

Our Safety and Wellness Vision

“Safety is no accident”

We believe that:

- Our priority is the safety and wellness of our employees
- Accidents are preventable
- We all have responsibility for Safety and Wellness
- All staff have the responsibility to ensure safety is paramount and work should be stopped if it cannot be done safely.

To achieve this we will:

- Maintain and continually improve our Safety and Wellness system
- Proactively identify hazards and unsafe behaviours and take all steps to manage these
- Work closely with our client organisations to ensure appropriate processes are in place to protect Enterprise staff
- Set targets & objectives for improvement, measure and report on performance
- Assess and celebrate the Safety and Wellness performance of employees
- Consult with employees, temporary staff and unions on matters regarding health & safety
- Accurately report and learn from our incidents
- Support the safe and early return to work of injured employees
- Comply with relevant legislation, regulations, regulator guidance, standards and industry guidance.
