The Sample Holder

There are 18 different sample holders in the MICSOL range.

The advanced models are fitted with Cryo-Lid to allow safe and contamination free transfer, with all units compatible with BAL-TEC based cryo stages.

Model configurations include:

- Horizontal (surface station)
- High Pressure Machine applications
- Plunge freeze TEM-Grid and AutoGrid sample carriers
- Pre tilted (SEM/FIB)

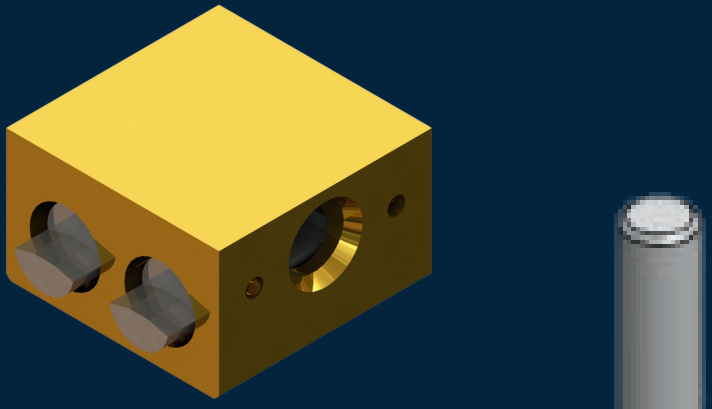

Sample holders tailored for you

(01)

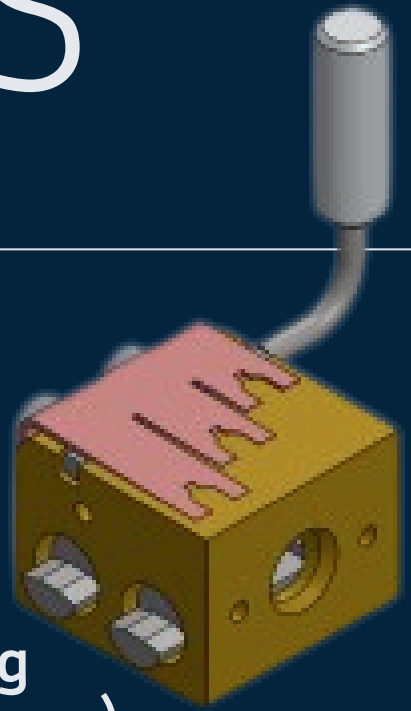

Blank specimen holder

(02)

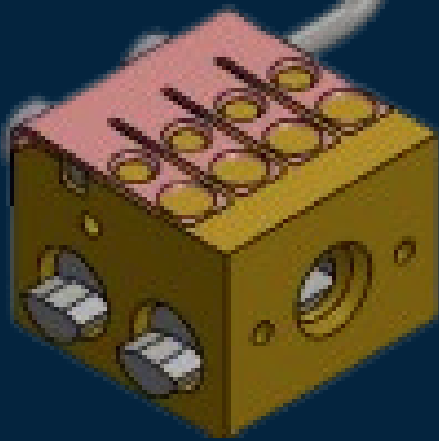

Blank for M3 thread in SEM stubs

(03)

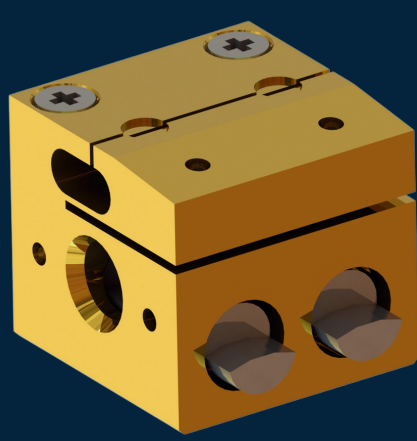

Freeze Fracturing (3.0x0.8mm carriers)

(04)

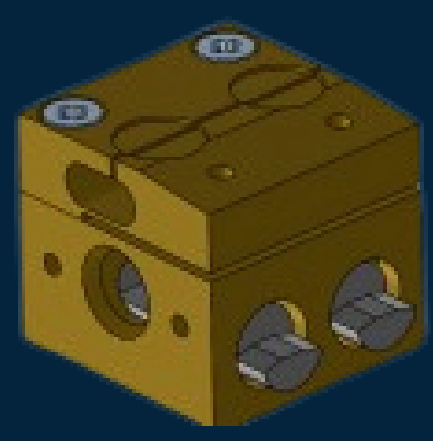

For x4 3mm grids \$

(05)

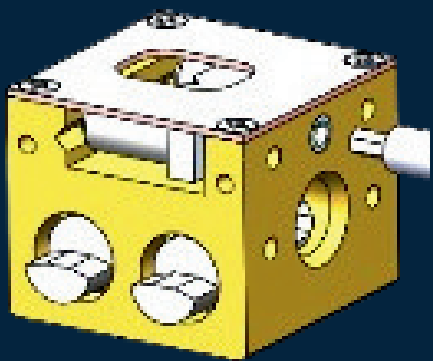

Freeze Fracture (3.0x0.8mm carriers)

(06)

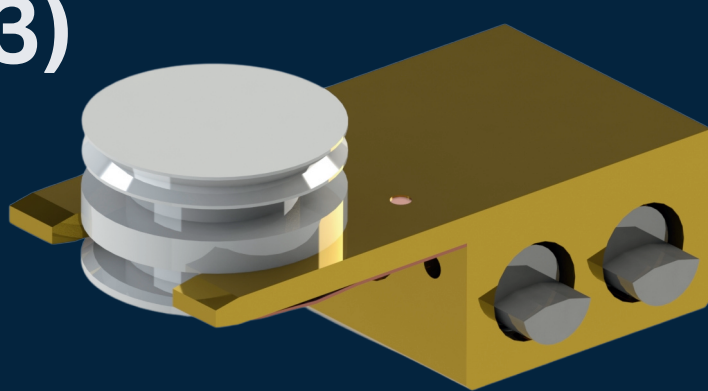

Freeze Fracture (6.0x0.8mm carriers)

(09)

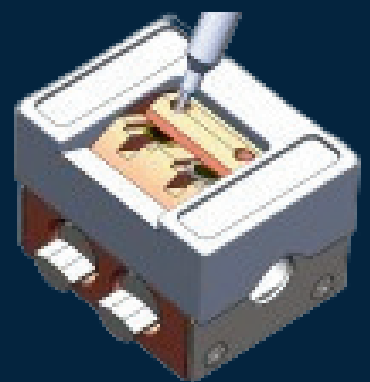

Horizontal Vice

(13)

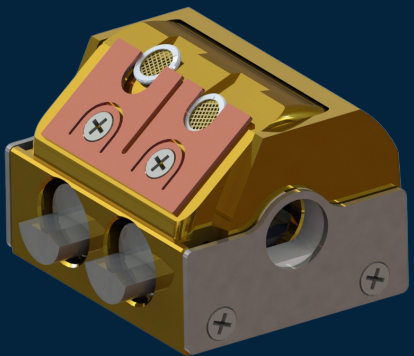

Kratos XPS

(15)

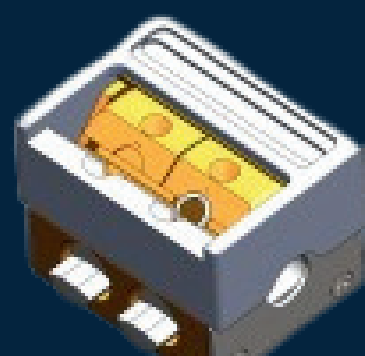

PreTilted28°ReverseEdgeClamp TEM grid holder with shutter & cold trap

(16)

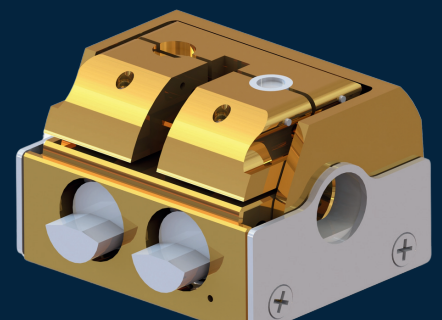

PreTilt40°_FlatClamp

(17)

reTilt37.5°_FF_Auto-Grid holder with shutter

(18)

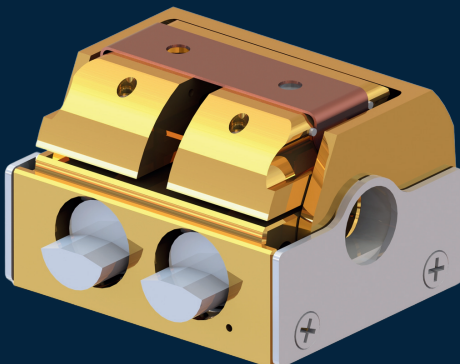

Horizontal Freeze-Fracture HPF 3.0mm holder with shutter

(19)

Horizontal Freeze-Fracture HPF 4.5mm holder with shutter

(20)

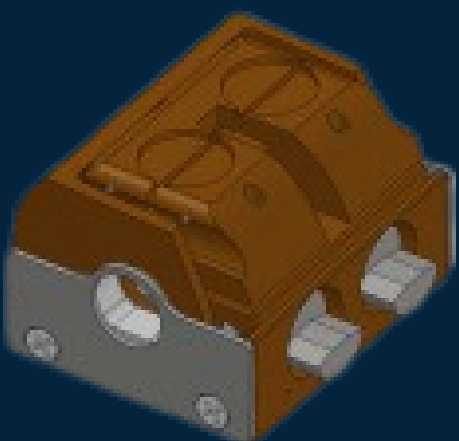

Horizontal Freeze-Fracture HPF 3.0mm holder with shutter & FLAT cover

(21)

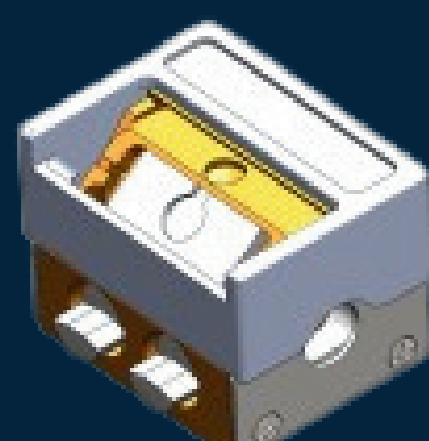

Horizontal Freeze-Fracture HPF 4.5mm holder with shutter & FLAT cover

(22)

Horizontal Freeze-Fracture HPF 6.0mm holder with shutter

(23)

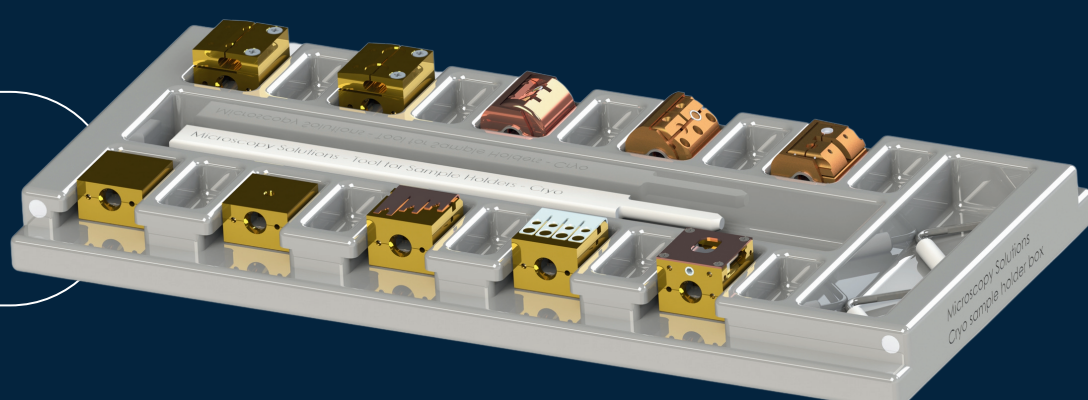

PreTilt37.5°_Linkam holder with shutter

(29)

PreTilt40°_FlatClamp for CryoCapCell
