Our approach to managing diabetes for Medicare members

Covered drugs for treating diabetes

Tier 3	Tier 3 cost-share drugs available in 2027: **Trulicity, Mounjaro, Ozempic, Jardiance, Tradjenta** Some tier 3 drugs require prior authorization. Check the formulary for more details.
Tier 2	Tier 2 drugs that were brand name that now have a generic version: **Sitagliptin (generic Januvia), Sitagliptin-Metformin (generic Janumet), Dapagliflozin (generic Farxiga)** Most members can get a 90-day supply at Pharmacy Advantage for $0 copay.
Tier 1	These Tier 1 drugs have a $0 copay when filled at a preferred pharmacy: **Glimepiride, Glipizide, Metformin, Glipizide-metformin, Pioglitazone** Several Tier 1 drugs used to manage high blood pressure, cholesterol and more are $0 when filled at Pharmacy Advantage or any preferred retail pharmacy.

2027 insulin pricing based on the Inflation Reduction Act

For the complete list of covered insulins please review the 2027 Medicare Part D Formulary (also known as a Drug List), Please visit: **hap.org/prescriptions** or call our customer service. You won't pay more than $35 for a one-month supply, $70 for up to a two-month supply, or $105 for up to a three-month supply of each covered insulin product regardless of the cost-sharing tier, even if you haven't paid your deductible. Insulin covered under the Medicare Part D prescription drug benefit is self-administered injectable insulins dispensed in vials, pens, cartridges, and inhaled insulin and is filled at a pharmacy. We cover **Fiasp, Novolog, Novolin, Lantus,** and **Toujeo.**

Insulin administered with a durable external insulin pump is covered under the Medicare Part B your medical benefit and your cost share won't exceed $35 for a one-month supply, $70 for up to a two-month supply, or $105 for up to a three-month supply when provided by a pharmacy or DME provider.

Pharmacies

Pharmacy Advantage offers free in-home delivery of 90-day supply of covered insulin Enroll with Pharmacy Advantage by visiting **https://www.hap.org/prescription-drug/home-delivery** or call **(800) 456-2112**.

Our pharmacy network includes pharmacies near you including Pharmacy Advantage Specialty Pharmacy (free home delivery), Henry Ford Health retail pharmacies (30 locations), Walgreens, Costco, Walmart, Sam's Club and Meijer.

Please note that standard pharmacies such as Corewell outpatient pharmacy, will have higher copays than at preferred pharmacies.

Pay as little as $0 copays on Tier 1 drugs only at a preferred pharmacy. Find the network pharmacy nearest you in the Pharmacy Directory, with a physical copy available through customer service or online at **hap.org/pharmacy**

Other benefits under your Medicare Advantage Plan

Continuous glucose monitors (CGM)

Dexcom and Libre are available through their pharmacy or from Pharmacy Advantage with in-home delivery (20% cost share for Dexcom and Libre if provided by a durable medical equipment (DME) supplier). CGMs are recommended for those who require daily insulin.

FREE home delivery for prescription drugs

Pharmacy Advantage with free in-home delivery is our preferred mail order pharmacy. The mail often has delays. With direct shipment wherever you are, in or out of state, receive up to a 100-day supply of tier 1 formulary drugs and a long term 90-day supply of Tier 2 drugs (except opioids) for $0 cost to most Medicare members during the initial coverage phase even if you haven't met your deductible. Refill reminders and auto-shipment are also available.

$0 costs in-network for most plans for diabetic self-management training (under certain conditions), diabetic services, supplies and therapeutic shoes.

Supplies include:

- a blood glucose monitor, test strips and glucose control solutions for checking accuracy
- lancets and administration device
- one pair of therapeutic custom-molded shoes (including inserts).

$0 podiatry visits on all individual Medicare plans when performed by a podiatrist.

Care management

Chronic and complex conditions require complex care, often with many healthcare providers, prescriptions, appointments and treatments. We provide education and support to help you follow your treatment plan and keep your daily health goals on track. We'll create an approach just for you.

We'll help:

- Coordinate your care
- Educate you about your condition
- Advocate for your safety and quality of care

Your doctor may offer to enroll you in care management to help support your ongoing needs. If recommended by your physician this service does not require prior authorization. and for Medicare Individual members are often covered without member cost.

If you would like care management, you can refer yourself or your doctor, family member, or caregiver may refer you to get support from a Health Alliance Plan care manager. To learn more about care management please call or email: **(800) 288-2902** or email **caremanagement@hap.org**

Diabetes management

HAP Diabetes Care uses a combination of direct care coordination, medications and educational resources to help keep you healthy. It includes providing you with the best technology options to help manage your type 1 or type 2 diabetes.

Save money by using Pharmacy Advantage for savings on diabetes supplies at $0 cost share. Pharmacy Advantage can work with your doctor to obtain the right script and assist you with submitting your order to get you your supplies. If you have any questions, please reach out to Pharmacy Advantage at **(800) 456-2112**.

Meal delivery after inpatient stays

If admitted to the hospital, you may qualify for 28 meals delivered to your home over 14 days. Fresh, nutritious, ready-to-heat meals delivered to your home after discharge from Mom's Meals. Mom's Meals are available to Medicare Advantage individual members within 30-days of discharge from an inpatient facility. Not available on all Medicare plans, see your plan's Evidence of Coverage for details.
