

Annual Medical Emergencies Simulation Workshop

Friday, January 8, 2027

Ohio Dental Society of Anesthesiology
Simulation Center E-055 CARE Crawley Building, 3230 Eden Avenue,
College of Medicine, University of Cincinnati, Cincinnati, Ohio 45267

Workshop Directors: James A. Phero, DDS MD & James C. Phero DMD

Faculty: Steve Shufflebarger DDS, Patrick Reilly RN EMT-P, & Leroy Mendell RN

Providers wishing AHA BLS, ACLS, and PALS Certifications plus AAOMS OBEAM Certification may choose to include any or all of these for update review and/or certification

====

Description

This is an opportunity for practitioners and their staff teams to experience Hands On realism of office medical emergency scenarios via human simulators with support and insights from experienced faculty. This unique workshop provides clinical simulation experiences that address recognition, assessment, and management of office medical emergencies with an emphasis on complications associated with moderate sedation, deep sedation, and general anesthesia.

Participants will demonstrate appropriate team management of patient emergency scenarios on high fidelity simulators. Skills necessary to provide skilled emergency care will be reviewed and managed on feedback task trainers.

Participants choosing to include renewal of their American Heart Association (AHA) BLS 2 year certification, ACLS 2 year certification, and/or AHA PALS will complete pre-workshop AHA online work plus perform hands on training and Mega Code testing at the Simulation Center to receive AHA certification(s). Certification is via the AHA Training Center, University of Cincinnati Medical Center. New participants choosing to take AAOMS OBEAM will receive initial certification. Participants that have current OBEAM Certification will review and update their certification with didactic inclusion of attending the ODSA Annual Session on January 9, 2027

Any workshop participants that are not current with their AHA BLS, ACLS, or PALS Certification(s) will also be required to separately pay for and take the AHA web based courses for these certifications prior to the hands-on workshop if they wish to be certified. Information for taking these AHA courses will be provided with registration.

====

To begin registration email Jim Phero jim.phero@uc.edu with the following information for each participant:

Full name

Degree

Mailing address

Mobile phone number

Email used (or will be used) for AHA eLearning web access

Your office provides moderate sedation: yes/no

Your office provides deep sedation / general anesthesia: yes/no

You are trained to intubate: yes/no

You are trained to use paralytics to intubate: yes/no

You wish to receive AHA BLS 2 year Certification: yes/no. If yes - are you currently AHA BLS certified?

You wish to receive AHA ACLS 2 year Certification: yes/no. If yes - are you currently AHA ACLS certified?

You wish to receive AHA PALS 2 year Certification: yes/no. If yes - are you currently AHA PALS certified?

You wish to receive AAOMS OBEAM Certification: yes/no. If yes - are you currently OBEAM certified?
You are a Practitioner (ADSA member or not) or you are a Healthcare Provider
You are a member of an office group attending: yes/no. If yes - office group name so members can be placed in the same workshop

====

Fee:

Practitioner (DDS, DMD, MD) ADSA member	\$950.00
Practitioner (DDS, DMD, MD) Not ADSA member	\$1,150.00
Healthcare Provider (staff)	\$900.00

Once initial information completed, check to Ohio Dental Society of Anesthesiology confirms registration

Cancellation policy: Payment applied toward future workshop

Note:

Due to the unique nature of this training experience with a 2.5 to 8 faculty to participant ratio, space is limited to a maximum of sixteen practitioners and providers per each of the two sessions offered. Registrations will be filled starting with the 1 pm afternoon workshop start. Once the afternoon is filled, registrations will begin with the 8 am morning workshop start unless requesting a specific morning or afternoon workshop at time of registration.

As a courtesy should there be any open participant spots these may be filled with currently active residents. Program Directors interested in placing residents on this Wait List may provide resident names and information to Jim Phero at jim.phero@uc.edu

Continuing Education Credits through American Dental Society of Anesthesiology

Ohio Dental Society of Anesthesiology Simulation Center Workshop: **4.5 hours CEU**

AHA Heartcode BLS renewal pre-workshop didactic preparation / exam **1.0 hours CEU**

AHA ACLS renewal pre-workshop didactic preparation / exam **3.0 hours CEU**

AHA PALS renewal pre-workshop didactic preparation / exam **3.0 hours CEU**

New AHA Heartcode BLS pre-workshop didactic preparation / exam **3.0 hours CEU**

New AHA ACLS renewal pre-workshop didactic preparation / exam **8.0 hours CEU**

New AHA PALS renewal pre-workshop didactic preparation / exam **8.0 hours CEU**

AAOMS OBEAM workshop didactic preparation **6.0 hours CEU received via
required attendance at ODSA Annual Meeting January 9, 2027**

Practitioners that are not currently AHA certified in BLS, ACLS, and/or PALS must take the AHA online course(s) for which they are not certified. These web courses are through the AHA and have an additional AHA fee when taking the course. Information will be provided with registration.

American Society of Anesthesiology (ADSA) and its components are ADA CERP recognized and accepted FAGD/MAGD Credit National Sponsors
