

Dry Ice by Eco newsletter

August, 2026 | Volume 10

Dry Ice by Eco is a multi award-winning Dry Ice blasting business, fully qualified and SQA accredited company offering the highest level of Dry Ice cleaning service with over 15 years of experience.

Dry Ice Academy by Eco , The Equipment Behind the Package

State-of-the-art equipment. Professional training. Complete support.

Meet the PCS Ultra, one of the state-of-the-art dry ice cleaning machines available through our Dry Ice by Eco Academy packages. Built for precision and versatility, the PCS Ultra helps businesses bring professional dry ice cleaning in-house. Our Academy packages include SQA-accredited operator training, dry ice supply, and ongoing support, giving your team the skills and confidence to maximise results.

Want to find the right machine and package for your operation? Get in touch with the Dry Ice by Eco team.

Is Your Equipment Ready for the Final Push of 2026?

As summer shutdowns end and production ramps up, now is the ideal time to prevent contamination from affecting equipment performance, downtime and maintenance costs.

From specialist cleaning projects and planned maintenance programmes to Dry Ice Academy training, Dry Ice by Eco helps businesses keep equipment cleaner and running efficiently.

From Scotland to sites across the UK, Dry Ice by Eco is ready to support your operations.

Our specialist dry ice cleaning teams operate across the UK, supporting everything from one-off projects to planned maintenance and multi-site cleaning programmes.

Whether you run a single site or multiple locations, we work around your production schedules, including weekends and shutdowns, to minimise disruption.
