High Pressure Cleaning Solutions

# Synthetic Labs offers industry-leading solutions for businesses and professionals who demand exceptional results.

## **Synthetic Labs High Pressure Cleaning Solutions**

Since the mid-1980s Synthetic Labs has been manufacturing innovative, cutting edge pressure wash detergents. Since then we have become a respected leader in the industry. Synthetic Labs utilizes the latest formulation technologies and are continually improving product performance, increasing cost efficiency and maximizing our clients profits by reducing service related expenses. Economically priced, coupled with high performance, our High Pressure Cleaning Solutions are the result of this experience.

Our High Pressure Cleaning Product line includes products for every aspect of the industry from truck washing operations, pressure washing to exterior building cleaning; all are formulated and packaged to Synthetic Labs strict quality standards, as well as meeting the requirements and specifications of its partners. Synthetic Labs partners benefit from product support, marketing assistance, and technical sales assistance, provided by our in house full service team.

**PROFESSIONAL**

# **XTREME**

## **2 STEP CLEANING SYSTEM**

*"2 step cleaning has never been so easy to do. Just spray and walk away. We didn't need to scrub at all."*

Makes Cleaning Easier, Faster, More Efficient!  
Just Spray, Rinse, Walk Away.  
No scrubbing needed.

**Acid Truck Wash Step #1**

**Alkaline Truck Wash Step #2**

# PROTECTANTS

## Desert Dry

Ref No. 4664

### **Cherry Scented Protectant & Drying Agent**

An premium concentrated drying agent and spray wax. This product will deliver quality beading and drying at an economical dilution. Versatile enough to be used in almost any car wash application. Water breaks quickly from surface and will not leave behind "snail trails".

pH: 7

## RhinoCoat

Ref No. 4766

### **Ceramic Surface Protectant**

A Total Surface Protectant infused with nano technology and siloxanes that leaves behind long lasting, deep color protection and incredible gloss. Leaves behind a silica-rich film behind that helps repel water, dirt, and other pollutants, keeping your car cleaner longer.

pH: 7

## Salt Guard

Ref No. 2210

### **Corrosion Inhibitor & Salt Neutralizer**

A concentrated liquid for the removal of salt and inhibition of corrosion to a wide variety of metals, especially iron. Salt Guard will leave behind a temporary barrier to fight the effects of salt on metals, prolonging the quality of vehicles and salting equipment. After application, no rinsing is necessary.

pH: 9

## ALL NEW REPEL

Glass & Surface Protectant

Part Number: 3859

### **Glass & Surface Protectant**

A revolutionary blend of additives that repel rain, water and dirt from windshields and clear coats. Allows for better vision during rain and snowy driving conditions. Vehicle surfaces will bead looking freshly waxed. Water beads immediately off the vehicle without water spotting.

# NEUTRALIZE

SALT NEUTRALIZER & SURFACE PROTECTANT

Neutralizes & Protects In One Easy Step

*"Using this product allows our vehicles to last longer decreasing the amount of rust and improving the quality of our fleet."*

## Why It Works...

### What is Neutralize?

This specially blended salt neutralizer is designed to directly combat the corrosive effects that ice-melting chemicals can have on vehicles as municipalities have changed from sand-and-salt mixtures to liquid brine.

This unique formula dissolves road salts into a solution and uses a micellar solubilization process to suspend and remove the contaminants from the vehicles surfaces.

Neutralize is formulated to effectively remove salt and calcium residues, counteracting the activity of salt brines and rock salt on vehicle surfaces.

By neutralizing the corrosive properties of deicing chemicals, Neutralize can help to prevent rust and alter the adverse effects to vehicle surfaces.

# CONCRETE CLEANERS

## Conform

Ref No. 0521

### **Non Hazardous Concrete Remover**

A specially formulated 2 phase cleaner for the removal of concrete from concrete handling equipment. Phase one starts dissolving from the surface area and phase two breaks the bonds. This revolutionary process works very effectively and efficiently while being EPA and OSHA compliant.  
pH: 1

## DX Conc

Ref No. 0502

### **Heavy Duty Acid Based Concrete Remover**

An inhibited blend of powerful cleaning agents transformed into an effective cleaner. This product will remove layers of concrete from trucks, forms, equipment, and from mixers. Will not etch glass like hydrofluoric acid based products.  
pH: 1

## RestCon

Ref No. 0511

### **Heavy Duty Non Hazardous Restoration Cleaner**

A non hazardous concrete cleaner and brightener for cleaning of masonry and concrete. This product is safe to use and store and contains no harsh odors. Safe for virtually any type of brick, block, stone, or pre-cast. Solve a host of problems including efflorescence, lime putty, and most mineral stains.  
pH: 1

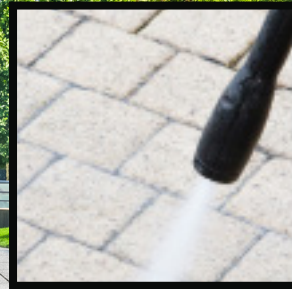

## Barrel Brite

Ref No. 0506XC

### **Non Hazardous Truck & Barrel Cleaner**

A non fuming, non-corrosive acid based concrete truck & barrel cleaner & brightener. This product goes to work immediately removing concrete from trucks, forms, equipment, and from mixers. Harmless on most paints and finishes when used as directed. Great for use in automated and drive through systems.  
pH: 2-3

★ ★ ★ ★ ★  
**PROFESSIONAL**

★ ★ ★ ★ ★  
**RUST X**

**Concrete & Masonry Restoration Cleaner**  
**Removes Rust & Cleans Surfaces Instantly**

### What is Rust X?

Used by professionals to restore a new appearance to dirty, discolored limestone, poured concrete and walkways, precast or poured aggregate, travertine and more. It contains no hydrofluoric acid, cleans without leaving yellow stains, and will not etch glass. This product will safely remove atmospheric dirt, mildew, rust, and many other surface stains without risk of bleaching or discoloration. This product also works well to remove rust and oxidation from aluminum.

# CLEANER &

# DEGREASERS

## SuperBlue

Ref No. 0315

### **Butyl Based Deep Cleaning Degreaser**

A butyl based degreaser for cleaning surfaces from painted walls to masonry, brick, ceramic tile and stainless steel. Just spray and wipe to remove all soils. Great for body shops and floor cleaning alike. Contains no acids, caustic alkaline, petroleum hydrocarbons, or amines.

pH: 12.5

## FormulaFS

Ref No. 0369

### **Heavy Duty Degreaser**

One of the strongest degreasers available fortified with high levels of butyl and caustic to allow for quick and easy removal of the heaviest grease and oils from surfaces. Great to use on equipment, concrete and surfaces where mechanical grease is a problem. Emulsifies immediately for quick and easy removal.

pH: 14

## Blue Thunder

Ref No. 2680 / 2681

### **Multi Purpose Degreaser Kit**

A concentrated 2 part butyl based kit spray cleaner for removal of grease, heavy soils, dirt, ink, carbon soot and all stubborn soils. Works on all surfaces from painted walls to masonry, brick, ceramic tile and stainless steel. For use with cold and hot water applications. This special 2 part kit helps to keep prices and inventory low.

pH: 12.5

## Power Degreaser

Ref No. 2690 / 2691 / 2692

### **Heavy Duty Degreaser & Carbon Remover Kit**

A concentrated 3 part butyl based kit spray cleaner for removal of grease, heavy soils, dirt, ink, carbon soot and all stubborn soils. This amazing kit is fortified with caustic allowing it to be used on the toughest surfaces to be cleaned. Contains special detergent emulsifiers that will allow the greasiest of surfaces to come clean.

pH: 13.5
