

PITLESS DOUBLE RAIL LIFTS (DRLS)

THE SMARTER, FASTER, MORE ECONOMICAL DOCK SOLUTION.
NO PIT REQUIRED – RAPID PLUG-AND-PLAY INSTALLATION.

Atlantic Lifts' Pitless Double Rail Lifts (DRLs) transform any business's shipping and receiving operations. **Replace traditional dock levelers** with a **modern vertical lift** that offers unmatched speed of deployment and cost-efficiency. Engineered with a premium fit and finish, our DRLs let you create a loading dock anywhere – **without costly construction** or lengthy downtime.

REVOLUTIONIZE YOUR LOADING DOCK

Elevate your logistics with a **dock alternative** that delivers immediate results. Pitless DRLs eliminate the need for built-in docks or concrete pits, allowing **instant integration** into your facility's workflow. Every detail is designed for **productivity and safety**, so you can move goods faster and with confidence.

FAST DEPLOYMENT

Arrives pre-assembled for quick setup – have a fully functional loading lift in hours, not weeks.

NO CONSTRUCTION NEEDED

Avoid expensive pit excavation and building modifications. Simply anchor the lift and plug it in.

COST SAVINGS

Lower upfront investment than constructing new dock bays, plus reduced labor strain and injury risk.

FLEXIBLE PLACEMENT

Use it wherever you need a loading point – indoors or outdoors – turning any area into a working dock.

ALL-WEATHER OPERATION

An optional overhead canopy shields your loading area from rain and snow, keeping operations on schedule.

UNMATCHED PERFORMANCE

Our double-rail design provides **rock-solid stability** for heavy pallets and equipment. Whether you're loading trucks or transferring inventory between floors, the DRL handles the job with ease. **Atlantic Lifts' expertise** in freight handling equipment means you get a solution that is both **rugged and refined**, fit for the most demanding environments.

ENGINEERED FOR EFFICIENCY

Pitless DRLs are purpose-built for high-throughput loading:

HIGH CAPACITY

Models from **1,000 lbs capacity and up** and can be engineered for substantially heavier loads – ideal for pallets, crates, and machinery.

GENEROUS PLATFORM

Spacious lift platform accommodates standard pallets and forklift traffic, ensuring smooth loading and unloading.

VERTICAL REACH

Serves a range of heights, from ground level up to 78", with stable, controlled lifting.

HEAVY-DUTY CONSTRUCTION

Built to **CWB W47.1 certified** welding standards, ensuring structural integrity and longevity in demanding industrial use.

LOW MAINTENANCE

Industrial-grade hydraulics and components provide reliable performance with minimal upkeep, maximizing uptime.

THE ATLANTIC LIFTS ADVANTAGE

Choosing Atlantic Lifts means choosing **excellence in design and support**. Our pitless lifts are the result of decades of specialization in material handling solutions. We stand behind every lift with comprehensive service and expertise. It's more than a product – it's a strategic asset for your business. EXPERIENCE THE ATLANTIC LIFTS DIFFERENCE – THE INTELLIGENT CHOICE FOR MODERN LOADING DOCKS.
