(SPT) = Serpent [S] = Cold Spark [V] = Vertical Fogger [H] = Horizontal Fogger (C) = Confetti Cannon and CO2 Tank

- Stage - 40'w X 20'd

SPECIAL INSTRUCTIONS

Drums: Each tom requires its own mic.

LIGHTED KISS SIGN (5'x10'): We require a movable truss upstage on which we will hang our sign. Total weight is approximately 80 pounds and 4 separate letters. Sign is suspended by chains that we provide. If truss is not movable, we will require venue to provide other means of hanging the sign (example, 20 foot ladder).

Power Requirements: For **indoor** shows, (8) separate dedicated 20-amp circuits will be required. 1 for lighting, 1 for the PA and 6 for stage effects.

For **outdoor** shows at least a 50-amp 220vac service should be supplied.

Lighting Requirements:

Lighting should include 10-20 par cans sufficient to light the front and back of the stage, with a variety of gels (purple, blue, red, green, white). Or similar LED lighting.
