RESPECT LIFE SUNDAY: MARY, MOTHER OF LIFE

Each October, the Church in the United States celebrates Respect Life Month and renews our commitment to protecting and cherishing every human life, from conception to natural death. This year's theme: **"Mary, Mother of Life,"** invites us to look to the Blessed Virgin Mary as a model of faith, courage, and love for every human person.

When the Angel Gabriel announced God's plan, Mary responded with her generous fiat: "Let it be done to me according to your word" (Lk 1:38). In that moment, she welcomed the Author of Life into her womb. Mary's yes to God reminds us that every human life is a gift, never a burden, and that God can bring great blessings even through unexpected circumstances.

As the mother of Jesus, who proclaimed, "I am the way, and the truth, and the life" (Jn 14:6), Mary truly becomes the Mother of Life.

Mary's example speaks powerfully to our own times. We live in a culture that often measures human worth by productivity, independence, health, or convenience. The Gospel calls us to something very different. Every person possesses an inviolable dignity because each is created in the image and likeness of God. The unborn child, the elderly person, the individual with disabilities, the sick, the poor, and the forgotten all deserve our love, protection, and care.

Fr. Tony Zimmer
Pastor

Respecting life means more than opposing abortion or euthanasia. It means building a culture where every person is welcomed, loved, and supported. Following Mary's example, we are called to accompany mothers in need, assist struggling families, comfort those who suffer,

and defend the vulnerable in practical and compassionate ways. Whether through prayer, participating in our baby bottle campaign, the Waukesha Right to Life "Life Chain," acts of charity,

volunteering, or simply being present to someone in difficulty, each of us can help create a civilization of love and life. On this Respect Life Sunday, let us ask Our Lady's intercession. May Mary, Mother of Life, help us recognize Christ in every human person and inspire us to protect the precious gift of life at every stage and in every circumstance. Through her prayers, may our parish and our families become places where life is welcomed, cherished, and celebrated.

Mary, Mother of Life, pray for us.
Mary, Mother of the Living, pray for us.
Mary, Mother of Jesus, the Lord of Life, pray for us.

OCTOBER IS RESPECT LIFE MONTH

Participate in the Baby Bottle Campaign!

A "Baby Bottle" campaign will take place during the month of October for Life's Connections. We will have plastic baby bottles available in the Gathering Space for change, cash or checks (made out to Life's Connections.)

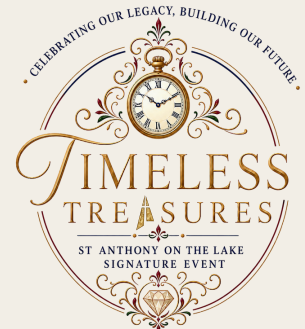

Please return the baby bottle by October 31st to the parish. A basket will be placed the Gathering Space to collect the bottles.

4 • PRAYER & WORSHIP

Women's Choir Ensemble Begins October 14

Women of all ages are invited to join our newly formed Women's Choir Ensemble! Wednesday afternoon rehearsals begin October 14 in the church from 1 to 2:15 pm.

The group will sing one 5 pm Mass a month, at Lessons and Carols on December 20, and at the 5 pm Christmas Eve Mass.

Contact Julie Farrell at farrellj@stanthony.cc for details.

VOLUNTEER OPPORTUNITY!

New Audio System Arriving Soon!

As part of the Love One Another Campaign, a new sound system will soon be installed in the church. Included are new microphones for the priests and deacons, at the ambo and cantor stand, and over the choir. There will also be new speakers over the congregation, updates to the speakers in the Gathering Space, new projectors, and enhancements to the cameras for streaming.

One person per Mass is needed to operate the new system, a total of four each weekend. Training will begin soon. If you would like to volunteer or have questions, contact Vince LaTona at (262) 691-1173 ext. 1109 or email latonav@stanthony.cc.

Volunteers Needed to Livestream Sunday Mass

Training and support are provided for this important ministry to our homebound volunteers. Contact Vince LaTona if you are interested at (262) 691-1173 ext. 1109 or email latonav@stanthony.cc.

Communion to the Homebound

Do you know someone who will miss weekend Mass due to illness? Would you like to take Communion to them? Pyxes (the small containers used to transport the Eucharist) are now available in the Gathering Space for those bringing communion to the homebound. The process is simple.

- Before Mass stop by the Eucharistic Ministry station located near the vesting sacristy. Sign out a pyx and receive an instruction card.
- Take the pyx into church with you. At Communion time take the pyx with you. Once you have received communion, hold the open pyx up. The Eucharistic Minister will place a host in it. Then close the container.
- If you choose, you may receive the cup, then return to your seat.
- After Communion, the priest will ask you to stand and receive a blessing. After Mass, the Eucharist should be delivered immediately to the homebound. This is important. There should be no delay in delivering the Eucharist.
- The following week return the pyx to church.

If you would like more information, contact Vince LaTona in the Music and Liturgy Office, latonav@stanthony.cc or (262) 691-1173 ext. 1109.

Holy Hour for Life

Saturday, October 10 Following 5 pm Mass in Memorial Chapel

Join us for prayer and Exposition of the Blessed Sacrament during Respect Life Month as St. Anthony on the Lake Deacons lead a vigil honoring life from womb to tomb.

MONTHLY Taizé Service

Begins Wednesday, Oct. 21 7 pm in the Church

Beginning in October, St. Anthony on the Lake will be holding a Taizé Prayer service once a month. Taizé Prayer is a simple, meditative form of Christian prayer that originated with the Taizé Community in France. It centers on reflection, Scripture, silence, and the repeated singing of short, meaningful chants. Rather than many spoken words, Taizé prayer invites people to slow down, listen for God's presence, and pray together in a spirit of peace and contemplation.

Respect Life Intention

"That the Church's call to repentance and promise of mercy may reach and comfort all those who suffer because of a past abortion, we pray to the Lord...

Marriage Moment

"The moment when the instinct to love is greater than the desire to be loved is the instant we become an adult." (Dr. Steven Stosny) When have you put your spouse's pleasure before your own and vice versa?

MIDDLE SCHOOL

Sharing Our “Scientific Summers!”

Welcome to middle school science! The academic year began with students authoring reflections on summer activities that incorporated scientific principles. Students explored a diverse range of experiences, including visits to the Rocky Mountains, bike riding, playing baseball, visiting Noah’s Ark, and riding roller coasters. Each student then had the opportunity to share their “scientific summer” with classmates.

Below is a selection of student statements:

- **Cooper:** “When striking a golf ball a significant distance, substantial force must be applied to increase its velocity, enabling it to travel farther.”
- **Payton:** “Weathering significantly influenced the formation of the cliffs in Colorado.”
- **Brody:** “Baseball involves scientific concepts such as spin, curvature, and ball velocity.”
- **Nolan:** “Following a wrist fracture, I visited the Emergency Room and observed numerous scientific applications, including computers, printers, and X-ray technology.”

This introductory activity helped students see that science is all around us and plays an important role in everyday life.

In class, students have been busy exploring cells, the microscopic world, and investigating energy. Using microscopes, they examined red onion and celery leaf cells, as well as sand and salt, observing the unique characteristics of each specimen.

Students also investigated the relationship between kinetic and potential energy. Using a tennis ball and a meter stick, they explored how a falling object’s kinetic energy increases as its speed increases.

These hands-on experiences are helping students build scientific understanding while discovering how science connects to the world around them.
