March, 2026 | Volume 05

Integrity's managed IT and communications services are built on partnership. We take the time to understand your business and future plans before we recommend solutions to suit your requirements.

NOW IN STOCK! Dehumidifiers for Server & Comms Rooms

In server rooms and technical spaces, where equipment like data servers relies on stable temperature control, a powerful and reliable air-conditioning solution helps maintain the correct temperature and relative humidity to prevent overheating, reduce downtime risk, and support long-term operational efficiency. We offer portable and fixed air-conditioning units ideal for server rooms and office environments, if you'd like advice on selecting the right cooling solution for your space, our team is here to help.

An introduction to Cyber Security Webinar.

Wednesday 25th March 2 PM - 2:45 PM

Join us to talk all things Cyber and let our expert guide you through the ever changing world of cyber.

Special offer!

Integrity by Eco is excited to announce a fantastic promotion this month!

When you purchase 10 or more Microsoft 365 Business Standard with Copilot licenses, you'll enjoy savings of over £100.

Don't miss out on this opportunity to enhance your experience while saving money!

Hurry, the offer is only valid until the end of March 2026!

Supporting You Beyond Day to Day IT

Recent industry wide outages have highlighted an important point: even well-established cloud platforms can experience disruption.

As your IT support provider, our responsibility extends beyond day-to-day troubleshooting. We work with clients to identify single points of failure, review backup and recovery strategies, and build sensible resilience into critical systems.

Often, small improvements such as secondary connectivity, clearer recovery objectives, improved monitoring, can significantly reduce operational risk. If failure event planning hasn't been reviewed recently, we can incorporate this into your next account review.

Welcoming Melanie Whittle to Resilience by Eco

We're pleased to share that Melanie Whittle has joined Resilience by Eco as Operations & Delivery Lead. Melanie will focus on structured project delivery, proactive communication and ensuring clients receive a consistent experience throughout every engagement.

Her appointment strengthens our commitment to service quality and long-term relationships across your Cyber and IT services.

QUICK TIP OF THE MONTH

One of the most common security gaps is user accounts that retain access longer than necessary. Promptly notifying us of staff changes, especially authorised contacts, ensures access is removed or adjusted immediately, reducing risk and maintaining compliance.
