Affordable insurance to assist in your recovery

Your Blue Cross Blue Shield of Michigan medical plan provides benefits to help with medical costs resulting from an inpatient hospitalization or treatment in an observation unit. But what about the unexpected costs of being in the hospital? Costs such as medical deductibles, copayments, transportation, meals and child care add up quickly.

By pairing Hospital Indemnity Insurance with your Blue Cross medical plan, you'll have the added financial protection and peace of mind in the event of a hospital stay.

Standard features

Eligible issue ages are 18 through 85. This policy is guaranteed renewable for life.

- For applicants ages 64.5 through 66 – no medical questions or build chart
- All other ages – simplified underwriting

STEP 1

Daily benefit amount is available in \$10 increments from **\$100** to **\$900**.*

Your daily benefit amount is the cash benefit payable to you for each day you're hospitalized, up to the number of days you select. The daily benefit amount is per covered family member.

STEP 2

Hospital confinement — select **three, six, 10** or **21 days**.*

Benefit: If you're admitted to a hospital as an inpatient, you'll receive a cash benefit equal to your daily benefit amount for each day of your hospital stay, up to the number of confinement days you select. Multiple hospital stays will accumulate toward your day count. After 60 days post-discharge, your available confinement days resets to your selection.

HOW IT WORKS:

Sam selects a daily benefit amount of **\$500 with 10 days** of confinement. When Sam is hospitalized for four days after back surgery, he receives a benefit payout of **\$2,000** upon discharge. Sam now has six remaining days of confinement, which will reset after 60 consecutive days out of the hospital.

Daily benefit amount		Number of days in hospital		Sam's benefit payout
\$500	x	4 days	=	\$2,000

Hospital observation benefit: If you receive treatment in an observation unit, we'll pay a cash benefit equal to your daily benefit amount, up to six days per calendar year. This benefit resets to six days annually on Jan. 1. Observation days count toward your hospital confinement days.

HOW IT WORKS:

A month later while walking through the woods, Sam experiences a severe allergic reaction to a plant and is treated in the observation unit of a nearby hospital for several hours, from mid-morning until 1 a.m. the next day. Sam's benefit payout will be **\$500**. He has five observation benefit days remaining for this calendar year, and five inpatient hospital days remaining in this period of confinement.

Daily benefit amount		Number of days in observation unit		Sam's benefit payout
\$500	x	1 day	=	\$500

Mental health indemnity benefit:

For hospital admission related to mental or nervous disorders, you will receive a daily cash benefit of **\$150 for up to seven days per calendar year**.

**Doesn't apply to hospital stays resulting from a mental or nervous disorder. See mental health indemnity benefit.*

Optional benefit riders

Optional benefit riders offer additional protection against other expenses you might face. You may add any of the below benefits to your Hospital Indemnity Insurance policy for an additional premium. Benefit payouts are available per covered family member.

Select a **\$500** or **\$1,000** benefit payout
(one per calendar year)

Emergency room and ambulance benefit:

****Benefit pays in addition to the Hospital Confinement Indemnity benefit.**

You may elect one or both riders listed in the chart. Benefit payouts are for each day in a facility, after confinement of 30 days of a qualified hospital stay. Days reset once you have been discharged from a facility for 60 consecutive days.

Rehab/SNF day options	Benefit payout options (per day)
Days 1 – 20	\$100 or \$200
Days 21 – 100	\$100 or \$200
