PROVEN EXPERIENCE

WORK BOAT DESIGN, BUILD, REFIT & REPAIR

WELCOME TO DIVERSE MARINE

Diverse Marine work with some of the world's leading naval architects to produce vessel designs that meet your needs. Our constantly expanding range includes crew transfer vessels, patrol, interdiction & military craft, pilot boats & rescue craft and a wide range of work boats, all constructed to the very highest standards of build quality and performance. Forward thinking and at the forefront of vessel design, build, refit & repair, please get in touch to find out more.

MEET THE TEAM

Established in 2018 by Ben Colman, Matt Floyd & Matt Chessell, Diverse Marine offers a range of new build vessels, together with refit, repair and maintenance from it's base at Medina Yard in Cowes. With a highly experienced workforce, Diverse Marine builds on the marine heritage of the Isle of Wight, providing a range of highly skilled marine trades and technical manufacturing capabilities.

MAINTENANCE, REFIT & REPAIR

Diverse Marine has the capabilities and expertise to undertake routine maintenance, repair and refit work, all conveniently located on the Medina River in Cowes. With extensive workshops, parts warehouse and a reliable supply chain, Diverse Marine's highly skilled and experienced teams are able to repair, maintain and refit most types of vessels. Diverse Marine have vast experience of working on a wide range of work boats and pleasure craft. This also includes a framework agreement with the RNLI to provide service based works on all classes of RNLI Lifeboats.

WORLD CLASS VESSEL DESIGN

Diverse Marine work with some of the world's leading naval architects to produce vessel designs that meet your needs. Exploring new markets and sectors, we work with clients and suppliers to understand exactly what is required and how new developments can make a real difference. The very best software can then turn the design into a tangible image of our concept solution. Specialist contractors calculate all of the performance parameters, 3D printed scale models are tested and validated before all systems are modelled.

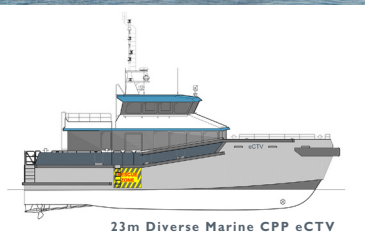

CREW TRANSFER VESSELS

CTV RANGE

The Diverse Marine range of offshore wind crew transfer vessels has been developed from over ten years of offshore wind vessel design and experience. The vessels can accommodate 24 industrial personnel alongside 4 crew and deliver the highest standards of safety performance, technical availability and ultimately 'time on turbine' for offshore wind technicians.

Our team have been at the forefront of offshore wind CTV's, individually responsible for the design and development of over 30% of Europe's CTV fleet - from the very first purpose built 'WFSV' built in the UK, to maintaining the development of next generation craft.

Our refit and repair team have evolved to ensure Europe's CTV fleet is maintained and repurposed with the latest technology to continue to service the sector from routine maintenance through class annuals, class 5-year surveys and full upcycling at the end of their purposeful lives.

PATROL, INTERDICTION & MILITARY

A new range of vessels suitable for several duties, including patrol, interdiction and military operations. Each hull has been optimised to provide excellent seakeeping performance in the most extreme conditions, with water jet propulsion for shallow draft operations and excellent manoeuvrability.

PILOT BOATS & RESCUE CRAFT

The Diverse Marine 14m Medina Class Search & Rescue Vessel is part of a new range of commercial vessels suitable for several duties including Search and Rescue and Pilot operations. The hull, from the same family of designs as the current and proven Shannon Class Lifeboat, has been optimised to provide excellent seakeeping performance in the most extreme conditions whilst providing a steady, dependable platform for rescue operations.

WORK BOATS

The Diverse Marine range of workboats includes survey vessels, fast workboats, anchor handling tugs and multi-purpose workboats. Working with some of the world's leading naval architects, we produce vessel designs that meet your needs. Combining proven experience with strong technical, design and manufacturing capabilities Diverse Marine is industry led, ensuring designs are available to meet any requirement.

Diverse Marine represent the Bremerton, Washington State, USA based company's world renowned product portfolio in the United Kingdom. SAFE Boats International (SAFE) is an American-owned aluminium boat manufacturer and leading supplier to military, state and local law enforcement, fire and rescue agencies throughout North America and around the world. SAFE are a global leader in providing the most reliable and effective boat platform systems and solutions to defence, security and first responder customers to accomplish their missions and operational profiles.
