BIOGRAPHY

Martin Alegro is a young DJ/Producer & Songwriter based in Utrecht, The Netherlands. He grew up in a mixed household, with a Dutch father and a Spanish mother. Both his parents played an instrument, which sparked an early interest for music in Martin.

The music he makes is best defined by his uplifting melodies and emotional chords. Balancing between pop and EDM Martin seems to know really well how to combine his love for EDM together with the emotional and catchy vibes of pop. The young dutchman has a lot in store from lush pop tracks to hard hitting EDM bangers, this makes him an artist with a wide range of skills and possibilities.

With the world opening back up Martin looks to put his stamp on the dance music scene, he's now fully focused on getting himself out there playing shows and releasing fresh new music.

PLAYED VENUES: Jaarbeurs, Utrecht – Tivoli Vredenburg – FYREXR festival – Db's
