

PS Series

STEEL SECURITY DOORSETS

PERFORMANCE SECURITY PRODUCTS

Introducing the new PS Series Steel Security Door Range

TS Designs Limited specialise in the design, manufacture and installation of performance security products for commercial and critical national infrastructure applications. For over 20 years we have been protecting the UK's most vulnerable assets from physical attack and collateral damage.

We constantly evaluate new materials and design concepts to provide our customers with innovative solutions, satisfying their most demanding every-day security requirements.

This ethos has continued with the development of our new PS Series Steel Security Door Range.

Available in both Magnelis® corrosion resistant mild steel and stainless steel materials with a premium polyester powder coated finish, our new PS2 and PS3 Steel Security Doorsets have been fully tested and certified to the latest and most demanding version of Loss Prevention Standard LPS 1175; new Issue 8.

Market Leading Certified Features

- Largest door leaf size range, up to a colossal 1600mm in width and 3275mm in height
- Widest range of doorset configurations available
- Thinnest and lightest door leaves. Only 45mm thick and weighing no more than 45kg/m². Less than half the weight of some of our competitors
- The greatest number of MICO High Security Locking Systems and functions listed in the LPCB Red Book for any doorset product with a choice of single point, 2-point or 3-point locking systems
- Unlimited structural opening sizes when specified with adjacent over panels and side panels
- Factory fitted hardware throughout
- Choice of alternative colours to each face of door leaf as standard
- No quibble, long term product warranty scheme

Certified Options

- LPS 1175: Issue 8 Security Rating B5 (SR2) or C5 (SR3)
- Magnelis® corrosion resistant mild steel or stainless steel substrates
- Single, double or odd-leaf double doorset configurations
- Hinged or removable over panels
- Removable side panels
- Vision panels up to 1100mm wide x 1400mm high
- Louvre vents up to 900mm wide x 900mm high, with or without insect/vermin mesh
- Panic escape, emergency escape, manual deadlocking, automatic deadlocking or electro-mechanical deadlocking functionality

Certified Performance

- CE marked in accordance with external door standard EN 14351-1: 2006 & A2: 2016
- LPS 1175: Issue 8 Security Rating Classifications B5 (SR2) and C5 (SR3)
- Secured by Design product listed and accredited

Market Sectors & Applications

Energy, Water, Telecommunications, Commercial, Health, Transport, Government, Retail, Sports & Leisure, Education, Pharmaceutical.

Extended Warranty

TS Designs Limited want you to have full peace of mind and confidence in the long-term durability of our products and offer a market leading warranty scheme fully supported by our dedicated service and maintenance team.

A 10 year warranty from date of dispatch is offered covering the repair or replacement of any door leaf or frame component found to be defective due to faulty materials or workmanship.

In addition, door leaves and frames manufactured from Magnelis® coated steel and finished in our high quality polyester powder coated finish are supplied with a 10 year corrosion warranty from date of delivery. Upgraded stainless steel Grade 304 or 316 material versions with a powder coated finish to suit saline environments or harsh conditions are provided with a 20 year corrosion warranty.

LPS 1175: Issue 8
Cert/LPCB ref. 1570a,b,c,d
