

CPC VBS 2026 MISSION

KENYAN CLEAN WATER INITIATIVE

DONATE HERE

The Goal

The goal is to provide a deep borehole well which will provide clean drinking and irrigation water for a local community. The all-in cost (including site surveys, excavation, water testing, pump and water tower installation, and output point for the community) is \$15,500. We are currently completing the first of these wells (see the attached pic) and are prayerfully pursuing a total of four strategically located wells within Kisumu County.

Main economic issues in Kisumu County

- High unemployment & poverty
- Over-dependence on fishing
- Pollution & environmental damage
- Weak infrastructure
- Limited industry & investment
- Agricultural challenges
- Corruption & governance issues
- Health-related economic strain

John 7:37-39

Jesus once again speaks of living water, saying, "Let anyone who is thirsty come to me and drink. Whoever believes in me, as Scripture has said, rivers of living water will flow from within them." By this he meant the Spirit, whom those who believed in him were later to receive. Up to that time the Spirit had not been given, since Jesus had not yet been glorified."

**We are so excited to have your kids at VBS with us
at Chesterfield Presbyterian Church! This week we
are going to be blasting off into space to learn
about how God made us, loves us, and saves us
through his mighty power. We encourage you to
ask your children about their day and talk to them
about what they are learning.**
