I couldn't recommend this company more! Called on a whim because none of the more established companies would be able to help with getting my AC back in working order without at least a weeks notice. I'm so glad I did because the customer service turned out to be untouchable.. I spoke with the owner, Emily, who told me she'd have to call me back. I honestly didn't expect to hear back at all, much less to hear back with the news that they would indeed be able to fix it AND SHE FIT ME IN THAT DAY NONETHELESS! The tech was very professional, punctual, and knowledgeable! After the initial problem was addressed, he wasn't satisfied with the air return so he decided to re-check my outside unit and discovered another problem. Usually this would be devastating, however he had already reached out and informed me that his boss was on his way to deliver the part personally so it could be fixed! If anyone has ever found themselves without AC in the midst of South Louisiana's brutal summer temperatures, you understand exactly how amazing it was to have it fixed so quickly! I cannot express my gratitude enough! They've more than earned my business, both now and in the future! Seriously, THANK Y'ALL, from me, the pups, and the baby!

Cody and his crew and Emily at Acadiana Comfort are very professional and courteous to your needs. They are quick and tell you exactly what you need. They will work with you and help find the best solution possible for your budget. I highly recommend them. We are working with them right now to replace our whole AC system.

Cody and his team is always extremely professional & always timely. I had nothing but positive experiences between both my personal home and rentals. I have used them extensively for heating/cooling as well as electrical work. I couldn't recommend them more highly.

Very professional. Clean service. On time. Loves the text showing when repair man was on his way. I would highly recommend Acadiana Comfort to anyone.

In today's technological climate, it seems as though there is less and less opportunity for customer service interaction. Cody, and his team at ACS, have gone above board for multiple service calls, and proven they care for their customers at their own expense. Tonight was the 4th visit Cody has graced us with, and we are just amazed that we have never been told "I'm too busy," or "I'll try to get to you tomorrow!" The answer it's always "Not a problem, you'll receive a text when I'm in route." Then he shows up, fixes our unit, charges a fair price, gives a firm handshake, and off he goes to fix another family's A/C. Jeez, I wish I could give 500 stars... couldn't be any better!

ACS is top notch. Sonny came out after hours in the pouring rain, troubleshoot and repair our AC problem in 10 minutes, he was extremely friendly, professional and got our AC going fast.

They installed a new HVAC system for me and ii was so pleased that I hired them to service the systems in several houses, including my residence. Most recently they installed a whole house generator for me.

Great service from Acadiana Comfort Systems. They installed a new mini-split, and did excellent work on a coolant leak in our main system. We like them so much we got an annual maintenance contract - gotta stay cool!

Update: Just made a maintenance call and Acadiana Comfort tech came out promptly, explained exactly what was wrong and showed me where the leak was bubbling up. I couldn't ask for better service. Thanks y'all!

Update 2: I won't use anyone else but Acadiana Comfort. They made a bunch of calls and found out the parts were still under warranty and saved me a bunch of money.

I did not think it would be possible to get an AC as quickly as I did. They arrived on time and made spending the entire day with two AC Technicians so fun. Cody is honest as they come and will tell you honestly and fairly anything you wish to know about their services and products. They cleaned up after they were finished too! Absolutely the best investment for my home and I will be contacting them for all future HVAC needs.

ACS came out to my home to fix my A/C unit and they were extremely professional and did an excellent job! They cleaned up the work area and put everything back just like they found it! 5 stars all the way, they went above and beyond and their work is top notch!
