

CASE STUDY

Client: Mrs Walker, Caxton, Cambridge

Project: Design, construct and install under stair storage

Value: £4400

Programme: 5 Weeks

OBJECTIVES

Design and install custom under-stair drawers to maximise storage while complementing the home's modern-traditional aesthetic.

THE CHALLENGE

The hallway featured an exposed staircase with wasted under-stair space and limited storage. The client wanted concealed storage for coats, shoes and umbrellas to keep the entrance clean and uncluttered.

OUR APPROACH

Using 3D drawings, we helped the client visualise and refine the design. The drawers were handcrafted and spray-finished to match the staircase, with full protection to floors, walls and surrounding areas, ensuring a clean, careful and disruption-minimised installation throughout.

THE SOLUTION

- Bespoke design maximising under-stair space
- Three soft-close drawers for everyday storage
- Full-height coat and umbrella storage
- Adjustable internal shelving
- Ovolo shaker-style doors
- Antique brass handles for a timeless finish

RESULT

This project transformed unused under-stair space into a practical, integrated storage solution. The design delivered discreet storage while complementing the home's modern-traditional interior with a seamless, handcrafted finish.
