The tie-in series to *Star Trek* (2026) starts here!

From Nebula and Hugo Award–winning writer Charlie Jane Anders *(New Mutants, Lessons in Magic and Disaster)* and artist Isaac Sánchez González *(TMNT, Godzilla)* comes an extremely CLASSIFIED mission.

A starship graveyard on the moon. A captain haunted by failure. A mission that could change the future of the Federation...or end it entirely.

Raffi Musiker takes command of the *U.S.S. Endeavour*—and is immediately handed a classified directive from Starfleet. Follow the guidance of a powerful, untested A.I., built from mysterious technology recovered in the Epsilon Corridor, that can predict threats before they happen.

But these missions aren't exploration—they're a gamble. As systems fail, pressure mounts, and missions spiral out of control, Raffi must decide who to trust: her crew...or the machine guiding them.

Because some discoveries are better left buried.

And some warnings come too late.

The final entry in the epic that has redefined the Federation.

Captains Sato and Kirk have put aside their monumental differences. Zed has constructed an engineering masterpiece in the T'Galatheon Gate. All those who remain true to Starfleet's ideals have miraculously gathered in one place, and they are prepared to hunker down within the Gate's singularity to finally rebuild what they lost in The Burn...and it's all too late.

The Emerald Chain has sniffed out the motley assemblage and is decimating them in a brutal attack. But Sato, Kirk, and the crews of the *U.S.S. Omega* and *U.S.S. Challenger* have battled to find a whisper of a chance to save their Galaxy more times than they can count. And they won't let this last hope die without a vicious fight—or a noble sacrifice.

Section Null is capable of being any*where* and any*one*. Not even the brass at the tippy top of Starfleet can be trusted. Andorian spy Lyna Taval and ex-bomber Harry Deubert only have each other to rely on, but both of them are wanted by their enemies...and by each other. And that complicates things.

Chased to the edges of the quadrant, there's only one course of action left for them both: to take the fight to their greatest betrayer, the rat laundering latinum in reds shirts' corpses for a mysterious end game—Chip Miller. But the rot in Starfleet runs deeper than one man's involvement, and death flirts at the edge of every shadow.

The government would have its citizens believe that nothing is still alive inside the Deadzone... but do you believe that?

There are stories of a man...or rather, a half kaiju, half man...who travels freely throughout the Deadzone. Some say he can even kill a kaiju. Some say...this "wanderer" is not the only of his kind. Follow the Wanderer as he encounters the strangest characters to hit comics in a decade: Glasseater and Runt! Two kaiju-controlling kids who are being hunted for their strange abilities. Together, these three will run afoul of Godzilla-worshipping churches, the world's biggest Godzilla fan (literally!), and an underground kaiju fight ring.

KAIJU GO COSMIC! MANGA-SIZED JUST $12.99

"Godzilla's new era reaches new heights." ***—Screen Rant***

Join a crew of cosmic misfits as they soar through the stars in Mechagodzilla in this series that ties in with the all-new Kai-Sei Era of Godzilla comics in a black-and-white edition!

You didn't think kaiju were only on Earth, did you?

In the fight for galactic supremacy, no weapon is more powerful than a kaiju...and no team is better equipped to capture and transport these titanic monsters than the crew of *Starship Godzilla!*

This ragtag group flies through space in Mechagodzilla and takes high-risk, high-reward missions across the galaxy. A kaiju heading toward your planet? Give them a call. A colossal space pest clogging up your trade route? They'll get rid of it. A galactic civil war utilizing kaiju on both sides? They'll...uh...do their best to stay out of it. But where there's a galactic war, there's a galactic conspiracy, and our crew members may not all land on the same side of this fight.

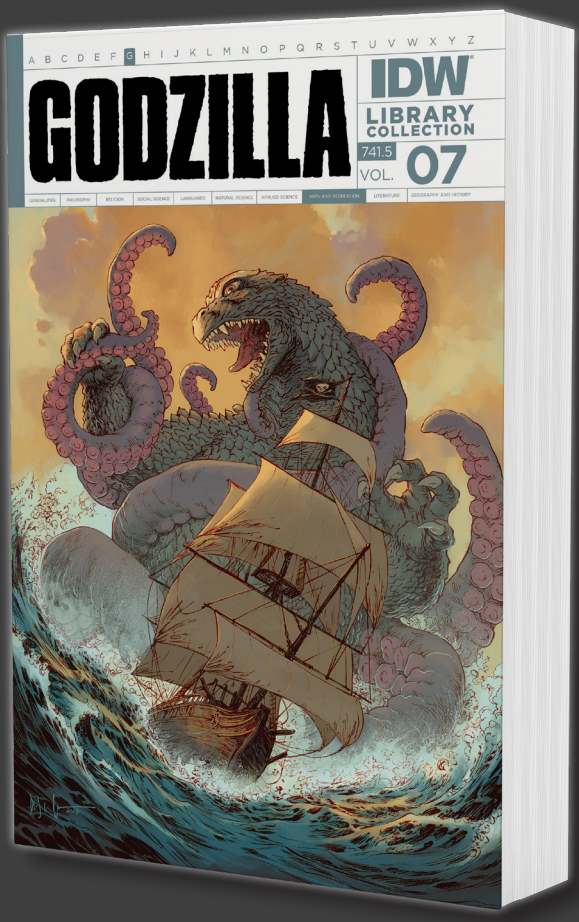

A brand-new kaiju space epic starts here in Starship Godzilla from Chris Gooch *(In Utero, Under-Earth)* and Oliver Ono *(Godzilla: Monster Island Summer Camp)*! Collects issues #1-6 and is part of the new Godzilla connected comic book universe with *Godzilla: End of the Reign (Kai-Sei Era)* and *Godzilla: Escape the Deadzone!*

Move over, dinosaurs...monsters used to rule the planet! Travel to different time periods to examine the origin of myths that fueled nightmares in *Rage Across Time!* Visit feudal Japan, ancient Greece, medieval England, classic Rome, and the Cretaceous in these stories by Ulises Fariñas, Erick Freitas, Chris Mowry, Ryan Ferrier, Matt Frank, Tadd Galusha, Jeff Zornow, and more!

In *Godzilla: Rivals*, Godzilla faces off with Hedorah, Mothra, King Ghidorah, and Battra! Across the grimy street of New York City, in the deep waters of Japan, and over the crimson sands of Mars, Godzilla defends its reign, facing each fearsome adversary one-on-one. These stories provide an all-out, knockdown kaiju brawl of epic proportions by Paul Allor, E.J. Su, Mary Kenney, SL Gallant, Adam Gorham, Rosie Knight, and Oliver Ono.

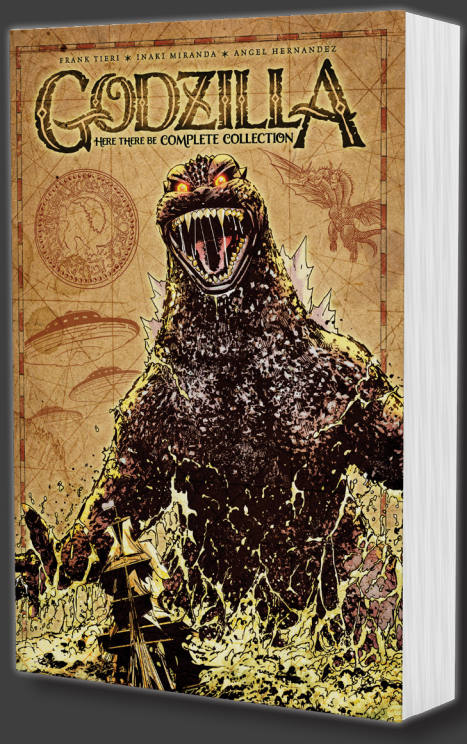

Then, in *Godzilla: Here There Be Dragons*, a ship of seafaring navigators in the 16th century runs afoul of a lost world where there is only one king, the King of the Monsters! "A monstrous amount of fun." ***—Anime News Network***

Travel through history with Godzilla in this trilogy of graphic novels full of action, adventure, and intrigue! From the 1500s to the 1950s, Godzilla battles from the age of discovery to the age of UFOs!

This omnibus collects the complete trilogy of *Godzilla: Here There Be Dragons*, *Godzilla: Here There Be Dragons II—Sons of Giants*, and *Godzilla: Here There Be Aliens* by writer Frank Tieri and artists Inaki Miranda and Angel Hernandez for the first time.

Before humanity had successfully traveled the entire globe, it was believed that monsters ruled the oceans just beyond the horizon. "Here there be dragons..." was written on maps to denote the areas people dared not go. That is, until Sir Francis Drake circumnavigated the seas, visiting foreign lands and collecting treasure. That's what history tells us, at least, but history does not have the full tale. Monsters did lurk yonder, living on an island that still doesn't appear on any map, and among them was the king of them all...Godzilla!

Then, in the sequel, discover the shadowy society that controls the secrets of the kaiju, from ancient Rome to colonial America and beyond. Who are the members of this Illuminati-esque cult, known only as the Sons of Giants, and what is their mission? More importantly, how have they been pulling the strings of every major kaiju encounter since the dawn of time?

In the finale, it's the middle of the 20th century, and Americans everywhere are terrified of the strange lights hovering above them in the night sky...and they should be. These UFOs are actually the Xilien invasion force! Revealed to have already been on Earth during the events of *Sons of Giants*, the Xiliens have been attempting to destabilize the planet with the help of kaiju from outer space. With the aliens' claws deep inside the U.S. government, will our rogue operatives manage to band together to save humanity?

Read all three graphic novels in one collection for the first time!

30 DAYS OF NIGHT DELUXE EDITION: BOOK FOUR

STORY: JOE R. LANSDALE, DAVID LAPHAM, AND STEVE NILES
ART: SAM KIETH, DAVID LAPHAM, AND PIOTR KOWALSKI

336 Pages • $29.99 • HC • OCTOBER 2026 ISBN 9798887244921

"True horror observes the human condition beyond fear even while exaggerating the consequences of actions." ***—Slings and Arrows***

Revisit the vampire tale that kick-started a modern horror comics revival in this fourth collected deluxe edition that features three graphic novels.

A town plunged into darkness, a group of vampires hungry for blood, and only a husband-and-wife sheriff's team to stop them. This premise set the stage for an iconic horror franchise that went on to become a feature-length film from Sony Pictures in 2007. Book four collects *30 Days 'Til Death, Night Again,* and the 2018 *30 Days of Night* series!

The horrible events of Barrow have rippled throughout the world. In *30 Days 'Til Death* by David Lapham, a war has started in the secret society of vampires. A death squad of elders has come to America to "thin the herd" of the troublesome new breed.

Fleeing the site of a secondary vampire infestation in the cold wilds of Alaska, a band of survivors arrive at a climate-change facility during the final days of a long period of extended daylight. The inhabitants of the research compound are trying to determine the nature of a strange object found in the ice when the survivors arrive, leading to a frightening and bloody confrontation between humans and vampires in *Night Again* by Joe R. Lansdale and Sam Kieth.

As the sun sets over an isolated Alaskan township—not to rise again for a month—a new evil emerges from the shadows to terrorize the town. But after a series of strange events and horrific killings, the question becomes...What lurks in the shadows? *30 Days of Night* is reborn in an all-new reimagining of the series designed to titillate the mind and horrify the senses by co-creator Steve Niles and Piotr Kowalski.

DARK SPACES CASEBOOK

STORY: SCOTT SNYDER, JEREMY LAMBERT, AND CHE GRAYSON
ART: HAYDEN SHERMAN, CLAIRE ROE, AND KELSEY RAMSAY

616 Pages • $29.99 • TPB • OCTOBER 2026 ISBN 9798887245270

Over 600 Pages!

Legendary writer Scott Snyder presents a thrilling crime/horror series exploring our deepest fears of the unknown. This collection includes all four graphic novels in one book for the first time!

Dark Spaces Casebook collects *Wildfire* and *Dungeon* by Scott Snyder and Hayden Sherman, *Good Deeds* by Che Grayson and Kelsey Ramsay, and *The Hollywood Special* by Jeremy Lambert and Claire Roe.

In *Wildfire*, a crew of women from an inmate firefighting program are risking everything on the frontlines when their newest recruit—a white-collar convict with a deep network of shady dealers—discovers they're mere miles from her crooked former associate's abandoned mansion. When she proposes a plan to abandon their duties and hunt for riches under cover of smoke and ash, the team must decide if they're ready to jeopardize their one sure path back to normalcy for a shot at a score that would truly change their lives...but is this a flicker of fortune, or a deadly trap?

In *Good Deeds*, teenager Cheyenne Rite and her mother, Rebecca, move to St. Augustine, Florida. There, they cross paths with Jean McKnight, a disgraced big-city journalist determined to pay her dues and rebuild her career, starting with a fluff piece on the town's upcoming 450th anniversary celebration. When the quaint community's festivities give way to bloodshed and Cheyenne is the sole witness, Jean begins an investigation and the women find themselves at the heart of a supernatural conspiracy linked to St. Augustine's colonial past. Together, they vow to expose the town's historical sins, but the deeper Jean digs, the less clear everything becomes. Who is Cheyenne Rite, and when does a quest for truth become a thirst for vengeance?

In *The Hollywood Special*, it's 1942 and a train is touring the U.S. supporting the war effort. On board is fading star Vivian Drake. When the Special pulls into the coal-mining town of Minersville, Pennsylvania, amid the collapse of a mine, Vivian finds herself facing every failure and bad memory she's bottled up in the form of what the miners found in the dark—the thing they call the Mismatch Man, who feeds on pain and regret. And Vivian's got both in spades.

In *Dungeon*, Tyler Letts moved his family from the rustle and bustle of the Big Apple to upstate New York. However, his dream of a quiet rural life is interrupted when he discovers a dungeon underneath their land, filled with torture devices, weapons, and a threatening message on the wall that reads "Tell anyone and you and yours are next." FBI agent Bohdi Madoc is called in to investigate. Decades ago, he was trapped in one of these dungeons. Now, he'll have to drudge up his past and work alongside Tyler to find out who the dungeon master is.

Perfect for fans of thrillers, horror, and crime, these four graphic novels will take you into the dark spaces of the unknown!

ENTER THE MAZE!

After surviving an almost complete system failure inside a nuclear reactor, Bloodshot and Bloodbyte are determined to uncover the truth behind Red OPS.

Recent missions in Japan and Chernobyl—where Bloodshot faced enemies like the vampire yakuza Udo and the powerful psiot Dragunov—have left him questioning everything he thought he knew about his past and allegiance.

Now the trail leads somewhere impossible: the Backrooms, a parallel dimension where Red OPS quietly runs its global system from behind reality itself.

But once you step inside, there's no guarantee you come back out the same.

Part one of a two-part finale arc begins here.
