

# BUILD YOUR FLEET

FINANCE & LEASE PROGRAMME

---

NO UPFRONT CAPITAL.  
PAYMENTS BEGIN ON DELIVERY.

**DIVERSE · MARINE**

COWES · ISLE OF WIGHT

## Unlock fleet growth. Without capital constraints.

Financing should support growth.  
Not restrict it.

Operators are under increasing pressure to deliver more from every asset - while managing capital, timelines and operational risk.

Securing the right vessel is no longer simply a procurement exercise.

It requires careful alignment of performance, availability and financial commitment.

Traditional acquisition models can limit flexibility, delay deployment and tie up valuable capital.

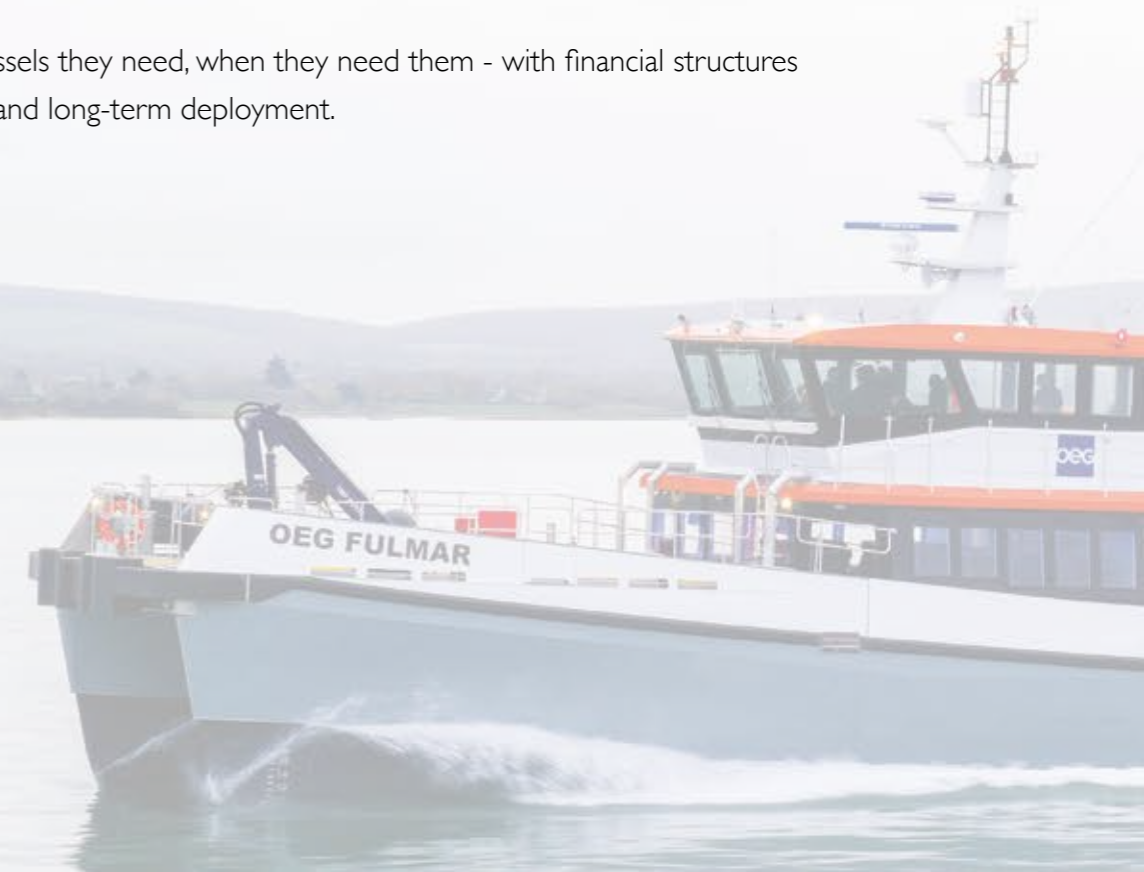

## No upfront capital. Payments begin on delivery.

No staged payments during construction.  
Commitment begins on delivery.

The programme provides access to modern, high-performance crew transfer vessels through a range of flexible funding solutions.

- No deposit required
- No arrangement fees
  
- 100% payment on delivery; **or**
- 5-year lease structures; **or**
- Financed solutions with flexible deposit levels
  
- Delivered, operational-ready vessels

Operators can secure the vessels they need, when they need them - with financial structures designed to support growth and long-term deployment.

# Delivered with confidence.

Vessels delivered ready to work  
with support you can rely on.

The programme is built around proven vessel platforms, developed through operational experience and refined for offshore wind support.

Each vessel is delivered fully completed, allowing operators to move directly into service with minimal delay.
