

100% PURE NEW ZEALAND

RoyaleQueen

Full Cream Instant Goat Milk Powder

A premium dairy choice for the whole family, suitable for ages 1 and up

Rare, Limited, Pure at the Source: RoyaleQueen is sourced from pristine New Zealand pastures, with limited annual production to guarantee exceptional purity and nutrition in every batch. Instant-dissolve technology preserves a fresh, smooth taste, with fine molecules for easy absorption — an ideal daily nutrition and digestive companion for the whole family.

Five Core Product Benefits

Gentle Digestion Easy to Absorb

Goat milk's fat globules are far smaller than cow's milk, forming a softer curd that's broken down quickly — gentle on sensitive stomachs.

Low-Allergen Formula Milk Intolerance Friendly

Naturally rich in gentle A2 β -casein with minimal α -s1 casein, reducing discomfort and allergy risk for those sensitive to cow's milk protein.

Naturally Mineral-Rich Stronger Bones

Naturally higher in bioavailable calcium and potassium than cow's milk, supporting growth in children and bone density in older adults.

Advanced Bioactives Self-Defense Support

Packed with immune-supporting nucleotides, absorption-enhancing CPP (casein phosphopeptides), and gut-friendly polyamines.

100%

New Zealand-Sourced Dairy
