## THE NEXT EXPLOSIVE CHAPTER

Pressure builds as New York Times best-selling writer Robert Venditti (Superman '78, Green Lantern) and powerhouse artist Doug Braithwaite (CONAN, JUSTICE) tighten the screws in the second can't-miss chapter of this year's biggest, non-stop action thriller.

FACE-OFF! After a hull-shattering explosion in the engine room, the Akula-class submarine is taking on water and sinking fast. Surrounded by the floating corpses of his dead comrades, Russian sailor Stepan has just one thing on his mind: vengeance. But the American operative responsible isn't going down without a fight. Because only he knows the shocking secret of the Turganov's true mission, and the global war threatening to erupt on the surface. The brutal showdown begins here.

“This book is an instant F\*\*\* YES for me! Mike Carey writes a fresh take on vampire lore and then shocks you with mixing it with *A Kids On Bikes* adventure and both are covered in blood! Wayshak's art pulls you into the story with pages so full of detail and texture you'll feel like you need to wash your hands after you put this issue down. One year after defeating The Joker, Harley is still hunting serial killers—just not in the city she used to protect. She burned her association with the GCPD and Lt. Jim Gordon and now works with vigilantes to seek a very different kind of justice.

But when Gotham headlines about a new series of grisly crime scenes lead to speculation that her nemesis is somehow escaping Arkham to continue his murder spree, she feels compelled to return. Jonathan Crane, former

classmate and current head of Arkham Asylum, assures her that The Joker is securely locked in his cell...yet the women of Gotham are still being stalked by a killer who is using their corpses to make art.

Unwilling to return to the police precinct and its regulations, Harley forms an alliance with some unlikely conspirators, and these women work to save the people of Gotham City.

*New York Times* #1 bestseller Kami Garcia (writer of the *Teen Titans* series), Mico Suayan (*Knight Terrors: Action Comics*), and Jason Badower (*Wonder Woman '77*) return to the gritty, terrifying version of Gotham they explored in the Bram Stoker Award-nominated *Joker/Harley: Criminal Sanity* to delve into the twisted mind of a killer, his disciple, and the women who will take them down!

Weapons of the future.

Deep inside a top-secret U.S. research facility, a revolution in cybernetics is taking shape. Using ordinary domestic animals, the scientists of Project AWE have created a new class of cyborgs—flesh-and-metal creatures designed to rule the battlefields of tomorrow: prototypes code-named WE3.

But successful as they are, WE3 are still only prototypes, to be dismantled when their testing is complete. Faced with destruction, WE3 run out into a frightening and confusing world, where they are now as much of a threat as those who hunt them. Relentlessly pursued, WE3 fight with the combined firepower of a battalion—and a faint, warm memory of somewhere called "home."

*We3* is a tale crafted by bestselling writer Grant Morrison and superstar artist Frank Quitely (*All-Star Superman*, *Batman and Robin*, *JLA: Earth 2*) and is a creative high point for these two comics giants.
