the WONDER you make POSSIBLE

FYE JUNE 2022 ANNUAL REPORT TO THE COMMUNITY
"THE CHILD MUST KNOW THAT
HE IS A MIRACLE, THAT SINCE
THE BEGINNING OF THE
WORLD THERE HASN'T BEEN,
AND UNTIL THE END OF THE
WORLD THERE WILL NOT BE
ANOTHER CHILD LIKE HIM."

Pablo Casals
WONDER CAN CHANGE OUR APPROACH TO LIFE.

Children are born with a sense of wonder – full of hope about what their future may hold. Trauma can replace a child’s wonder with fear, anxiety, and despair. At A Child’s Haven we offer a two-generation approach, simultaneously providing children and the adults in their lives with therapeutic treatment to stop the debilitating cycles of trauma and adversity and instill both resilience and joy.

As we commemorate our 30th anniversary we celebrate the wonder you make possible through your generous support. For 30 years you have helped restore the wonder of children. We invite you to imagine what their future will hold and to be a part of the exciting future of A Child’s Haven!

MISSION

A Child’s Haven treats children with developmental delays as a result of limited resources, abuse or neglect and provides support and education for their families.

VISION

Children in our community are thriving with families that nurture their success.

VALUES

MISSION FIRST  
Dedication to growth and success of the children and families we serve.

COMMUNITY RELATIONSHIPS  
Enhancing our work through meaningful partnership and collaboration.

A POSITIVE WORK ENVIRONMENT  
Supporting employees in an environment of teamwork, commitment and passion.

MEASURABLE OUTCOMES  
Utilizing ongoing assessment to improve the effectiveness of our services.

INTEGRITY  
Building trusting and respectful relationships with the children, families and community we serve.

STEWARDSHIP  
Ensuring strong governance, ethical management, transparency and accountability to our investors.

WHAT WE DO

A Child’s Haven provides healing therapy to infants and preschool children who have been expelled or are at risk of being expelled from early learning and child care centers due to unmanageable behaviors that their center is unable to treat effectively. The challenging behaviors are often a result of the child having social and emotional developmental delays, impairing the child’s brain and nervous system from growing in a healthy way. The families most impacted by child care expulsion and exclusion from early learning opportunities are families living in poverty and unsafe environments who may be experiencing high exposure to negative traumatic events or adverse childhood experiences (ACEs), chronic and unbuffered stress to the whole family, parents lacking support or resources, household dysfunction, racism and community violence, intrafamilial abuse and/or neglect.

Children are being expelled at high rates across the nation, leaving families without safe, nurturing and reliable childcare. This traumatic event increases stress on parents, family and child, making them more vulnerable and susceptible to child abuse and neglect. A Child’s Haven provides a 2-Generational approach to therapeutic treatment for infants, young children, and their caregivers to stop the debilitating cycles of trauma and adversity that directly impact their health and wellness over their lifetime.

Our highly qualified workforce of Licensed Child & Family Therapists, Clinical Classroom Providers and educators provide Medicaid Rehabilitative Behavioral Health Services (RBHS) to enrolled children. The length of enrollment is typically 9-12 months with services designed and delivered as a continuum of care to ensure treatment goals for the child and caregiver are achieved and the family is equipped for a successful transition to mainstream child care and education.

WONDER CAN CHANGE OUR APPROACH TO LIFE.

Children are born with a sense of wonder – full of hope about what their future may hold. Trauma can replace a child’s wonder with fear, anxiety, and despair. At A Child’s Haven we offer a two-generation approach, simultaneously providing children and the adults in their lives with therapeutic treatment to stop the debilitating cycles of trauma and adversity and instill both resilience and joy.

As we commemorate our 30th anniversary we celebrate the wonder you make possible through your generous support. For 30 years you have helped restore the wonder of children. We invite you to imagine what their future will hold and to be a part of the exciting future of A Child’s Haven!
WE PROVIDE THREE CORE SERVICES USING EVIDENCE-BASED MODELS.

THERAPEUTIC CHILD CARE (TCC)
Daily, center-based service offered to children 5 days a week from 7am-1pm. Trained and credentialed Early Childhood Educators and Clinical Treatment Providers administer TCC, a Medicaid Rehabilitative Behavioral Health Service provided to small groups of children. Children learn social-emotional skills, self-regulation, and develop language and motor skills while exploring their creativity in our indoor and outdoor therapeutic classroom environments.

INDIVIDUAL THERAPY
Weekly, center-based 1 hour individual sessions for children during regular program hours. Licensed Therapists administer sessions to each child that focus on healing from trauma and reaching goals outlined in the child’s individual treatment plan.

FAMILY THERAPY / HOME VISITATION
Weekly, center or home-based 1+ hour sessions with the child and the child’s caregivers. Licensed Child & Family Therapists administer sessions designed to strengthen parent-child relationship and attachment, facilitate healthy interactions, develop positive parenting strategies, and improve the family’s overall functioning and wellbeing.

DESIRED OUTCOMES:
• Economic Mobility
• Improved household function and stability
• Improved social and emotional competence
• Improved self-regulation, healthy choices, self control, self esteem, and self confidence
• Increased school readiness
• Restored parent-child relationship and healthy attachment
• Increased family self-sufficiency and resilience

FROM THE BOARD PRESIDENT

Focus on the health and wellness of Employees: As an organization that acknowledges the importance of a healthy workforce as a critical factor for generating positive outcomes for our children and families. The Board supported CEO and ACH Leadership to explore alternative HR solutions to meet the needs of Employees at A Child’s Haven, especially with being challenged with staffing post pandemic.

ACH partnered with Insperity®, a PEO company that has provided human resources and business solutions that help America’s best companies prosper. Employees at A Child’s Haven now have a robust tool and team of HR professionals to support the growing needs of the program. Additionally, Employees now have access to Health and Wellness Benefits that they didn’t have before, which is important for employee overall health and ACH’s retention of high-quality professionals. As a Board member who values systems, processes, and expertise in HR, I’m proud of this move for A Child’s Haven.

Moving the organization forward: Since the pandemic in 2020, ACH continued to envision new pathways and possibilities for the future. Community partnerships and professional development opportunities for ACH have been a focus to move the mission forward. For example, Tanya’s participation in Leadership Greenville has been an exciting experience for Tanya and the Board, as it exposes us to new insights about the growing needs of the community and provides new connections and possibilities.

Urgency about our state’s health and wellbeing data shared and used by the Board drives our strategic thinking and has caused us to think more preventively in the way we aim to achieve our vision of all children and families thriving in South Carolina. Unfortunately, the data tells us that we have a lot of work ahead of us, and I’m confident that A Child’s Haven will be instrumental in catalyzing change.

Preparation for Program Replication for 2023: This has been a major theme for the past year. The Board has supported ACH Leadership in developing innovative strategies to replicate the program. Our strategies are designed to create greater access for families throughout the state, which has always been a goal since I’ve been involved with ACH. I’m excited to see the strategies piloted in 2023!

30 YEARS
A child’s haven
Lifting lives. Reshaping futures.
It’s been an active year that has moved us along our strategic path towards scaling our program and becoming a Training and Demonstration site for 2-Generation programming using evidence-based models in the growing field of Early Childhood Development, Education, and Infant Early Childhood Mental Health (IECMH). I’ve learned to be more reflective in my thinking and creative processes, which helps me make better decisions, feel confident in my abilities, and pull from my past experiences to work through challenges and overcome obstacles. The learning gained from a year of organized chaos has provided me necessary insight into more pervasive underlying issues that are negatively impacting the health and wellbeing of our children, and ourselves.

The missing ingredient of these systems is relationship-focused and trauma-informed training, Professional development and ongoing reflective supervision practices for the Professionals who are responsible for the children. At ACH, we are acutely aware of the underlying issues that we must collectively acknowledge as a community, to truly make a change to the systems that have shaped us.

Toxic Stress is killing us, literally. It is an epidemic that we must take seriously.

“My hope is that our early childhood systems will become more effective at serving children and families from all walks of life, and not need a separate place to find healing and inclusion.”

ACH is going further upstream to save the children– All children served at ACH have been, or are at risk of being expelled from local child care centers due to “difficult, unmanageable and/or challenging behaviors.” Child Care Shortages and Child Care Expulsion are complex and invisible issues that need to be addressed in order to create self healing and resilient communities. Child Care expulsion is a trauma in and of itself because it places a label on the child, hurts their self esteem and causes an increased susceptibility of experiencing abuse or neglect due to the stressful consequences of the event on the family emotionally and financially. Economic mobility is impossible without access to high quality child care and learning centers. Being expelled, suspended or excluded from early learning is a predictor of future homelessness as adults.

Focus on Program Excellence + Quality Workforce:

We must focus on the health and wellbeing of the people who are made responsible for caring, teaching and shaping the brains and bodies of our most precious and vulnerable population. Our children need and deserve the best quality of care and treatment that we as adults can provide. Our new standards for training and equipping Clinical Providers and Therapists are national evidence-based models that integrate the fields of early child development, education, and mental health. The field of Infant Mental Health is a critical piece of the puzzle to reforming and optimizing our healthcare, early childhood, and school systems.

Tanya Camunas
WHO WE SERVE
Children enrolled at A Child’s Haven have been expelled from child care centers due to challenging behaviors caused by the impacts from ACEs on their developing brains and bodies. Children at ACH have an average ACE score of 4+, and their caregivers have average scores of 8+ out of 10 ACEs, placing them at high risk of developing maladaptive behaviors to cope with the emotional pain left from childhood. ACH exists to include children needing to heal from trauma and adversity by providing safe environments and trauma-informed Providers to deliver our 3-core Medicaid Rehabilitative Behavioral Health Services (RBHS) services that are trauma-informed and designed to instill healthy social-emotional competencies needed for optimal health and wellness. Our 2-Generational approach to breaking the cycles of ACEs is proven to be effective, and prevents the child from experiencing poor outcomes including substance abuse, suicide, poor school performance, poor health outcomes, depression, crime and violence. Together, we lift lives and reshape futures.
Families treated at A Child’s Haven face adversity that causes their child(ren) to struggle with behavioral issues and/or developmental delays. ACH heals families and equips children and caregivers with skills needed to overcome these challenges and rewrite their future, making a significant, positive impact on their lives and our community's future.

A CHILD’S HAVEN FAMILIES ARE STRUGGLING TO OVERCOME:

- POVERTY
- LIMITED RESOURCES
- ABUSE & NEGLECT
- TRAUMA
- DEVELOPMENTAL DELAYS
- SOCIAL EMOTIONAL CHALLENGES
- BEHAVIORAL CHALLENGES
- HIGH ADVERSE CHILDHOOD EXPERIENCE SCORES (ACES)

In 2002, Deann was struggling to care for her three children amid a failing relationship. Her oldest child enrolled in Head Start, her youngest had special needs that required extended hospital stays, and middle child Breeanna was suffering. She was dyslexic, bore a lot of anger toward her siblings, and had all but stopped speaking.

Another agency recommended Deanna check into ACH for help, and the family qualified for services. ACH taught Deann strategies for interacting with Breeanna and modifying her behavior. After six months of group and individual therapy, Breeanna began emerging from her shell and started speaking again. ACH’s support extended beyond therapeutic treatment to parenting classes, support calls and even bed linens, towels, kitchen items and more from the ACH Parent Store to equip the home Deann was creating for her children.

After 2 ½ years, Deann’s family was discharged. She had built a new life for her children, and her family learned how to deal with life’s challenges together.

ACH was there for this family again in 2018 after former ACH client Breeanna gave birth to her first child, JR. The baby was premature with complications that kept him hospitalized for two months, resulting in developmental delays and separation anxiety. Breeanna was at a loss for how to help her child. Deann remembered how ACH helped previously and hoped we could help again.

JR qualified for services and enrolled in July 2019. ACH helped him learn how to interact with his peers, manage aggressive impulses, communicate with others, and accept care from familiar adults outside his family. ACH also taught Breeanna strategies for reducing JR’s aggressive behaviors and increasing good behaviors. JR discharged after a year of treatment at ACH and is a happy, healthy kindergartener.

In 2021, Breeanna had a second son, Kamden. At 18-months old, he was already defiant, throwing severe tantrums, and seemed to have a speech delay. Breeanna reached out to ACH before things got worse. Once Kamden was accepted, ACH’s staff began working to decrease his impulsivity by increasing his attention span. Kamden is also learning calming techniques and appropriate ways to express angry thoughts and feelings. They are teaching Kamden to seek support from trusted adults and how to wait to get what he wants. If his progress continues, Kamden will discharge in Summer 2023.

Breeanna and Deann are a great example of resilient and committed parents. They currently live and parent JR and Kamden together. Deann works from home as an office supervisor for a cabinet company. Breeanna works for a nonprofit and is starting a nursing program in January 2023. Deann asked her daughter why she would take on such a huge task while raising two sons. Breeanna replied, “I have no choice - my two need me and a mom that they’re going to be proud of.”

When asked what she thought about ACH, and how we have helped her family, Deann said, “You guys are essential, in all honesty, and you change lives whether you guys realize it, or not.”
BY THE NUMBERS
A year of treatment at A Child’s Haven (ACH) is valued at over $50,000. ACH provides these services at no cost to the family or caregivers. All therapeutic treatment team members have a bachelor’s degree, and many have master’s degrees and other licenses. Working together, the team strengthens each child with a combination of Therapeutic Child Care, Individual Therapy, Family Therapy / Home Visitation, love, support, and nutritious food.

CHILD & FAMILY OUTCOMES AT DISCHARGE

90% Of Children Improved child clinical & early childhood assessment scores
93% Of Caregivers Improved parenting skills & protective factors
85% Of Children Improved school readiness
99% Of Families Improved parent-child relationships, functioning, and/or dynamic
64% Of Families above the federal poverty line at discharge
97% Of Children Did Not Suffer subsequent abuse and neglect by caregivers while enrolled at ACH
98% Of Families are satisfied with services they received

FINANCIAL INFORMATION
FYE JULY 1, 2021 – JUNE 30, 2022

WAYS TO INVEST
With your investment, we can continue providing healing therapy to Greater Greenville preschoolers and their families, reshaping their futures. There are so many ways to get involved with A Child’s Haven—volunteer, make a donation, leave a legacy, attend an event, or spread the word about our work.

CASH OR CHECK
Donate cash or check by dropping off or mailing your donation to:
A Child’s Haven, 20 Martin Drive, Greenville, SC 29617

ONLINE DONATION
Give quickly, conveniently and securely through our online payment portal at AChildsHaven.org/Donate

APPRECIATED ASSETS
To donate stock, contact Michael Beaver at 864-298-0025 ext. 2032 or michaelb@achildshaven.org

LEAVE A LEGACY
Each year many people review and make long-range estate and financial plans. Many leave a legacy through wills, life insurance policies, and retirement accounts. For information, contact Salli Alexander, sallia@achildshaven.org

IRA CONTRIBUTION
If you are over 70, you may make a direct contribution from your Individual Retirement Account up to $100,000 in a calendar year. Contact your tax professional for more information

“Dora our therapist was so great. She went beyond what I expected her to. I love how much my child was always relaxed with her. She also understood all of my child’s issues. She coached me on how to get my child to behave. She was very supportive. Dora always addressed my concerns about my child and directed me in the right direction. My child has come to love her. I loved how concerned she was about my child. She even checked on him when he was sick and not at school. I couldn’t have asked for a better therapist for my child and myself. I greatly appreciate all of y’all’s kindness and how everyone was always concerned about my child’s wellbeing. He has grown so much with all these wonderful people in his life.”

“A Child’s Haven has been a complete blessing for us and our son!”

“A Child’s Haven has changed my and my child’s life for the better and I am so thankful. Thank you to all staff for treating us so kind and helping us become better with our lives and relationships. I love you guys and wish the best for you all. God bless.”

“My child is able to express himself in a positive way.

“I learned to practice better parenting skills and how to help my child be more successful in his day-to-day interactions. Thank you!”

“We are treated like family!”

“I am so thankful for you guys. Thank you so much for your patience and work. You guys helped my baby out so much! Because of you he’s doing so much better!! I have seen so much improvement.”

“My child loves A Child’s Haven!”

“I really think A Child’s Haven was very good for my child and they were very professional.”
HIGH POINTS & BRIGHT SPOTS

OUTDOOR LEARNING WITH ICS + GO SC FUTURE DEMONSTRATION SITE

Institute for Child Success (ICS) has been a partner and resource to A Child’s Haven (ACH) back to our earliest years. In 2020, ACH contracted ICS to co-author a white paper about the value of Therapeutic Outdoor Environments (TOEs) and possibilities for future growth. Linda Brees, Senior Fellow of ICS and Advisory Council member connected Mary Mackenzie, another ICS Senior Fellow and ACH CEO Tanya Camunas during the creation of the TOEs project, which focuses on promoting and modeling outdoor learning in naturalized spaces. Miss Mary, as she is lovingly called, co-authored the ICS paper, “Childhood, Unplugged: Overcoming Barriers to Outdoor Learning and Hands-On Play” (2019) so this was a perfect match. Miss Mary made several visits to ACH and created a Toolkit for Providers to use with enrolled children during outdoor activities. The toolkit details 50 outdoor activities with required materials, instructions, and visuals and is available on our website, TOEs is partially funded by the Department of Social Services and Department of Health Environmental Control through a grant to be a Go Outdoors SC Future Demonstration site for outdoor learning environments and learning, implementing renderings that are Natural Learning Initiative certified.

EXPANDED PARTNERSHIP WITH CHILDREN’S TRUST

ACH is raising awareness about Adverse Childhood Experiences (ACEs) being a primary reason for ACH’s founding in the 1990s. We have strategically evolved into a 2-Generation program that reverses childhood trauma brain and body impacts. Children’s Trust’s work supports ACH program decisions and provides ACH with professional development, data, resources, and empowering collaboration. This past year, ACH hosted Children’s Trust two-day ACEs Interface Master Training at our Center to equip SC Educators with knowledge and tools to conduct 90-minute and two-hour ACEs training for their communities. ACH therapists participated, so we now have four Master ACEs trainers on staff.

LIVEWELL GREENVILLE (LWG)

LWG has helped ACH expand our knowledge and lens to identify needs that exist in our community and connected us to valuable resources. LWG connected ACH to Clemson University’s Supplemental Nutrition Assistance Program Education so we can receive hands-on outdoor training and resources from their university and eventually become a future Food Share partner site. As an added bonus, ACH’s new Clemson contacts actively participate in TOEs sub-committee meetings.

GROWING PARTNERSHIP WITH SOUTH CAROLINA FIRST STEPS

To maximize value to our families, ACH has partnered with SC First Steps to host FREE in-person and virtual Positive Parenting Program sessions for enrolled families and the community in both English and Spanish. Daily, SC First Steps is a key component of ACH’s 4K program. ACH is offering our second year of four-year-old kindergarten to ensure our older preschoolers are prepared for school success socially, emotionally, and academically.

ACH TO BECOME A STATE AND NATIONAL EXEMPLAR WITH PYRAMID MODEL + SCIMHA

This year, ACH partnered with South Carolina Inclusion Collaborative (SCIC) to implement the Pyramid Model, a nationally supported, evidenced based model for supporting Social Emotional Competence in Infants and Young Children to reduce child care expulsion. ACH is also partnering with South Carolina’s Infant Mental Health Association (SCIMHA) to create and launch a comprehensive Professional Training and Development Plan that includes trauma-informed training, Reflective Supervision, and support to implement Infant-Early Childhood Mental Health (IECMH) Endorsement. This project is essential for program replication in 2023 and ensures model fidelity with guidance from the national organization for both state partners, National Center for Pyramid Model Innovations (NCPMI) and Center of Excellence for IECMH Consultation.

IECMH ENDORSEMENT OPPORTUNITIES

ACH and SCIMHA have joined forces to establish a customized, replicable one-two year Training and Professional Development Plan. Now, ACH employees are equipped with trauma-informed training, coaching, and support to deliver services to children and families struggling with acute and chronic traumatic experiences. SCIMHA’s professional development offers support to professionals that transform and enhance their skills to provide relationship-focused, developmentally sensitive, culturally responsive, and trauma-informed services. Participation in SCIMHA professional development creates a career development pathway to honor professionals’ specialized education, skills, and work experiences through the Endorsement credential.

Community partners are critical to the important work of ACH!
COMMUNITY SUPPORT IS KEY
A Child’s Haven relies on volunteers and other community support. It doesn’t matter if it’s a large group of volunteers, an in-kind donation, or a single person donating their time, every act of generosity lifts the lives of at-risk Upstate families.

Every year ACH gives a new book of the staff's choice to each child that graduates from ACH. The book for 2022-23 is “Have You Ever Wondered What You Will Be?” by Junia Wonders and Chiara Nasi. A painting inspired by this book will hang at ACH. The artist is ACH Child Therapist Kayla MacFayden, who was commissioned by Helen Kelly, mother of adopted daughter Tanya Camunas, CEO of A Child’s Haven. Ms. Kelly commissioned the painting to honor her husband in Heaven, Andrew George Kelly. Mr. Kelly’s career centered around advancing the field of Public Education to meet the unique needs of young children entering elementary school. Kelly retired in 2001 from a long career as Principal of Loring Fleming Elementary Public School near Camden, NJ, an underserved city with high poverty and crime rates. Kelly’s vision and perseverance to develop and equip the workforce was an effective approach to creating a safe learning environment for all children of diverse backgrounds. Kelly was a coach and mentor to countless people in his lifetime who have kept his legacy alive.

As we celebrate our 30th Anniversary we reflect with gratitude on our founder, Eva P. Hunt, who recognized a great, unmet need for treating at-risk children and their families. Through her determination and vision A Child’s Haven (ACH) became a reality in January 1992, opening our doors to serve 10 children. We now serve 150 children and families each year. In late 2021, Eva Hunt’s children honored the memory and vision of their mother and ensured ACH will be able to serve more families than ever with an incredible gift of over $1 million in her name. These funds were designated to support our sustainability and program expansion and will allow ACH to continue lifting the lives and reshaping the futures of local at-risk families for generations to come!
