### SPECIAL PLANETARY ASPECTS FOR JANUARY 2026:

HAPPY NEW YEAR!!! 2026!!!!

Happy Birthday, Capricorn! Capricorn is the tenth sign of the zodiac with the teacher, Saturn, as its ruler. The colors black and royal blue are associated with the sign of Capricorn. Garnet and onyx are Capricorn's gems. Capricorns are loyal, faithful, practical and carry themselves with much dignity. Their downfalls can be their possessive, sometimes jealous nature and that they are the workaholics of the zodiac.

**January 3 – Cancer Full Moon** - Also referred to as the Wolf Moon focusing on home and family. With this Full Moon astrologically at home in the sign of Cancer all emotions are running very deep; especially 3 days before, the day of

### Archangel Michael

Due to the troubling times upon us here on earth in this year 2026, I felt that many could benefit from an understanding of a most powerful Archangel, Michael. Archangel Michael is considered by many to be the Protector of the Earth, to cover and protect us and hold us dear. Archangel Michael empowers us to seek, explore and evolve in the sanctuary of his grace and protection. His

and 3 days after the Full Moon. It is a great time to release any negative emotional ties that create fear or insecurities tied to the past. Manifestation and any type of psychic work are more intense now.

Something is exposed or illuminated, prompting us to get in touch with those things in our personal lives that we may have been neglected. This is the time to clear up past patterns that have been holding us back.

With the Sun's close alignment with Venus and Mars at the time of this Wolf Moon we can feel a spark of creativity and real progress happening.

**January 18 – Capricorn New Moon -** brings a new beginning preparing you for your future success. This New Moon is aligned with Mercury, Venus, Mars, and Pluto. In other words, all of the inner planets are aligned, although Venus is the only inner planet not in Capricorn (Venus is in early Aquarius). This lunation is sextile Saturn and Neptune, trine Uranus, and it's also opposite Jupiter. We're ready to make something special of our profession, reputation, long-term goals, and responsibilities. It's a powerful time for practical solutions and innovation.

Meeting new people can also figure strongly in this equation. It's as much of a practical time as it is a magical period. We're both inspired and ready to put in the work to make things happen.

**January 26 - Neptune enters Aries -** Neptune was in Aries from March 30, 2025, to October 22, 2025, returned to Pisces in retrograde motion, and is now back in Aries to stay: from January 26, 2026, to May 21, 2038, and then October 21, 2038, to March 23, 2039.

Neptune in Aries, encourages independence, courage, bravery, freedom, and fresh starts.

Also, many things hidden will be exposed personally and globally.

**Note: Jupiter and Uranus** continue their retrograde throughout the month of January.

name means "he who is like God".

He heals our fears and nervousness and is certainly the one to call upon if clearing of negative energies surrounding us is needed.

Archangel Michael empowers us to create any change we would like to make in our lives such as changing bad habits, etc. He gives the strength needed in all circumstances.

To connect with Archangel Michael at any time you need his help. Simply say this simple prayer: "Archangel Michael, I need you now." Instantaneously he will be at your side to guide and protect you.

He is also the Angel who is assigned to come to us to carry us to the glorious heavens at the time of our departure from this earth. If you are present at the passing of or hear of a soul passing, simply say a prayer to Archangel Michael to protect and carry the soul of that individual straight to the white light.

In my readings and healing sessions, I call upon Archangel Michael quite often to heal the negative issues in a person's life and to empower them to strive for their goals. When I do this Michael's energy actually delightfully fills the room. His energy is extremely powerful and unmistakable.

# LOVE

by Kirsten Sciallo

Happy New Year everyone! Welcome to the season of blank slates and new beginnings. January is a perfect month to settle in and set your sights on the new year, new you intention mindset. Focus on the growth that you would always want to see in your life. Try to put yourself future forward and not let anything be an anchor of your past. Use all life lessons as a turning point into the direction that you would like to see your life achieve. You are your best chance for success. Surround yourself with people who want to see you flourish and thrive. Try to navigate away from anyone of anything trying to hold you back. You can achieve anything that you set your mind too with a little ingenuity and help from your angels. Let your actions speak for you. Be a person of your word and people will grow to depend on you. What marvelous things lie ahead for you and your future. Sit quietly and find yourself in a grounded and peaceful state and then envision what you would like to see in your future. You are able to change that with which you put your mind and intention too.

Light and Love,  
Kirsten
