansion Tanks which have been developed and manufactured in Italy to the highest standards for over 30 years and naturally complement our range of boilers.

As an expansion tank is an integral component in a closed heating system you need to have complete confidence in the systems components that is why we choose Varem.

Dirt Separators & Water Treatments

Water in a hydronic central heating system needs to be chemically treated otherwise corrosion and limescale will soon affect a boiler's efficiency. Research has shown that a new system can be up to 6% less efficient within a matter of weeks if not correctly treated, impacting on CO2 emissions and the environment.

IMAG COMPACT MAGNETIC DIRT SEPARATOR 3/4"

IMAG-XL MULTIFUNCTION MAGNETIC DIRT SEPARATOR 1"

GEL SPA PRODUCTS

HYDRONICS WATER TREATMENT & DIRT SEPARATORS

HWTTB005	Thermablend Rust Inhibitor 500mL	\$	55.10
HWT3070.05.00	MG1 3/4" - Under-boiler magnetic sludge remover filter. (Supplied with complete swivel filter/boiler connection fitting and ball valve.)	\$	298.81
HWT2319.06.50	SafeCleaner2 1" - Multifuction polymer magnetic dirt separator, with FF ball valves connection	\$	494.32
HWTIMAGCOMPACT	IMAG Compact Magnetic Dirt Separator 3/4"	\$	235.30
HWTIMAGXL	IMAG-XL Multifunction Magnetic Dirt Separator 1"	\$	494.32

GEL SPA WATER TREATMENTS

GE11316000	LONG LIFE 100 Corrosion Inhibitor - 1 Litre	\$	95.00
GE11316111	LONG LIFE 200 Noise Reducer - 1 Litre	\$	70.00
GE11316221	LONG LIFE 300 Cleaner New Heating Systems - 1 Litre	\$	70.00
GE11316561	LONG LIFE 800 Hi Strength Restorer - 1 Litre (For badly fouled systems)	\$	95.00
GE11316611	LONG LIFE 410 Flushing chemical for heating systems - 1 Litre	\$	75.00
GE11316711	LONG LIFE 710 Biocide Sanitiser (Underfloor heating systems)	\$	90.00
GE13106130	ECONOMIX (IT) Gas Boiler Combustion Chamber Cleaner (Use with Air Force 1 pressure pump) - 1 Litre	\$	40.00
GE13305040	LONG LIFE SEALER Liquid Self Sealer	\$	70.00
GE15501150	TEST KIT - Inhibitor Levels	\$	203.00
GE10605100	AIR FORCE 1 - 1 Litre Pressure Pump	\$	125.00
GE10605080	AIR FORCE 3 - 3 Litre Manual Filling Pump	\$	247.00
GE12513000	TERMO TANK Filling Unit for conditioning chemicals	\$	684.00
GE12109430	LONG LIFE SUPER FLUSH 40 - High circulation pump for descaling, cleaning and power flushing heating systems	\$	4,990.00
