Betterliving Sunrooms

Your window to the world

Rediscover the tranquility and natural beauty of your own backyard and enjoy all that is wonderful about the outdoors. Three-season sunrooms extend your outdoor living season while year-round sunrooms may be heated or cooled. Both create the perfect place to watch the seasons change without being exposed to the elements.

Betterliving Sunrooms are custom manufactured to your specifications so they are sure to fit your lifestyle, needs, and budget. With many options to choose from, we will design the sunroom of your dreams.

“Our sunroom is a beautiful extension of our home. We love it.”

Mr. & Mrs. Stithem, NE

Vacation everyday...

With a Betterliving Sunroom, you'll feel like you're on vacation without having to leave your home. Your need for extra space can be satisfied in a way that offers a peaceful haven to start each day and a place to unwind at the end of each day.

"We love our new sunroom. It makes the old screened-in porch pale in comparison. The room is very bright and my plants are thriving. We are able to use the new sunroom earlier in the spring and later in the fall than our old screened-in porch." Mr. & Mrs. Meiggs, NC

Build on your existing deck

Enclose your existing porch

Enclose under your existing deck

Build on your existing patio

Or we'll build a new deck or foundation for you!

“Seeing the first snowfall from our sunroom was amazing! Christmas morning was great and the Christmas tree was just the right touch with the first snowfall as a backdrop.”

Mr. & Mrs. Shaw, OH

“Our sunroom has such a healing effect like being at a resort on vacation every day. It’s amazing how one room can make such a difference.”

Mr. & Mrs. Brousseau, ME

Ceiling Plank System

Beautifully accent your sunroom with the warm, elegant look of wood

Experience sunroom perfection with a natural wood grain look. Betterliving's engineered plank system creates an elegant, airy space for relaxation and entertainment. Choose from eight designer colors, each boasting authentic wood textures for a unique statement. Enjoy a maintenance-free finish with interlocking planks, effortlessly personalizing your sunroom for a warm, cozy atmosphere.

Specialty Crafted Details

For enclosed porches, studio, or gable roof sunrooms - choose between two models:

ALUMINUM (Three-Season)

Affordable way to extend the outdoor living season

- Sturdy, 3" walls of engineered, extruded aluminum
- Baked-on, maintenance-free enamel finish
- Choose Low-E, argon-filled, tempered, insulated glass or economical single pane, tempered glass
- Frame colors:

White

Desert Sand

Earthstone

VINYL (Year-Round)

Offers year-round enjoyment; you can heat or cool in most weather conditions

- Rugged, 4+" walls of engineered, extruded aluminum
- State of the art vinyl construction reinforced with aluminum and steel
- Low-E, argon-filled, double pane, insulated, tempered glass standard on all doors, windows, transoms, and kneewalls
- Frame colors:

White

Desert Sand

All Betterliving Sunrooms Offer

- Durable screens in extruded frames
- Color-matched handles
- Interlocking frames for added structural integrity
- Built-in electric raceways to meet national codes
- Heavy-duty construction that can withstand severe weather conditions
- Built-in, color-matched gutters that provide drainage without unsightly extensions to your sunroom roof

Walls and Doors

- Fully tempered glass in all units
- Secure window and door locking mechanisms that are built to last
- Fully integrated sliding windows and doors with steel wheels for a long-lasting, easy glide
- Optional glass kneewall and transom or matching panel kneewall
- Single pane or insulated Low-E, argon-filled glass

Roof Panels

- High-density polystyrene core sealed between exterior and interior engineered aluminum
- Core thickness available in 3", 4½", and 6" to meet insulation and structural requirements
- Optional shingled roof (exterior)
- Optional ceiling plank system (interior)

Glass (High-Quality Window and Door Units)

Betterliving 366 Glass for Vinyl Sunrooms

Betterliving 180 Glass for Aluminum Sunrooms

- Energy efficient, insulated glass with Low-E and argon gas that keeps heat out during summer and in during winter
- Fully transferable manufacturer's 50-year warranty on frames and 15-year warranty against seal failure
- Quality controlled seals on insulated units
- Tempered glass is approximately four times stronger than plate glass
- If broken, tempered glass falls into small, pebble-pieces, greatly reducing the likelihood of injury

Sunroom Warranty

50-year transferable, non-prorated manufacturer's limited warranty on components

What you should know before investing in a sunroom

1. **Compare cost and value accurately:** Ensure your contractor provides a free, no-obligation consultation and measurement at your home. Avoid estimates over the phone as they might hide the actual cost. Schedule an appointment to assess and select the best sunroom for you and your family.
2. **Ask about electric wiring:** Ensure your home's electric system is up to code and seamlessly integrated into the sunroom's décor. Watch out for contractors using awkward surface mount boxes and conduit as an afterthought. Choose Betterliving Sunrooms with built-in electric raceways meeting national codes for approved wiring systems.
3. **Ask about window and door roller wheels:** Smooth operation depends on high-quality rollers. Opt for steel rollers on stainless steel tracks for heavy windows and doors. Ensure they are backed by a warranty. Our roller wheels come with a 50-year fully transferable warranty!
4. **Ask about insurance:** Some contractors hire uninsured sub-contractors to avoid workers' compensation costs, putting you at risk of liability if an accident occurs on your property.
5. **Screens should be tough and free from glare:** Some companies will want to use less expensive fiberglass screens, but black aluminum screens minimize the obstruction of your outdoor view and are stronger than fiberglass screens.
6. **Our handles are strong:** They are easy to slide, color-coordinated, full-sized, and securely fastened on both glass and screen units.
7. **Ask about the contractor:** Make sure they are insured and that your sunroom company will stand behind their work.
8. **Ensure proper permits and inspections:** Identify which permits are required. Know who will schedule local building department inspections. Betterliving dealers handle all engineering and permitting for you!
9. **Ask about the warranty:** How long is the labor guarantee, and what does it include? Ask about the manufacturer's warranty, and learn about the company that stands behind it.
10. **Choose the right foundation:** Betterliving Sunrooms can be constructed on your existing deck or patio if it meets local building codes. Your dealer can reinforce or build a new foundation if required.
11. **Financing options available:** Betterliving dealers offer attractive financing for qualified buyers with instant credit decisions. Contact your local dealer to explore available options.

Expert Assistance From Start to Finish

Our experienced design consultants are happy to meet you at your home and discuss what size, color, style, and accessories will best fit your needs. They'll help you envision the room of your dreams, and our expert installers will fulfill that vision. Installers are trained both at our factory and on-site to ensure quality construction. We have the necessary engineering drawings to secure building permits and will work on your behalf to obtain all necessary permits before installation begins.

Screen Rooms

Enjoy your backyard like never before

Enjoying the outdoors can be a challenge at times. Blazing sun, too many insects, or unexpected storms can quickly ruin your outdoor experience or alter your plans. With a Betterliving Screen Room, you can easily entertain family and friends or enjoy the outdoors while protected from the sun, rain, and insects.

- Custom manufactured and professionally installed to meet local building codes
- 1 3/4" or 3" frames
- Choose a studio or gable roof or enclose under an existing porch or patio cover
- Built with the same structural roof system as our sunrooms
- Available with swing style doors or sliding screen doors
- Made from strong, extruded aluminum framework with built-in gutters
- Maintenance-free, baked-on enamel finish with excellent impact, corrosion, and mar resistance that never needs painting
- Frame colors:  White  Desert Sand  Earthstone  Black
- Kneewall available in 1 3/4" screened or aluminum panel, and 3" screened, vinyl panel, or glass panel
- Other options for 1 3/4" rooms: extra small mesh "no-see-um" screens and TuffScreen®
- **Warranty:** 15-year transferable, non-prorated manufacturer's limited warranty on components

Patio Covers - Porches - Carports

Escape nature's challenges

CARPORT

Enjoy more protected space with an insulated porch or patio cover. No need to worry about sudden showers, scorching sun, or rainy days ruining your outdoor experience. Add drop shades and solar shades for privacy and protection, or create a bug-free retreat with motorized screens. Easily transform your space into a Betterliving Sunroom or Screen Room with windows or doors. Our carports are a cost-effective alternative to a garage addition.

- Built with the same structural studio or gable roof system as our sunrooms
- Custom manufactured and professionally installed to meet local building codes
- Made from strong, extruded-aluminum framework with built-in gutters
- Maintenance free, baked-on enamel finish with excellent impact, corrosion, and mar resistance that never needs painting
- Frame colors:  White  Desert Sand  Earthstone
- **Warranty:** 15-year transferable, non-prorated manufacturer's limited warranty on components

Betterliving Starter Program

Step 1: Enjoy shade and shelter under an economical patio cover

Step 2: Screens can be added to create an insect-free screen room

Step 3: Add glass windows and doors to create a sunroom you can use every day

Aluminum & Glass Railing

The view you want with the safety you need

Complement your home's exterior with elegant, stylish railing that is beautifully crafted, maintenance-free, and built to last. Our railing is custom manufactured with a unique crossover design that allows the handrails to run continuously over the posts. Built on-site to your specifications, choose from 36" or 42" height aluminum railing with evenly spaced $\frac{5}{8}$ " narrow or $1\frac{1}{2}$ " wide pickets, or framed or frameless architectural glass railing for open views to your surroundings.

- Heavy-duty aluminum 3" or $5\frac{1}{2}$ " post with optional interim $2\frac{1}{4}$ " crossover posts
- Clear, tinted, or frosted $\frac{1}{4}$ " thick (framed) and $\frac{1}{2}$ " thick (frameless) tempered safety glass with polished edges
- Color Options:  White  Desert Sand  Earthstone  Black
- Color-matched to coordinate seamlessly with our sunrooms
- Aluminum Picket and Structural Framed Glass Railings
 - Unique crossover design for an unparalleled level of safety
 - Can be built A.D.A. compliant
 - Available with single or double top rail
- Frameless Glass Railings:
 - Heavy wall glass channel with deep pocket to safely contain the glass
- **Warranty:** 10-year non-prorated manufacturer's limited warranty on aluminum components

Waterproof Aluminum Decking

A truly maintenance-free deck that will outlast all others

Discover the unparalleled quality of Betterliving's Aluminum Decking. Crafted from extruded aluminum, our deck boards are built to resist twisting, warping, and fading, and they will outlast wood, vinyl, and composite alternatives. With a pressure-locked seal, the boards seamlessly connect to form a waterproof joint and gapless floor. The built-in continuous gutter ensures a dry space beneath. Elevate your outdoor space with a deck that redefines durability and functionality.

- Maintenance-free extruded aluminum for strength and reliability
- Installs on treated or untreated wood joists in the same time as wood decks
- Color Options:  Ivory  Fashion Gray  Antique Bronze
- **No** painting, staining, waterproofing, splintering, cracking, rotting, warping, decaying, knot holes, bonding, or glue issues
- Hidden fasteners eliminate worry about nails or screws popping
- Non-skid - embedded texture in the heavy-duty powder-coated finish
- Unlike composites, vinyl, and wood decks, aluminum does not ignite or burn, making it ideal for outdoor grill areas
- **Warranty:** Limited lifetime, transferable, non-prorated manufacturer's limited warranty on aluminum components
- Aluminum does not deteriorate from UV rays
- Stays cooler than other decking types. In a test performed at 86° in direct sunlight, decking surface temperatures registered:

*Decking should not be used as the sole roofing solution over enclosed living space; consult installation guide.

Awnings - Shades - Canopies

Shade your outdoor living space and relax in cool comfort

CANOPIES - PERGOLA CANOPIES

EXTERIOR SOLAR SHADES
