791.05 METHOD OF DETERMINATION OF ALLOCATION OF TAX.

(a) Net profits from a business or profession conducted both within and without the boundaries of the City of Euclid shall be considered as having a taxable situs in the City of Euclid for the purpose of income taxation in the same proportion as the average ratio of:

As used in this paragraph, real property shall include property rented or leased by the taxpayer and the value of such property shall be determined by multiplying the annual rental thereon by eight.

(2) Wages, salaries and other compensation paid during the taxable period to persons employed in the business or profession for services performed in the City to wages, salaries and other compensation paid during the same period to persons employed in the business or profession wherever their services are performed. Effective with tax year 2004, wages, salaries, and other compensation shall be included to the extent that they represent qualifying wages.

(3) Gross receipts of the business or profession from sales made and services performed during the taxable period in the City to gross receipts of the business or profession during the same period from sales and services, wherever made or performed.

(b) In the event that the foregoing allocation formula does not produce an equitable result, another basis (including books and records) may, under uniform regulations, be substituted so as to produce such result.

(Ord. 262-1966. Passed 12-23-66.)

791.07 TOTAL ALLOCATION.

Add together the percentages determined in accordance with Section 791.05(A)(1-3), or such of the percentages as are applicable to the particular taxpayer, and divide the total so obtained by the number of percentages used in deriving such total in order to obtain the business allocation percentage referred to in Section 791.05.
