Squirrels

Squirrels have had a fantastic start to the term!

We have dedicated valuable time to practising essential group skills through collaborative tower-building activities.

Additionally, we have begun our place value unit, focusing on understanding 3- and 4-digit numbers.

We have spent valuable time developing teamwork and collaboration skills as pupils worked together to build towers using paper.

This hands-on activity encouraged communication, problem-solving, and shared decision-making within groups.

Badgers

Badgers have had a fantastic start to the year, enthusiastically participating in team work activities that helped them develop strong collaboration skills and work well together as a class.

In maths, Badgers have been focusing on ordering and comparing numbers up to ten million, building their confidence with large numbers and place value.

In English, we have begun exploring the works of the class book author Ross Welford, which has sparked great interest and curiosity among the pupils.

This exciting start has laid a solid foundation for a successful and engaging year ahead.
