

# Department Overview

---

## **Mission:**

The Human Resources Department strategically supports the City and its departments in attracting, developing, and retaining a highly skilled and diverse workforce.

## **Core Services:**

- Provide integrated leadership, service, and operational support needed to attract, retain and develop a qualified and diverse workforce so that all City departments can effectively and efficiently provide their core services to the community, meet their operational goals, and provide exceptional service.
- Protect the City's assets and promote sustainable management of the City's resources through effective risk management and long-term planning.
- Preserve the City's investment in its workforce through higher retention rates by providing fair compensation, benefits, career development and training, and a respectful employee-friendly workplace.
- Evaluate and improve processes, while staying aligned with best practices and evolving trends in merit-based employment principles and guidelines.
- Fostering positive alliances between labor and management, working together to improve internal collaboration, employee involvement, morale, and customer service in the City.

## **FY 26 Focus:**

In calendar year 2024, the City embarked on local measure JB, which would merge both the Civil Service and Human Resources Departments into one. The measure was approved by the voters in late 2024 and the merger began its formal process once the meet and confer process concluded in May of 2025. The merger is allowing the newly integrated Human Resources Department to combine personnel and financial resources in an effort to improve the recruitment process.

In Fiscal Year 2026, the unified Human Resources Department will focus on fully integrating operations to deliver seamless, citywide support across all personnel-related functions. With a centralized Talent Management Bureau now in place, the Department will continue its work to reduce vacancy rates, enhance outreach, and streamline recruitment and onboarding for both classified and unclassified positions.

The Department will expand its rollout of citywide initiatives such as the digitization of personnel files, electronic submission systems for key HR functions, and the ongoing implementation of a new HR SaaS platform. These efforts will improve service speed, compliance tracking, and interdepartmental communication while elevating the employee experience.

The Department will continue to develop the Organizational Development Division, focusing on citywide learning programs, New Employee Orientation (NEO), and leadership development initiatives such as the Administrative Officer Forum Series. High-impact events like the Employee Resource Fair will return to further support engagement and professional growth.

Through the development of Return-to-Work as a division, the department will prioritize sustained efforts to support employee health, manage disability and leave cases, and streamline transitional duty assignments. Safety programming, ergonomic assessments, and department-specific injury reduction strategies will continue, supported by enhanced tracking and training systems.

The Department aims to provide the highest level of service and maintain a strong commitment to all stakeholders. These initiatives reflect the department's dedication to aligning with the evolving needs of the City's workforce, ensuring it remains adaptable and responsive in supporting both the community and the workforce well into the 21st century.

## Department Performance Measures

Key Measure	FY 24 Actual	FY 25 Target	FY 25 Estimate	FY 26 Projection
Total annual turnover rate of the permanent workforce (classified & unclassified) for all types of departures	9%	8.0%	13.0%	10.5%

The data reflects resignations, dismissals, deaths, layoffs and retirements, among other types of departures. The turnover rate is reported by calendar year rather than fiscal year. Retirement remains one of the top drivers of turnover, with the highest volume typically occurring in October and peaking in December. As a result, it remains difficult to fully gauge the calendar year 2025 turnover rate until later in the year.

Key Measure	FY 24 Actual	FY 25 Target	FY 25 Estimate	FY 26 Projection
Percentage of grievances that come to HR and are resolved at the HR level	80%	100%	71%	100%

The Department makes every effort to resolve each grievance it receives to demonstrate its commitment to upholding the terms of the MOUs with the employee organizations. In addition, the City makes every effort to handle grievances internally rather than through arbitration. The Department will continue to handle grievances in an expeditious manner for the remainder of FY 25 and through FY 26, in order to achieve a 100 percent resolution rate.

Key Measure	FY 24 Actual	FY 25 Target	FY 25 Estimate	FY 26 Projection
Injury and Illness Incident Rate per 100 Employees (Cal-OSHA)	8.4	7.6	7.4	7.0

The Occupational Safety and Health Administration (OSHA) established this measure so that agencies may assess their safety performance compared to other entities. Injuries and illnesses resulting in death, loss of consciousness, restriction of work duties, and transfer of duties, lost workdays or medical treatment beyond first aid are reported. The rate is an estimate based on the calendar year rather than fiscal year and has been declining for the last 5 years.
