March Facts

- Albert Einstein, a German-born theoretical physicist who is widely held to be one of the greatest and most influential scientists. Einstein is best known for developing the theory of relativity.
- The first telephone was patented on March 7, 1876 by Alexander Graham Bell. On March 10, 1876, Alexander Graham Bell made the first-ever phone call. It was to his assistant, and he said, "Mr. Watson, come here. I want to see you."
- March is statistically, the most unproductive month of the year in the US. This is due to "March Madness," which is the season of the NCAA. Companies have reported losing up to \$1.9 billion in wages paid to employees that were not productive and instead spent company time betting on the NCAA tournament.

Information and Reminders

Extra Clothes: Every age group

Please be sure you are checking your child's cubbies for extra clothes. Be aware that weather is changing (constantly here), so please have weather appropriate clothing.

Easter Parties March 28th

Please be on the look out for sign up sheets for our Easter parties. In addition to the party, LMLC does an annual Easter egg hunt. Please provided a dozen pre-filled Easter eggs for your child's classroom.

Community Connection

Afterschool

Little Munchkins is big on teaching our children responsibility and independency, which correlates keeping track of all items brought on the bus and/or to the center.

Bus drivers remind all children to double check where they are seated upon arrival to Munchkins and before stepping off the bus to ensure each child has his/her belongings.

If any item is left on the bus, your child will have to wait until the following business day.

Responsibility is an important skill to learn and Munchkins wants to be sure we help implement it into their daily lives.
