MEET THE RECIPIENTS

I am Sachal, wife of Ram Babu. My husband is a barber and has a small shop in the village. Whatever he earns from this work is used to buy food and clothing for our family. There are seven people in my family, and I have been living in this village for the past 16 years.

Previously, I had to collect water from a distant well, which was about a 30-minute walk from our home. Because it was so far, we could not bring enough water for our household needs. We also faced hatred and discrimination because of our caste. The well owners did not allow us to touch their well, so we were forced to draw water only when no one else was present.

After receiving this well, I no longer have to walk long distances to collect water. Now I have sufficient water for all our daily needs. Even more than that, there is no longer anyone to insult or hate us. I feel truly fortunate to have received this well, which has taken away our sorrow.

Thank you so much for the well. We were also given a Bible at the well dedication.

WELL REPORT

MEET THE PASTOR

I am a local pastor, and I have known this family for about a month. While surveying several villages for potential well-drilling opportunities, I met this family and felt deep sorrow after hearing their story —how they were treated and the hardships they endured simply to collect water for their household needs.

After the well was provided, they now have water for all purposes and can use it whenever they need. They listened attentively to the words shared during the well dedication, and we also provided them with a Bible.

It is my prayer for this community that they would learn to love and accept people of lower castes as their own brothers and sisters. Please also pray for me as I share the gospel, that people may respond with open hearts and come to know Jesus as their Lord and Savior.

Thank you so much for providing this well.

THANK YOU FOR YOUR PARTNERSHIP!
