newsletter

Integrity's managed IT and communications services are built on partnership. We take the time to understand your business and future plans before we recommend solutions to suit your requirements.

Christmas Security

At Integrity, your security is our priority.

The festive season sees a rise in phishing attacks. Be vigilant against suspicious emails, calls or texts that mimic trusted organisations.

Always verify sender details and if you encounter anything suspicious, DO NOT click links or make payments – delete it immediately.

If you are unsure if a message is genuine, call our support team on 01228 594682 for verification.

Wednesday 31st	08:30 - 17:00
New Years Day	Closed
2nd Jan	08:30 - 17:00

Get Ready for 2026: Your IT Resolution

December is the ideal time to prepare your systems for the year ahead. A quick review of patching, hardware performance, backup reliability, security updates, and licensing can prevent problems before they arise. With Windows 10 now at end-of-support, many devices will no longer receive vital security fixes.

If your organisation still relies on outdated hardware or unsupported operating systems, our team can help you upgrade safely and efficiently.
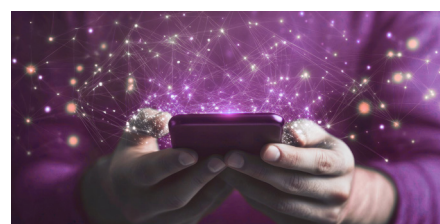

December Special Offer

This month we are offering a complimentary email security assessment for organisations looking to strengthen their defences going into 2026.

Our team will review your current setup, highlight potential risks, and recommend practical steps to protect your business.

To claim the assessment, quote **DEC25** when contacting the team.

How Integrity Supports Christmas Closures

We know many businesses operate reduced hours or close entirely over the Christmas break. Throughout the holiday period, our team periodically monitors systems, maintains security, and provide emergency support when needed. Whether you are fully closed, working with a skeleton staff, or operating remotely, we are here to ensure your IT remains stable, secure, and dependable.

Thank You & What's Coming in 2026

As the year comes to a close, we want to thank all our clients for their continued trust and partnership. We look forward to bringing you new service improvements in 2026, including enhancements across cyber security, telephony and cloud management.

We wish you a safe, secure and peaceful festive season.
