Igniting our Future

St. Ignatius of Antioch Catholic Church

1976 • 2026

October 1, 2026

Dear St. Ignatius Family,

As we celebrate fifty years as a parish, my heart is very full. St. Ignatius has been a home for all of us. We have prayed together, laughed together, cried together, and carried one another through many moments. I am so grateful for the love and faith I see in this community every day.

The people who came before us built this parish with great sacrifice. Because of them, we have a place where families grow in faith, where children learn about Jesus, and where we find strength in one another. Now God is inviting us to think about the future, about the families who will come after us, and the ways we can continue to serve our community.

This is why we are beginning our "**Igniting Our Future**" campaign.

We hope to build a parish hall where we can gather for meals and celebrations. We want new meeting rooms for ministries and faith formation, a modern kitchen, improved restrooms, and a cry room for our young families. These are simple things, but they will help us welcome people, teach our children, and grow together for years to come.

The whole project will cost $4 million, and we need $2.5 million before we can begin. Every gift will go directly to the building fund. We promise to be open, careful, and responsible with all gifts.

I know every family is different. I am not asking everyone to give the same amount. I only ask you to pray and see what God is calling you to do. Some may give once. Some may give over time. Some may offer prayers. All of it helps our parish move forward.

Thank you for your love, your support, and your faith. It is a blessing to be your pastor.

With gratitude,

Father Titus Agustine
