COMFORTING FAMILIES FOR OVER A CENTURY

Conveniently located in Uptown Whittier, White Emerson is a family-owned, full-service mortuary that has been in the comfort business for six generations. With our caring staff, beautiful facility and on-site crematory, we are confident that we can serve all of your family's funeral ceremony needs with excellence. We specialize in traditional burial services, cremation ceremonies and pre-planning arrangements.

White-Emerson Mortuary began in 1894 after the White family traveled from Iowa to the small Quaker community of Whittier, California. Addison White, our founder, started "E.H. White Furniture and Undertaking", named after his wife, Eliza H. White. Shortly after the turn of the century, Addison's son, David H., took the helm. David built a new building and moved the firm in 1918 from its original location on south Greenleaf to its current location on Philadelphia Street.

In 1923 he formed a successful partnership with Charlie E. Emerson, and they worked together for nearly two decades until David's death in 1942. Rowland D. White, son of David H., had worked for the firm since his youth. Upon the death of his father, Rowland took over his father's ownership of the company as a partner to Mr. Emerson. Charlie Emerson passed away in 1961 and Rowland became sole owner before his untimely death only two months later. The family tradition carried on as David E. White, Rowland's eldest son, took the reins at only 25 years of age. Five years later, in 1966, the White family purchased Coleman Mortuary in La Habra.

Tragedy struck in 1987 with the Whittier Narrows Earthquake. The beautiful building built by Second-Generation owner, David H. White, was destroyed. At the time of the earthquake, the son of then-current owner David E. White, Philip R. White, stepped up to oversee construction of our present day facility. Philip continued to manage the firm for several years before purchasing it from his father in 1997. At present, Philip R. White, the fifth generation of the White family, continues to provide the same care that has been a comfort to thousands of families for over a century.

DISCLAIMERS

The caskets listed are regularly offered by White Emerson Mortuary. Other caskets may be made available upon request.

THERE IS NO EVIDENCE THAT ANY CASKET REPRESENTED AS HAVING PROTECTIVE FEATURES, WHICH MAY INCLUDE A GASKET, WILL PRESERVE HUMAN REMAINS.

In most areas of the country, state, or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

WHY INVEST IN A BURIAL VAULT?

After interment, all caskets face ecological and commercial challenges. The average weight of a backhoe construction vehicle (the most commonly used digger at cemeteries) is in excess of 13,000 pounds. Soil conditions and downward compaction over years of pressure from everyday cemetery vehicle use can cause serious damage to unvaulted caskets or caskets placed in simple concrete boxes. In addition, caskets placed into simple unlined concrete boxes are also at risk of severe damage due to moisture and rainfall penetrating through the seams and drain holes. This occurs because the concrete boxes are only designed to prevent the nearby earth from collapsing. They do not have any proper lining or sealing, thus allowing water and moisture to seep in through the porous exterior of the concrete shell. We encourage all our families to protect their loved one at rest and to protect their investment of a quality casket.

GRANITE GRAVE MARKERS

Prior to working with White Emerson, all Families preparing to purchase a marker should contact the cemetery to inquire about possible restrictions on size, material, edging etc.

MARKER SIZE OPTIONS:

The most common sized markers used at cemeteries are 24x12 and 28x16 for individuals. The 28x16 size can be used as a companion marker for double depth graves. 44x14 sized markers can only be used as a companion marker if plots are side by side.

MARKER EDGE OPTIONS:

Out of the 3 available edging options offered for markers the "Lawnmower Proof" edge is our most popular here at White Emerson. Every week, year after year, large mowers like the one seen in this image maintain the grounds of cemeteries. It is best to invest in some protection against chipping. Smooth edges work better than hard right angle corners.
