**SPECIAL  
PLANETARY ASPECTS  
FOR  
JANUARY 2024:**

**HAPPY NEW YEAR!!! 2 0 2 4 !!!!**

Happy Birthday, Capricorn! Capricorn is the tenth sign of the zodiac with the teacher, Saturn, as its ruler. The colors black and royal blue are associated with the sign of Capricorn. Garnet and onyx are Capricorn's gems.

Capricorns are loyal, faithful, practical and carry themselves with much dignity. Their downfalls can be their possessive, sometimes jealous nature and that they are the workaholics of the zodiac.

\*\*\*\*\*

**January 11 – Capricorn New Moon** – this is the time to organize and simplify life. A lot of emotions are at the forefront now. By actively reducing the amount on your plate you can more easily manage the intensity of the experiences you may be going through. This is all intensified by the strong stellium of the Sun, Moon, Mars and Pluto all in Capricorn.

**ASK YOUR ANGELS  
BY  
MARY SILVERNAIL,  
WORLDWIDE PSYCHIC  
ASTROLOGER:**

**Archangel Michael**

Due to the troubling times upon us here on earth in this year 2024, I felt that many could benefit from an understanding of a most powerful Archangel, Michael. Archangel Michael is considered by many to be the Protector of the Earth, to cover and protect us and hold us dear.

\*\*\*\*\*

Archangel Michael empowers us to seek, explore and evolve in the sanctuary of his grace and protection. His name means "he who is like God". He heals our fears and nervousness and is certainly the one to call upon if clearing of negative energies surrounding us is needed.

\*\*\*\*\*

With the Moon's major Trine aspect to Uranus in Taurus innovation and a bit of rebellious approach can actually save the day. Uranus may also offer a surprise blessing for a surprise opportunity. Don't wait on acting on this blessing; it could leave almost as quickly as it arrived. This is a time of possible financial bonuses and it's about creating your own luck.

\*\*\*\*\*

**January 25 – Leo Full Moon** – This Full Moon demands attention; pulling on our heartstrings with overwhelming emotion at every turn. You must focus on the positive. However, bad behavior can no longer be tolerated. Things can be a bit complicated with the fixed t-square to Jupiter in Taurus which intensifies feelings of determination or of just being stuck. Tact or ready to fight – it is up to you, but one will come into play at this time. With Pluto's aspect the situation can be very complex with hidden pieces yet to be exposed. This is a great time to utilize and energy work such as Reiki to disburse any negative energies. Black obsidian and/or smoky quartz can be useful to absorb any negative energies. Also, utilize some rose quartz to bring in loving, peaceful vibes to reverse any polarities.

\*\*\*\*\*

**January 27 – Uranus stations direct after retrograde since August 28, 2023** – It's a time of rebelliousness and risks. This is the time to express yourself and listen to your own intuition. It's a time of change and re-awakening. Depending where Uranus falls in your astrological chart is where the most change will occur. Worldwide this has to do with environmental and financial changes.

\*\*\*\*\*

“Whenever you have become static, stagnant, or comfortably asleep in the way you identified your reality, you are being asked to consciously embrace the volcanic energy of change.” (Ariel Spilsbury, The 13-Moon Oracle)

Archangel Michael empowers us to create any change we would like to make in our lives such as changing bad habits, etc. He gives the strength needed in all circumstances.

\*\*\*\*\*

To connect with Archangel Michael at anytime you need his help. Simply say this simply prayer: “Archangel Michael, I need you now.” Instantaneously he will be at your side to guide and protect you.

\*\*\*\*\*

He is also the Angel who is assigned to come to us to carry us to the glorious heavens at the time of our departure from this earth. If you are present at the passing of or hear of a soul passing, simply say a prayer to Archangel Michael to protect and carry the soul of that individual straight to the white light.

\*\*\*\*\*

In my readings and healing sessions, I call upon Archangel Michael quite often to heal the negative issues in a person's life and to empower them to strive for their goals. When I do this Michael's energy actually delightfully fills the room. His energy is extremely powerful and unmistakable.

# LOVE

by Kirsten Sciallo

I love this time of year! All things new and exciting. Get out your vision boards and write down your intentions for the New Year! You truly can live the life you desire, one intention at a time. Little steps equal big progress. If you find the you fall off of your path, jump right back on it. There is no need at all to be hard on yourselves. Each step ahead you take, is a step in the right direction. If you are finding that you are not moving forward, try another tactic. Sometimes you are millimeters away from success and accomplishment. Step away from the destination and enjoy the journey along the way. All of your happiness lies in the here and now. The past is over, the future isn't here yet, so all you truly have is right now. If you can stay in the moment and in the now, your happiness will soar because you will be at peace and harmony with yourself. Balance is a fine art. Take each and every experience and learn and grow from it. After all, we are here to experience the totality of living to appreciate all the joy that life has to offer. Good luck and many blessings to you this new year.

Light and Love,

Kirsten
