“

From myself and on down, we've worn many hats: campus president, academic dean, admission representative, curriculum developer, compliance officer, and more. We know what it is like to successfully start, operate, and grow vocational school campuses. That is why we enjoy using our experience and knowledge to continue to serve the industry — especially in the management and growth of our partner schools. As a national brand, we operate with complete transparency and, as a fast-growing company, want to make money with our partner dentists, not off them.

”

MCP

MEDICAL CURRICULUM PARTNERS

Turnkey dental assisting school launch system

A National Staffing Crisis. A Practice-Strengthening Opportunity.

The Problem

- Shortage of qualified dental assistants
- Recruiting costs and turnover are rising
- Unfilled positions slow practice growth

The Opportunity

- Launch your own school inside your practice
- Build a reliable pipeline of well-trained, practice-ready team members
- Strengthen your team, grow production, and increase practice value

MCP helps you solve the staffing challenge
by building talent from within.

MCP

MEDICAL CURRICULUM PARTNERS

The Potential of One Class Cohort

A simple, scalable way to turn unused chair time into predictable revenue and long-term impact.

Tuition and fees
per student

\$4,800

Example cohort size

12 students

Gross tuition revenue
per cohort

\$57,600

MCP-guided target
overhead

18%

Estimated overhead
at 18%

\$10,368

Estimated contribution
after overhead

\$47,232

Financial impact per cohort

\$57,600

Gross tuition revenue per cohort

\$57,600

Estimated overhead at 18%

\$10,368

Estimated contribution after overhead

\$47,232

One well-run cohort can generate meaningful additional income from chair time that would otherwise sit unused.

Launch Option 1: Pay in Full.

One upfront investment for the full MCP school launch system.

State licensure support

3 technology platforms

Custom school website

Marketing collateral templates

Staff onboarding and training

Curriculum usage rights

Ideal for practices that want the simplest path and full buildout from the start.

Single upfront entry fee

\$20,500

Best for doctors who want the cleanest path to a complete school launch.

Launch Option 2: Pay as You Go

The same school destination, with staged payments across the build.

1	School licensure support	\$7,500	5	School website	\$1,050
2	Student LMS / curriculum platform	\$4,500	6	Marketing collateral	\$1,750
3	Instructor platform	\$3,100	7	Staff onboarding and operations	\$800
4	Staff training portal	\$1,800		Total investment	\$20,500 total

Ideal for doctors who prefer staged cash flow while still building the same MCP launch system.

Same destination. Different cash-flow strategy.

The MCP Monthly Fee: What It Supports.

Ongoing access, school systems, and support for one low monthly fee.

Monthly MCP fee

\$499

Annual subscription total

\$5,988

Tuition and fees per student

\$4,800

Break-even point About

1.2
students per year

One student covers about **80%** of the annualized monthly fee

In a 12-student cohort, the annual MCP fee is only **10.4%** of gross tuition revenue

The monthly fee begins the month after activation because school-specific setup, support, and build work begin before licensure approval.

What your monthly fee supports

Student LMS access

Instructor lab guides platform

Staff training portal

Website and curriculum access

Ongoing support and updates

Unlimited student and staff access

Just over **one student** per year can cover the annualized MCP fee.

NEXT STEP

Choose Your Launch Path with Confidence.

Pay in Full or Pay as You Go — either pathway leads to the same MCP school launch ecosystem.

The right path depends on how your practice wants to manage the investment.

Choose Pay in Full if you want the simplest activation and the full launch buildout organized from the start.

Choose Pay as You Go if you prefer staged payments by build phase while MCP assembles the same launch system over time.

After reviewing this guide, the next step is a short MCP Launch Review. We will discuss your state, your practice setup, your available space, your team, your timeline, and which entry pathway makes the most sense.

Schedule Your MCP launch Review →

Pay in Full

Simplest activation.
Full launch buildout
organized from
the start.

Pay as You Go

Staged payments
by build phase.
Same launch system
over time.

April 13, 2012

To: Whom it may concern

This memo is in reference to the Pharmacy Technician Program conducted as a joint venture between the University of Florida College of Pharmacy (UFCOP) and Medical Curriculum Partners (MCP). We have had a good and professional relationship with Julian Milian and MCP since we started working together about three years ago. Julian is a dynamic worker in recruiting students and course development. He is conscientious in his efforts with the course to be sure everyone involved is treated fairly.

We have worked with about 200 plus students in the course during the time we have worked with MCP. All of them who have taken the PTCB national exam have passed the exam.

If you have specific questions about the relationship between MCP and UFCOP please let me know.

Sincerely,

Arthur E. Wharton
Director

SHOULD I GO **FOR IT?**

Only you can answer that question, but it might help to answer these questions first:

1. Does your dental production income instantly stop the moment you step away from the dental chair?
2. When your office is closed, does your facility sit there empty generating zero amount of excess income?
3. Has your retirement account dropped giving you no other choice but to practice longer than you originally intended for more funds?
4. Would you believe that thousands of people now are seeking training as dental assistants especially with the COVID-19 situation?
5. Do you want more flexibility in your working life?
6. Would you like to know why over the past 3 years, enrollment in Dental Assisting schools has risen quite progressively?
7. Did you know that Dental Assisting is currently the 3rd fastest growing occupation in the United States that doesn't require a college degree?
8. Do you still have large outstanding dental school and practice debts you'd like to pay down faster?
9. Are you now invested in real estate, or other kinds of 'sideline businesses' that require huge cash and time investments?
10. Would you treat your dental assisting school as a real business capable of producing real revenues?

MCP

MEDICAL CURRICULUM
PARTNERS

If you answered 'Yes' to at least 5 of the questions above, then yes, perhaps you should go for it!
