Carolina Pediatrics of the Triad and each of our physicians are credentialed and contracted providers for each of the above payer networks. However, there are plans within each of the above networks that our practice may be deemed as out-of-network. **Prior to services being rendered**, we encourage everyone to verify with your payer that our group and/or providers are **in-network** providers for your individual plan. We do not bill claims to payers that we're not contracted with. If you have a plan that CPT is not contracted with, you will be expected to pay **in full** at the time of service.
