

FACULTY OF COMMERCE

SHORT COURSE:
MUNICIPAL SUPPLY CHAIN MANAGEMENT

Enhance your municipal supply chain management knowledge with the Waterfall School of Business Short Course: Municipal Supply Chain Management (MSCM). As a crucial component of municipal expenditure management, this course provides an overview of the requirements and processes outlined by the policy framework and guidelines.

Municipalities and municipal entities are responsible for implementing their own MSCM policy in alignment with the national policy framework and guidelines. To effectively apply procurement and supply chain management processes, it is essential to understand the elements of the South African supply chain model. This includes mastering demand management, competitive bidding processes, and contract management within the municipal context.

Register now in the Waterfall School of Business Short Course: Municipal Supply Chain Management and gain the necessary expertise to excel in this vital aspect of municipal management.
