

# Kingfishers - Spring Term - 2026

Happy New Year! The children have had a wonderful start to 2026 and we are excited to see the progress that the children will make as we continue through the term. Thank you for your continued support this academic year.

## English

There have been a couple of changes to our long term plan this year. We are now doing Greek Myths and Aesops Fables.

We will continue to focus on phonics, spelling, sentence structure and descriptive language,

Support: Any reading at home greatly supports your child.

## Geography

Our next topic is the British Isles.

Support: The children have loved looking at maps and exploring the world using Google Earth.

## History

Our next topic will be the Tudors.

Support: BBC Bitesize has lots of interesting information.

## Science

This term the children will be learning about electricity and plants.

## Maths

This term we will be continuing with addition and subtraction then moving on to multiplication, division, measure and statistics,

Support: TTRockstars is a super resource to learn multiplication and division facts fluently.

## RE

This term we will be learning about Christian, Muslim and Sikh world views.

Support: Engaging in discussion about your own family beliefs can support children's understanding of other world views.

## PE

The children will be playing invasion games where they will learn about sportsmanship, rule, attack, defence and strategy.

## Art

The topics are Portraits and Self-Portraits, Landscapes and Symmetry.

The biggest change this term is our change of location. We trialled the move and the children chose to stay. The children are benefitting from less distractions and have reported that they feel happier in their new space.

As always, please do not hesitate to contact me with any questions or concerns.

Mrs Navia
